CONTENTS

Delayed Hypersensitivity. II. Persistence and Conjugate Specificity of the Transfer Reaction. John P. Phair and Fred S. Kantor ........................................................ 302

Fine Structure of Lymphocytes Sensitized to Trichinella spiralis. Mahendra P. Januar, Charles W. Kim and L. D. Hamilton .......................................................... 329

The Effect of Antigen Dose and Time after Immunization on the Amount and Affinity of Anti-Hapten Antibody. Edmond A. Goldl, William E. Paul, Gregory W. Suskind and Baruj Benacerraf ................................................................. 371

The in Vivo Induction of Mouse Lymphocyte Transformation by Phytohemagglutinin. Lois B. Epstein and Charles W. Smith ......................................................... 421

Antibody Production by Isolated Spleen Cells: A Study on the Cluster and the Plaque Techniques. O. B. Zaalberg, V. A. van der Meul and M. J. van Twisk ......................................................... 451

IMMUNOPATHOLOGY

A Proposed Mechanism for Natural Immunity to Enterobacterial Pathogens. Louis Chedid, Monique Parant, Francine Parant and Fernand Boyer ................................................. 292

Skin-Fixing Antibody in Experimental Allergic Encephalomyelitis. George A. Falk, Robert G. Heinze, Marian W. Kies and Ellsworth C. Alvord, Jr. ............................... 321

Susceptibility of Different Mouse Strains to Lymphocytic Choriomeningitis Virus. Michael B. A. Oldstone and Frank J. Dixon ............................................................. 355

MICROBIAL AND VIRAL IMMUNOLOGY

Neutralization of Sensitized Lactic Dehydrogenase Virus by Anti-γ-Globulin. Abner Louis Nortkins, Michael Mage, Warren K. Ashe and Suellen Mahar .............................................. 314

Distribution of Antibodies within 19 S and 7 S Immunoglobulins following Infection with Mycoplasma pneumoniae. Gunnel Biberfeld ....................................................... 338

Development in Hamsters of Antibodies against Surface Antigens Present in Cells Transformed by Papovavirus SV40. Satvir S. Tethisia, Lynda A. Couvillion and Fred Rapp ............................................................ 358

The Growth of Mumps Virus in Organ Cultures of Rhesus Thyroid Gland. Thomas D. Flanagan, Almen L. Barron and Ernest Witebsky ............................................. 414

Reaction of Endotoxin and Surfactants. II. Immunologic Properties of Endotoxins Treated with Sodium Deoxycholate. David F. Tarminia, Kelsey C. Milner, Edgar Ribi and Jon A. Rudbach ................................................................. 444

NUMBER 3, MARCH 1968

IMMUNOCHEMISTRY

Serum Complement and the Enzymatic Degradation of Erythrocyte Phospholipid. J. Kelly Smith and Elmer L. Becker .................................................................................. 450

Isolation of a Protein Antigen following Extraction of Lipids from Sheep Red Blood Cell Stroma. I. Hemolytic IgM Primary Response and Hemolytic IgG Secondary Response in Rabbits. Charles A. Santos-Buch and J. René Guzmán-Rivero 475

The Immune Response in the Hamster. I. Definition of Two 7 S Globulin Classes: 7 S1 and 7 S2. John E. Cee ............................................................................................. 507

Production of Fe Fragments of IgM. Vincent Yakulis, John Schmale, Nicolas Costeia and Paul Heller ....................................................................................................... 525

Reversed Type Allergic Skin Reactions by Anti-γ-E Globulin Antibodies in Humans and Monkeys. Kimishige Ishizaka and Teruko Ishizaka .................................................. 554

On the Nature of Cryoglobulins. Horace H. Zinneman, Donald Levi and Ulysses S. Seal .............................................................. 594

