THE JOURNAL OF IMMUNOLOGY®

Contents for May

CELLULAR IMMUNOLOGY

The Formation of Stable E Rosettes after Neuraminidase Treatment of either Human Peripheral Blood Lymphocytes or of Sheep Red Blood Cells. Uri Galili and Michael Schlesinger ....................................................... 1628

Chymopapain C: An Immunosuppressive Protease. II. Effect on the Primary and Secondary Immune Response of Mice. James A. Clagett, Sei Tokuda, and Warren E. Engelhard ...................................................... 1660

Regulation of Antibody Response in Vitro. VIII. Multiplicity of Soluble Factors Released from Carrier-Specific Cells. Tadamitsu Kishimoto and Kimitohče Ishizaka ...................................................... 1685

Participation of Different Cell Populations in Antigen- and Nitrogen-Induced Lymphocyte Proliferation. Evidence that Blastogenic Factor-Sensitive Lymphocytes are Inactivated by 5-Bromo-2'-Deoxyuridine. Veleta A. Lazda and Peter Baram ...................................................... 1705

Antigen Binding T and B Lymphocytes. I. Differences in Cellular Specificity and Influence of Metabolic Activity on Interaction of Antigen with T and B Cells. Günter J. Hämerling and Hugh O. McDevitt ...................................................... 1726

Antigen Binding T and B Lymphocytes. II. Studies on the Inhibition of Antigen Binding to T and B Cells by Anti-Immunoglobulin and Anti-H-2 Sera. Günter J. Hämerling and Hugh O. McDevitt ...................................................... 1734

The Abrogation of Macrophage Migration Inhibition by Pretreatment of Immune Exudate Cells with Anti-β Antibody and Complement. Bruce A. Clinton, Terry J. Magoc, and Richard L. Aspinall ...................................................... 1741

Evaluation of C3 Receptors on Lymphoid Cells with Different Complement Sources. Manfred P. Diesch, Michele A. Pellegrino, Soldano Perrone, and Ralph A. Reisfeld ...................................................... 1766

The Tolerant Cell: Direct Evidence for Receptor Blockade by Tolerogen. Marlene Aldo-Benson and Yves Borel ...................................................... 1793

The Release of Antigen Molecules from Macrophages—Characterization of the Phenotype. Jesus Calderon and Emil R. Unanue ...................................................... 1804

Migration Inhibition Factor (MIF) and Migration Stimulation Factor (MSF) in Fetal Calf Serum. Roy A. Fox, Douglas S. Gregory, and Joseph D. Feldman ...................................................... 1861

Macrophage Receptors for Migration Inhibitory Factor (MIF), Migration Stimulation Factor (MSF), and Agglutinating Factor. Roy A. Fox, Douglas S. Gregory, and Joseph D. Feldman ...................................................... 1867

The Role of Humoral Factors in the Initiation of In Vitro Primary Immune Responses. IV. Are Macrophages the Adherent Cell Type Required for Cell Cooperation. James Watson, Marilyn Thomas, Peter Ralph, and Ekkehart Trenkner ...................................................... 1873

Periodate-Induced Lymphocyte Transformation. IV. Mitogenic Effect of NaIO4 Treated Lymphocytes upon Autologous Lymphocytes. Richard L. O'Brien, John W. Parker, Patricia Paolilli, and Joan Steiner ...................................................... 1884

Immunologic Tolerance to a Hapten. III. Induction of Tolerance to Trinitrophenyl in B Cells in Various Differentiation States. John M. Fidler and Edward S. Golub ...................................................... 1891

Relationship of Immunoglobulin to Complement Receptors of Human B Cells. Ises Abrahamsohn, Ulf R. Nilsson, and Nahid I. Abdou ...................................................... 1931

IMMUNOCHEMISTRY

Glycopeptides of Heavy Chains from Human IgA Myeloma Proteins. Jean-Pierre J. Desponct and Carlos A. Abel ...................................................... 1623

Isolation and Characterization of the Proenzyme Form of the C1r Subunit of the First Complement Component. Gunter Valet and Neil R. Cooper ...................................................... 1667

