Print ISSN: 0022-1767 Online ISSN: 1550-6606.
## Cellular Immunology

Lymphocyte Classes in New Zealand Mice. I. Ontogeny and Mitogen Responsiveness of Thymocytes and Thymus-Derived Lymphocytes. John D. Stobo, Norman Talal and William E. Paul ................................................ 692

Lymphocyte Classes in New Zealand Mice. II. Decreased Frequency of Immunoglobulin-Bearing Lymphocytes and Increased Frequency of Lymphocytes Lacking Detectable γ or Immunoglobulin Determinants. John D. Stobo, Norman Talal and William E. Paul ....................................................... 701

The Effect of Antibodies to Complement Components C2, C3 and C5 on the Production and Action of Lymphotoxin. Maurice K. Gately and Manfred M. Mayer ........... 728

A Mechanism for the Unresponsive State in BALB/c Mice after Repeated Doses of Sheep Erythrocytes. Philip D. Thomson and John W. Jutila ......... 742

Preparation of Dinitrofluorobenzene-Treated Sheep Erythrocytes for Detection of Anti-DNP Plaque-Forming Cells. Gary N. Trombetta and Howard M. Grey, Sonia Colón, Priscilla Campbell and Enrique Rabellino ......................................................................................... 754

Immunoglobulins on the Surface of Lymphocytes. V. Quantitative Studies on the Question of Whether Immunoglobulins are Associated with T Cells in the Mouse. Howard M. Grey, Sonia Colón, Priscilla Campbell and Enrique Rabellino ......................................................................................... 776

Use of 2-Mercaptoethanol for Distinguishing between IgM and IgG Antibody-Producing Cells of Mice Immunized with Bovine γ Globulin. Masamichi Hosono and Shigeru Muramatsu ................................................ 857

## Immunochemistry

Structural Differences in Mouse Igα Myeloma Proteins of Different Allotypes. Noel L. Warner and J. J. Marchalonis .......................................................... 665

Valence and Temporal Change in Affinity for Purified 7S and 18S Nurse Shark Anti-2,4-Dinitrophenyl Antibodies. Edward W. Voss, Jr., and Michael Sigel .... 665

Polymer Formation and J Chain Synthesis in Mouse Plasmacytomas. Michael S. Halpert and Robert L. Coffman .................................................. 764

Rabbit Precipitin Antibody to Chicken Erythrocyte Histone F2C. N. Sotiropov and E. W. Johns .............................................................. 868

C3 Shunt Activation in Human Serum Chelated with EGTA. Douglas P. Fine, Samuel R. Marney, Jr., Daniel G. Colley, John S. Sergent and Roger M. Des Prez .............................................................. 807

Complement-Unlike Hemolytic Activity in Lobster Hemolymph. James L. Hall, David T. Rowlands, Jr., and Ulf R. Nilsson ........................................... 816

Immunoglobulin Class of Influenza Antibodies Investigated by Radioimmunossay (RIA). Harry Daugharty, Marnanne L. Davis and Harold S. Kaye ........... 849

## Immunogenetics and Transplantation

The Humoral Immune Response in Mice after Neutron or X-Irradiation at Different Dose Rates. Charles F. Gottlieb and Nazareth Gengozian .......... 871

Radiation Dose, Dose Rate, and Quality in Suppression of the Humoral Immune Response. Charles F. Gottlieb and Nazareth Gengozian ................. 879

Serologic Identity of the b4 Allotypic Determinants Present on Homogeneous Rabbit Light Chains with Different N-Terminal Amino Acid Sequences. T. J. Kindt, E. K. Seed, H. Lackow and A. L. Thurnberg ........................................ 735

Use of the Macrophage Migration Inhibition Test to Monitor Fractionation of Soluble Antigens of Chemically Induced Sarcomas of Inbred Guinea Pigs. Ludwig Suter, Barry R. Bloom, Elisabeth M. Wadsworth and Herbert F. Oettgen 766