Specificity of Antiglobulin Factors in Normal Human Serum Reacting with Enzyme Digested γG-Globulin. Lucy C. Kormeier, Judy T. Ing and William J. Mandy ................................. 612
The Effect of Salt-Induced Aggregation on the Gel Filtration of Chicken 7 S Antibodies. Dianna E. Van Orden and Henry P. Treffers ................................................................. 659
A Demonstration of the Coprecipitation of β-Lipoproteins with Specific Precipitates of Chicken Antibodies and Human Serum Albumin. Dianna E. Van Orden and Henry P. Treffers ................................................................. 664
Studies on Organ Specificity. XIX. Antigenic Specificity of Seminal Plasma and the Formation of Autoantibodies. Sidney Shulman, Clelia Riera and Carlos Yantorno ................. 682

IMMUNOGENETICS

Genetic Control of the Antibody Response Response. III. Qualitative and Quantitative Characterization of the Antibody Response to (T, G)-A--L in CBA and C57 Mice. Hugh O. McDevitt .............................. 485
Direct Demonstration and Quantitation of Aal, Aa2 and Aa3 Allotypic Specificities on Fd-Fragments of Rabbit Immunoglobulin G. Antoine Micheli, Rose G. Mage and Ralph A. Reisfeld.. 604

CELLULAR IMMUNOLOGY

The Detection of Antibody-Containing Cells in the Blood Stream during the IgM Cellular Antibody Response. Raymond N. Hiramoto, N. Marlene Hamlin and Holland L. Harris ......... 637

IMMUNOPATHOLOGY

Serum Complement in the Rejection of Sarcoma I Ascites Tumor Grafts. Mildred E. Phillips, Ursula Rother and Klaus Rother ................................................................. 493
“Protein A” from Staphylococcus aureus. IV. Production of Anaphylaxis-Like Cutaneous and Systemic Reactions in Non-Immunized Guinea-Pigs. G. T. Gustafson, G. Stålenheim, A. Forsgren and J. Sjöquist ................................................................. 503
Isolation of Cx-Reactive Protein by Gel Filtration and Characterization by Electrophoresis and Immunodiffusion. Hector D. Croxatto, E. T. Nishimura, K. Yamada and Y. Hokama .... 563
In Vitro Effects of Phytohemagglutinin and Brain Antigen on Cell Transfer of Experimental Autoimmune Ecephalomyelitis in Lewis Rats. H. D. Flad, P. Y. Paterson and P. A. Miescher ..... 647
Wasting Disease Induced with Cortisol Acetate. II. Bacteriologic Studies. John W. Jutila and Norman D. Reed ..................................................................................... 675

MICROBIAL AND VIAL IMMUNOLOGY

Inhibition by Cardiolipin of the Antibody Response to Bacterial Antigens. H. Y. Whang and E. Neter ..................................................................................... 501
Antigens of Rickettsia prowazeki. I. Activity in Complement Fixation and Mouse Protection Tests. Lewellys F. Barker and Judith K. Patt ................................................................. 543
Antigens of Rickettsia prowazeki. II. Activity in Guinea Pigs and Experimental Vaccine Production. Lewellys F. Barker and Judith K. Patt ................................................................. 548
Antibody Responses in Rabbits to the Group B Arbovirus Kunjin: Serologic Activity of the Fractionated Immunoglobulins in Homologous and Heterologous Reactions. E. G. Westaway .... 569
The Age Distribution in Humans of Hemagglutinating-Inhibiting Antibodies Reacting with Avian Strains of Influenza A Virus. Fred M. Davenport, Albert V. Hennessy and Elva Minuse .... 581
Announcement ..................................................................................... 689
The Demonstration in Human Serum of "Conglutinogen-Activating Factor" and Its Effect on the Third Component of Complement. Peter J. Lachmann and Hans J. Muller-Eberhard ........................................... 691
Localization of SI S External Secretory IgA by Immunofluorescence in Tissues Lining the Oral and Respiratory Passages in Man. Roger D. Rossen, Councilman Morgan, Konrad C. Hsu, William T. Butler and Harry M. Rose ...................................................... 706
Antigenic Determinants Specific for Aggregated γG-globulins. Christopher S. Henney and Kimishige Ishizaka ............................................................................ 718
The Isolation of Immunoglobulins of the Adult Opossum (Didelphys virginiana). David T. Rowlands, Jr. and Mary A. Dudley............................................................ 736
Mouse Macroglobulin Antibody to Sheep Erythrocytes: A Non-Complement-Fixing Type. Paul H. Plotz, Harvey Colten and Norman Talal ................................. 752
Complementarity of Heavy and Light Chains from Antibodies of the Same Specificity Derived from Different Rabbits. Serafino Zappacosta and Alfred Nisonoff .......................... 781
Reversible Loss of Activity of the First Component of Complement (C'I) as a Function of Ionic Strength. Harvey R. Colten, Tibor Borsos and Herbert J. Rapp ........................................... 799
Ultracentrifugation of the First Component of Complement: Effects of Ionic Strength. Harvey R. Colten, Tibor Borsos and Herbert J. Rapp ........................................... 808
The Role of Monobasic Aliphatic Fatty Acids in Immune Agglutination of Sheep Erythrocytes. J. Kelly Smith .............................................................................. 863
Carbodiimide-Induced Bentonite-Antigen Complexes: Readily Prepared Immunoadsorbents. Robert R. Carpenter and Margaret A. Reisberg ........................................... 873
An Aggregating Immunoglobulin in Hyperimmune Equine Anti-Pneumococcal Sera. Suzan Zolla and Joel W. Goodman ............................................................... 880
Separation of New Skin Reactive Antigens from Dwarf Ragweed Pollens. A. R. Goldfarb ............................................................... 902

