

## Nothing But the Very Best . . . .

**W**HAT would you say to a medical journal which, you could be positive, included nothing but articles of the highest significance—one whose contributors are confined to men of the rank of genius. Would you subscribe? of course.

Precisely such a journal is now to be had. Its contributors are the scintillant geniuses of the profession—such as Richard Bright, Dupuytren, Lord Lister, James Paget, Parkinson, McBurney, and a host of others. In short the cream of medical literature of all time.

## MEDICAL CLASSICS

*compiled by Emerson Crosby Kelly, M.D.*

is published in a handsome format, appropriate to the dignity of such an enterprise—i.e., the gathering together of all the significant papers that have made medical history.

Too often the masters are read at second, or third, or even tenth hand. *To learn from the masters, read the masters* is a saying, the wisdom of which cannot be doubted.

MEDICAL CLASSICS will present them all: the original significant paper or papers on such subjects as Addison's Disease, Bright's Disease, McBurney's Point, Fowler's Position, Halsted's Method, and so forward; the best portrait of the author obtainable; a schematic vita of the author; a complete bibliography of his works, showing those which may be found in several of the leading libraries of the country; a brief historical sketch of the subject treated in the author's paper, showing the attitude toward this subject before and since the original publication; a modern English translation if the original paper is in a foreign language; the paper itself, in its entirety.

The publication of MEDICAL CLASSICS is undoubtedly a contribution, to current medical literature, of the first rank.

### For Your Convenience in Ordering

---

THE WILLIAMS & WILKINS CO.,  
Mt. Royal and Guilford Aves.,  
Baltimore, Md.

Gentlemen:

Enter my subscription to MEDICAL CLASSICS. My remittance in the sum of \$10.00 (10 issues per year; about 1000 pp.) is enclosed.

Let me see a specimen copy.
