Meloy Laboratories  
(formerly Melpar Biological Products Laboratory)

Now Introduces:

Abnormal Reference Serum  
For Immunoelectrophoresis Testing. In Kits.

These kits contain vials of abnormal reference sera. This is the first time these sera are available for use as reference material in immunoelectrophoresis laboratory testing.

Clinical and research laboratories as well as medical schools should find these kits invaluable as guides for teaching and training lab technicians to recognize abnormal immunoelectrophoresis patterns, and as a ready reference for day to day testing.

Each kit consists of 1 ml of the following:
