THE JOURNAL OF IMMUNOLOGY®

Contents for January

IMMUNOCHEMISTRY

γA Half Molecules: Defective Heavy Chain Mutants in Mouse Myeloma Proteins. J. FREDERIC MUSHINSKI ................................................................. 41

The Interaction of Human IgM and C1q. MALCOLM R. MACKENZIE, NANCY CRESEY AND MONA HEE. ............................................................. 65

Immunochromatography of Capsular Glucans Isolated from Streptococcus bovis. JUDITH A. KANE AND W. W. KARAKAWA ..................................... 103

Bence Jones Proteins and Light Chains of Immunoglobulins. IV. Immunochemical Differentiation among Proteins within Each of the Three Established κ-Chain Classes. ALAN SOLOMON AND CARLA L. MCLAUGHLIN ........................................ 120

Immunoglobulin E-Type Antibodies Induced by Ascaris suum Infections in Guinea Pigs. C. DODSON, D. J. MORSETT AND E. J. L. SOULSBY. 128

The Isolation and Biologic Activities of Purified Secretory IgA and IgG Anti-Salmonella typhimurium "O" Antibodies from Rabbit Intestinal Fluid and Colostrum. DAVID S. EDDIE, MARTIN L. SCHULKIND AND JOHN B. ROBBINS ........................................ 181

IMMUNOGENETICS

Antigenic Variation of 7Sγ1, 7Sγ2 and γM Globulins within the Genus Peromyscus. J. E. COE. ............................................................................. 34

CELLULAR IMMUNOLOGY

Antibody Formation to Equine Anti-Lymphocytic Globulin (ALG) in Man: Effect on Absorption, Distribution and Effectiveness of the ALG. WILLIAM T. BUTLER, ROGER D. ROSS, MARGARET A. REISBERG, JACK B. MAZOW, JOHN J. TRETIN AND KENNETH P. JUDD ........................................................................ 1

Preventing Antibody Formation to Anti-Lymphocytic Globulin in Man. ROGER D. ROSS, WILLIAM T. BUTLER, JAMES J. NORA AND DONALD J. FERNBACH. ................................................................. 11

Comparisons of the Specificities of Cell-Mediated and Humoral Immune Responses. I. Cytolytic Lymphocytes and Plaque-Forming Cells following Immunization with Dinitrophenylated Human IgG. CHRISTOPHER S. HENNEY AND ALBERT A. NORDIN ..................................................................................... 20

Antibody Inhibition of the Immune Response: Experimental Analysis of the Site of Action in Vivo. R. A. EISENBERG AND I. L. WEISSMAN ................................................................. 143

Use of 125I in Studies of Cellular Immunity to Mycobacterium tuberculosis, Brucella melitensis and Poliovirus, Type I. HERTA M. VICKERY AND SANFORD S. ELDERS. ................................................................. 191

Lymphocyte Transformation in Rickettsioses. J. DONALD COONROD AND CHARLES SHEPPARD ..................................................................................... 200

Depressed Cellular and Humoral Hemolysin Responses of Rabbits Injected Intraperitoneally with Mineral Oil before Immunization. MARY IDA-JO HuARD AND R. J. SIEBELING. ................................................................. 209

Continued
Contents Continued

IMMUNOPATHOLOGY

The Production of Hapten-Specific Reaginic Antibodies in the Guinea Pig. BERNARD B. LEVINE, HENRY CHANG, JR. AND NELSON M. VAZ .......................................................... 29

Rabbit Platelet Injury by Soluble Antigen and Antibody. I. Inhibitory Action of Citrate, TAME and ACTEE. SAMUEL R. MARNEY, JR. AND ROGER M. DES PREZ .......................................................... 74

Rabbit Platelet Injury by Soluble Antigen and Antibody. II. Platelet Aggregation in Heparinized Plasma and Citrated Plasma, Relationship to ADP and Inhibition by Cobra Factor. SAMUEL R. MARNEY, JR. .......................................................... 82

Corneal Hypersensitivity. I. Escape Kinetics of Antigen from Sensitized Corneas. THEODORE W. SERY, ROSE MARIE NAGY AND G. WINSTON BARBER .......................................................... 217

Corneal Hypersensitivity. II. Specific Binding of Antigen in Sensitized Corneas. THEODORE W. SERY AND ROSE MARIE NAGY .......................................................... 226

The Significance of the Mast Cell Response to Bee Venom. R. D. HIGGINBOTHAM AND S. KARNELLA .......................................................... 233

The Inhibitory Effect of Vitamin A on Complement Levels and Tolerance Production. MIGUEL M. AZAR AND ROBERT A. GOOD .......................................................... 241

MICROBIAL AND VIRAL IMMUNOLOGY

Opsonic Activity of Agammaglobulinemic Human Sera. RALPH C. WILLIAMS, JR. AND PAUL G. QUIE .......................................................... 51

The Interferon Refractory State: In Vivo and In Vitro Studies of its Mechanism. ERNEST C. BORDEN AND FREDERICK A. MURPHY .......................................................... 134

COMMUNICATIONS

Enhanced Antibody Response in the Offspring of Immunized Rats. THOMAS J. GILL, III AND HEINZ W. KUNZ .......................................................... 274

Specificity of Tolerance to Antigens the Immune Response of Which is Controlled by the PLL Gene. HELENA SELAWRY, IRA GREEN AND BARUJ BENACERRAF .......................................................... 276

Role of the Basophilic Leukocyte in Allograft Rejection. HAROLD F. DVORAK .......................................................... 279

Two Complement Interaction Sites in Guinea Pig Immunoglobulins. ANN L. SANDBERG, BENEDITO OLIVEIRA AND ABRAHAM G. OSLER .......................................................... 282

Localization of b Markers, α-Chain and SC of SIgA in Epithelial Cells Lining Lieberkühn Crypts. JOSÉ A. O’Daly, SUSAN W. CRAIG AND JOHN J. CEBRA .......................................................... 286

Mouse Blood Leukocytes: In Vitro Primary and Secondary Responses to Two Synthetic Polypeptides. MARVIN L. TYAN AND DOLLY B. NESP .......................................................... 289

Studies of Antimuscle Factor in Myasthenia Gravis. II. Reactions of Fragments Produced by Enzymatic Digestion. DALE E. MCFARLIN AND JOHN S. JOHNSON .......................................................... 292