Sex-Related Resistance in Hamsters to Adenovirus-12 Oncogenesis. III. Influence of Immunologic Impairment by Thymectomy or Cortisone. David S. Yohn, Clare A. Funk and James A. Grace, Jr. .............................................................. 771
Antigenic Characterization of Infectious Bronchitis Virus. Satvir S. Tevethia and Charles H. Cunningham ................................................................................................. 793
Production of Rickettsial Complement-Fixing Antigens in Tissue Culture. Lewellys F. Barker and Judith K. Patt ................................................................. 821
Titration and Neutralization of *Rickettsia tsutsugamushi* in Tissue Culture. Lewellys F. Barker, Judith K. Patt and Hope E. Hopps ......................................................... 825

A New Serologic Test for Adenovirus Infection. Malcolm S. Artenstein and Oliver W. Danbridge.. 831

Immunosuppression during Acute Murine Cytomegalovirus Infection. June E. Osborn, Andrew A. Blakovee and Duard L. Walker ............................... 835

Enhancement of Phagocytosis of Group A Streptococci by Antibody Fragments Derived from Rabbit Immunoglobulin by Pepsin Digestion. John C. Perkins and Jerome J. Hahn .......... 898

**COMMUNICATIONS**

Tolerance in *Vitro*: Suppression of Immune Responsiveness to Bovine γ-Globulin after Injection of Antigen into Intact Lymphoid Organs. David W. Scott and Byron H. Waksman .............. 912

**NUMBER 5, MAY 1968**

**IMMUNOCHEMISTRY**

Passive Sensitization of Monkey Lung Fragments with Sera of Timothy-Sensitive Patients. I. Spectrofluorometric Analysis of Histamine Release. Arthur Malley and Raymond L. Harris, Jr......................................................... 915

Protein A from *Staphylococcus aureus*. V. Reaction with Guinea Pig γ-Globulins. Arne Forsgren ............................... 921

Protein A from *Staphylococcus aureus*. VI. Reaction with Subunits from Guinea Pig γ1- and γ2-Globulin. Arne Forsgren ............................... 927

Inhibition of Guinea Pig Complement by Maleopimaric Acid and Other Derivatives of Levopimaric Acid. M. Michael Globsky, Elmer L. Becker and Noah J. Holbrook ...................... 979

Ultracentrifugal Studies of the Reaction of IgM Anti-γ-Globulin Subunits with Human IgG. Ralph E. Schroenloher and Carolyn B. Barry ...................................... 1006

Antigenic Analysis of Human Heart Tissue. Identification of Antigens with Specificity Restricted to Heart and Skeletal Muscle in Acid Extracts of Myocardium. Enrique Espinosa and Melvin H. Kaplan ......................................................... 1020

Structure of Human Immunoglobulin M. III. Papain Fragmentation of IgM. Tadamitsu Kashi-moto, Kaoru Onoue and Yuichi Yamamura ............................... 1032

