

Find out about the NEW Inolex™ Immunology Reagents! Give us a RIANG!

**Broadest selection from any one source ■ Performance
Guaranteed ■ Complete technical support**

The facts are as close as your phone. Just pick it up and, East of the Rockies, call toll-free 800 323-0070. Illinois & West of the Rockies, dial 312 755-2933. No obligation, of course. We'll send you detailed discussion sheets about the complete line of highly purified, lyophilized RIA antisera now available from INOLEX Biomedical Division.

All INOLEX antisera are made by unique double-purification processing, and are constantly assayed for consistent activity throughout each step of production, vialing and storage to give you assured results with minimal complications. Replacement or refund will be made for any product which does not perform properly when stored and used as directed. Detailed discussion sheets are available for each antiserum. Each includes information about structure and function of the respective hormone, plus methodologies for titrating and preparing standard curves and a comprehensive reference list. In addition, you have immediate Telephone Technical Service to clarify any details of specifications or procedures.

We're anxious to hear from you. We are sure Inolex Antisera will complement the high standards you have established in your laboratory.