Continued
IMMUNOPATHOLOGY

Use of Dextran-Conjugated SRBC for the Detection of MOPC 104E Tumor Cells. VITHAL K. GHANTA, N. MARLENE HAMLIN, THOMAS G. PRETLOW AND RAYMOND N. HIRAMOTO ......................... 810

VIRAL AND MICROBIAL IMMUNOLOGY

Intravaginal Immunization of Humans with Candida albicans. R. H. WALDMAN, J. M. CRUZ AND D. S. ROWE .............................................................. 662
Antigenic Competition and Nonspecific Immunity after a Rickettsial Infection in Mice: Restoration of Antibacterial Immunity by Phenyl-Iodothiazole Treatment. GERARD RENOUX AND MICHELLE RENOUX ........................................ 761
Prevalence of Hepatitis B Virus Antigen as Revealed by Direct Radioimmune Assay with IgG-Antibody. C. M. LING AND L. R. OVERBY ..................... 834
Detection of Additional Antigenic Determinants of Hepatitis B Antigen. WILLIAM H. BANCROFT, FRANCIS K. MUNDON AND PHILIP K. RUSSELL ............... 842

COMMUNICATIONS

Proliferation by Bone Marrow-Derived Lymphocytes in Response to Antigenic Stimulant in Vitro. GERALD J. ELFENBEIN, ETHAN I. SHEVACH AND IRA GREEN ....................... 870
Complement Fixation Blocking Activity of Anti-Dengue IgM Antibody. ROBERT MCNAIR SCOTT AND PHILIP K. RUSSELL ........................................ 875
Suppression of Graft-vs-Host Reaction by a Spleen Extract. E. GARCIA-GIRALT, V. H. MORALES, E. LA SALVIA AND G. MATHE ........................................ 878
Hyperimmune Response to a Protein and a Polypeptide Antigen Coated on Pneumococcus R36A. H. C. MCDONALD, G. OOSTRICH AND P. H. MAUBER .......... 881
Synthesis of Macrophage Migration Inhibition Factor (MIF) by Immunoglobulin-Producing Lymphocyte Lines and Their Clones. T. TSUCHIMOTO, D. G. TUBERGEN AND A. D. BLOOM ................................................. 884
Reaginic Antibody Receptors on Murine Mastocytoma Cells. PATRICIA MINARD AND DAVID A. LEVY ................................................................. 887
Chemical Evidence for β-Type Amyloid Fibril Proteins. S. KIMURA, R. GUYER, W. D. TERRY AND G. G. GLENNER ................................................................. 891
Host Defense against Bacterial Endotoxemia: Contribution of the Early and Late Components of Complement to Detoxification. JOSEPH E. MAY, MICHAEL A. KANE AND MICHAEL M. FRANK ......................................................... 893
Macrophage Proteinase and Inflammation: The Production of Chemotactic Activity from the Fifth Component of Complement by Macrophage Proteinase. R. SNYDERMAN, HYUN S. SHIN AND ARTHUR M. DANNENBERG, JR ......................................................... 896
Detection of Migration Inhibitory Activity in Human Mixed Lymphocyte Cultures. B. K. MOOKERJEE, VINCENT LAO AND J. B. DOSSETOR ................................. 899
Structural Studies of Human J Chain. GERALDINE C. MEINKE AND HANS L. SPIEWALBERG ................................................................. 903
Purification and Characterization of Coliphage MS2 Hapten Conjugates. LYNDA K. CURTIS AND ROBERT G. KREUGER ......................................................... 907
Lysis of Rabbit Platelets by F(ab')2 Antibody Fragments. REUBEN P. SIRAGANIAN, ANN L. SANDBERG AND ABRAHAM G. OSLER ........................................... 915
Disappearance and Recovery of Human Monocyte IgG Receptor Activity after Phagocytosis. M. E. SCHMIDT AND S. D. DOUGLAS .............................. 922