Modification of the Amino Groups of Rabbit Gγ-Globulin. I. The Effect of Skin Sensitizing Activity in Guinea Pig Skin. M. Ljaljevic, J. Ljaljevic and C. W. Parker ...................... 1041

Modification of the Amino Groups of Rabbit Gγ-Globulin. II. Selective Effects on Fe Function. M. Ljaljevic, J. Ljaljevic and C. W. Parker ............................................... 1051

Studies of the Proteins of Lacrimal Secretions. Alan S. Josephson and Roy S. Weiner ......................................................... 1080

Quantitation of Immunoglobulins and L-Chains by Complement Fixation Tests. Eugene V. Barnett ......................................................... 1093

Immunologic and Immunochemical Studies in the Hamster. I. The Role of the Antigen in Eliciting IgG- and IgM-Associated Antibodies. Ruth A. Fugmann and M. Michael Sigel ......................................................... 1101

**IMMUNOGENETICS**

The Immune Response of Random-Bred Hartley Strain Guinea Pigs to 2,4-Dinitrophenyl Conjugates of a Copolymer of L-Glutamic Acid and L-Lysine. Jean Pierre Lamelin, William E. Paul and Baruj Benacerraf ......................................................... 1058

**CELLULAR IMMUNOLOGY**

*In Vivo and in Vitro* Properties of Intact and Pepsin-Digested Heterologous Antimouse Thymus Antibodies. Gert Riethmüller, Doris Riethmüller, Hans Stein and Peter Hansen .......... 969

Role of the Thymus in Tolerance. VI. Tolerance to Bovine γ-Globulin in Rats Given a Low Dose
of Irradiation and Injection of Nonaggregated or Aggregated Antigen into the Shielded Thymus. Atsushi Horiuchi and Byron H. Waksman ........................................... 974
A New Method for the Enumeration of Single Antibody-Producing Cells. E. Diener .................. 1062
Kinetics of Erythrocyte and Lymphocyte Agglutination by PHA. C. C. Stewart, A. Nakeff and M. Ingram. ........................................................................ 1121
The Response of Cultured Human Thymus Cells to Phytohemagglutinin. Henry N. Claman and Capt. Frank H. Brunstetter ............................................................... 1127

IMMUNOPATHOLOGY
Passive Anaphylaxis in Mice with γG Antibodies. III. Release of Histamine from Mast Cells by Homologous Antibodies. Nelson M. Vaz and Zoltan Ovary ................................ 1014

MICROBIAL AND VIRAL IMMUNOLOGY
Relative Stabilities of Complexes of Measles Soluble and Viral Hemagglutinins with 19 S and 7 S Immunoglobulins. Ann Schluederberg........................................ 964
The Immunoglobulin Response in Intact and Splenectomized Calves Infected with Anaplasma marginale. G. G. B. Klaus and E. W. Jones .................................................. 991
Studies on the Mechanism of the Enzymatic Reactivation of Antibody-Neutralized Poliovirus. Robert Keller........................................................................ 1071
The Agglutinating and Bactericidal Activity of IgM and IgG Antibodies to the 9 and 12 factors of Salmonella typhi O 901. Fritz Daguillard and Geoffrey Edsall .............. 1112
Direct Immunofluorescent Tissue Culture Assay for Lymphocytic Choriomeningitis Virus. Michael B. A. Oldstone and Frank J. Dixon ................................................ 1135

COMMUNICATIONS
Lack of Adjuvant Effect of AlPO4 on Purified Influenza Virus Hemagglutinins in Man. Fred M. Davenport, Albert V. Hennessy and Frederic B. Askin..................................................... 1139
Immune Response of Strain 13 Guinea Pigs to Lysine-Containing Polymers of Amino Acids. Paul H. Maurer and Paul Pinchuck......................................................... 1141
Notice. Immunoglobulin E. A New Class of Human Immunoglobulin........................... 1143