Clonal Nature of the Immune Response to Phosphorylcholine. II. Idiotype Specificity and Binding Characteristics of Anti-Phosphorylcholine Antibodies. J. Latham Claflin, Rose Lieberman, and Joseph M. Davie ...................................................... 1747

Continued
A Cell Surface Antigenic Determinant Present on Mouse Plasmacytes and only about Half of Mouse Thymocytes. Masanich Yutoku, Allan L. Grossberg, and David Pressman ............................................................ 1774

The Reaction of Zymosan with the Properdin System: Isolation of Purified Factor D from Guinea Pig Serum and Study of Its Reaction Characteristics. Volker Brade, Anne Nicholson, Gerald D. Lee, and Manfred M. Mayer .......... 1845

Polymerized Ragweed Antigen E. III. Differences in Immunochemical Response to Three Molecular Weight Ranges of Monomer and Polymer. Roy Patterson and Irena M. Suszko ......................................................... 1855

Isolation of IgE from Reaginic Rat Serum. Chaviva Isersky, Anthony Kulczycki, Jr., and Henry Metzger ............................................................. 1909

Aggregation of Fc' Subfragments Produced by Tryptic Hydrolysis of Human IgM at Elevated Temperature. James P. Chen, Carol B. Beyer, and Stella D. Elakovich ................................................................. 1920

IMMUNOGENETICS AND TRANSPLANTATION

Immunogenicity and Partial Purification of Soluble H-2 Antigens Extracted with Hypertonic Salt. Dietrich Götzee and Ralph A. Reisfeld .................. 1643

IMMUNOPATHOLOGY

Specific Binding of Mouse IgE with Rat Mast Cells. Wolfgang König, Hirokazu Okudaira, and Kimishige Ishizaka ........................................ 1652

A Solid Phase Radioimmunossay for the Diagnosis of Human Hydatidosis. Piero Musiani, Mauro Piantelli, Ettro Arru, and Roberto Pozzueli ... 1674

In Vitro Studies of Histamine Release from Rabbit Leukocytes by Divalent Haptens. Albert M. Magro and Alice Alexander ........................... 1757

Phagocytosis: A Defense Mechanism against Infection with Trypanosoma Cruzi. Felipe Kierszenbaum, Eva Knecht, Delia B. Budeko, and Maria C. Pizzimenti ................................................................. 1839

Saturation of the Reticuloendothelial System with Soluble Immune Complexes. Alan O. Haakenstad and Mart Mannik ..................................... 1839

TUMOR IMMUNOLOGY

Effect of Anti-μ Specific Immunosuppression on Friend Virus Leukemia. Dean D. Manning, Nicola M. Kouttab, and John W. Jutila .................. 1608

Secondary Cytotoxic Tumor Immune Response Induced in Vitro. M. Röllinghoff ................................................................. 1718

Immunity Murine Sarcoma Virus-Induced Tumors. I. Specific T Lymphocytes Active in Macrophage Migration Inhibition and Lymphocyte Transformation. Reginald M. Gorczyński ....................................................... 1815

Immunity to Murine Sarcoma Virus-Induced Tumors. II. Suppression of T Cell-Mediated Immunity by Cells from Progressor Animals. Reginald M. Gorczyński ................................................................. 1826

Reversal of Tumor-Mediated Suppression of Immune Reactivity by in Vitro Incubation of Spleen Cells. David Laux and Robert N. Lausch ....... 1900

VIRAL AND MICROBIAL IMMUNOLOGY

Detection of Specific Surface Antigens on Cells Transformed by Cytomegalovirus with the Techniques of Mixed Hemagglutination and 125I-Labeled Antiglobulin. Robert N. Lausch, Donna M. Murasko, Thomas Albrecht, and Fred Rapp 1680

COMMUNICATIONS

Forssman-Containing Liposomes: Complement-Dependent Damage due to Interaction with a Monoclonal IgM. Kenneth C. Joseph, Carl R. Alving, and Richard Wistar ......................................................... 1949

IgD: A Major Immunoglobulin on the Surface of Lymphocytes from Patients with Chronic Lymphatic Leukemia. Ralph T. Kubo, Howard M. Gray, and Bernard Fihosky ................................................................. 1952