NUMBER 6, JUNE 1968

IMMUNOCHEMISTRY
Fixation of C' and C'1a by Rabbit γG- and γM-antibodies with Particulate and Soluble Antigens. Teruko Ishizaka, Tomio Tada and Kimishige Ishizaka ........................................... 1145
The Stoichiometric Measurement of the Serum Inhibitor of the First Component of Complement by the Inhibition of Immune Hemolysis. Irma Gigli, Shaun Ruddy and K. Frank Austen. ........................................... 1154
Quantitative Studies of the Specificity of Anti-pneumococcal Polysaccharide Antibodies, Types III and VIII. III. Binding of a Labeled Oligosaccharide Derived from S8 by Anti-S8 Antibodies. A. M. Pappenheimer, Jr., William P. Reed and Robin Brown ........................................... 1237
Skin-Sensitizing Properties of Guinea Pig Antibodies to Keyhole Limpet Hemocyanin. Gill Strejan and Dan H. Campbell ........................................... 1245
Mechanism of Cleavage of Rabbit IgG in Two Stages by Soluble Papain and Reducing Agent. Serafino Zappacosta, Alfred Nisonoff and William J. Mandy ........................................... 1268
Comparison of Certain Properties of Naturally Occurring Low Molecular Weight γM and the γM Monomer Derived by Reduction and Alkylation of 19 SγM. Harry A. Swedlund, Gerald J. Gleich and William B. Chodirker .......................................................... 1296

CELLULAR IMMUNOLOGY
Stability of Human Leukocyte Granules which Contain Histamine. Jacob J. Pruzansky and Roy Patterson.......................................................... 1165
CONTENTS

Preparation of Fluorescent Antibody Reagents Monospecific to Heavy Chains of Human Immunoglobulin. M. Takahashi, Y. Yagi and D. Pressman ......................................... 1169

Macrophage-Lymphocyte Interaction in the Antigen-Induced Blastogenic Response of Human Peripheral Blood Leukocytes. Evan M. Herah and Jules E. Harris 1184

Studies of the Chicken Immune Response. II. Biologic Activity of Spleen “Immunogenic RNA.” Peter Abramoff and Nancy B. Brien 1210

Immunologic Incompetence of Mouse Perinatal Liver Hematopoietic Cells against Transplantation Antigens. Mortimer M. Bortin and Edward C. Saltzstein 1215

An In Vitro Assay for Encephalitogenic Components of Central Nervous Tissue. J. A. Brockman, A. V. Stiffey and W. C. Tesar 1230

Role of Thymus in Adoptive Tolerance. Berti~ F. Argyris 1255

Amphibian Plasma Cells. Ronald R. Cowden, Robert F. Dyer, Bryan M. Gebhardt and E. Peter Volpe 1293

Regulation of Antibody Synthesis against Escherichia coli Endotoxin. I. Suppressive Effect of Endogenously Produced and Passively Transferred Antibodies. Sven Britton and Göran Möller 1326

IMMUNOPATHOLOGY

Thermostable Kidney Antigen and Its Excretion into Urine. Hans W. Intorp and Felix Milgrom 1195

Sedimentation Properties of Antibody Cytophilic for Macrophages. Arthur Berken and Baruj Benacerraf 1219

The Induction of Acute Glomerulonephritis in Rabbits with Soluble Antigens Isolated from Normal Homologous and Autologous Urine. R. A. Lerner and F. J. Dixon 1277

Induced Localization of Allergic Adrenalitis and Encephalomyelitis at Sites of Thermal Injury. Seymour Levine and Eugene M. Hoenig 1310

MICROBIAL AND VIRAL IMMUNOLOGY

Enterovirus Immunodiffusion Reactions: A Comparison of Results Obtained in Agarose and Agar Using Two Different Microdiffusion Systems. Bohumil Styk and Nathalie J. Schmidt 1223

Evaluation of an Agar Gel Precipitin Test for the Serodiagnosis of Actinomycosis. Lucille K. Georg, R. Marie Coleman and June M. Brown 1288

Vaccination Response in Rabbits Related to Quantity of Vaccinia Virus Particles and Passage Level. Ruth C. Dunlap, G. J. Galasso and D. G. Sharp 1335

COMMUNICATIONS

Heparin-MnCl₂ Removal of Nonspecific Serum Inhibitor for Measles Virus Hemagglutinin. Harry A. Feldman 1353
