Contents for January

CELLULAR IMMUNOLOGY

Characterization of Chemotactic Activity Produced in Vitro by a Cell-Mediated Immune Reaction in the Guinea Pig. ARNOLD N. POSTLETHWAITE AND RALPH NYDERMAN ................................................................. 274

Antibody Synthesis in Synchronized Mouse Spleen Cells during the Secondary Response to Sheep Erythrocytes Blast Transformation of Rabbit B-Derived Lymphocytes by a Mitogen Extracted from Nocardia. C. BONA, L. CHEDID, C. DAMAIS, R. CIORBA, P. N. SHEK, P. DUHANE, AND B. CINADER ................................................................. 348

Migration Inhibitory Factor and Type II Interferon in the Circulation of Mice Sensitized with Mycobacterial Components. S. M. SALMIN, E. RIBI, D. L. GRANGER, AND J. S. YOUNGREN ................................................................. 354

Effects of Concanavalin A on the In Vitro Responses of Mouse Spleen Cells to T-Dependent and T-Independent Antigens. DIANE M. JACOBS ................................................................. 365

Induction of Theta-Positive Lymphocytes and Lymphoblasts in Mouse Bone Marrow by Mitogens. J. JOHN COHEN AND CONNIE K. PATTERSON ................................................................. 374

Activation of Guinea Pig Macrophages by Bacterial Lipopolysaccharide Requires Bone Marrow-Derived Lymphocytes. J. MARK WILSON, DAVID L. ROSENSTREICH, AND JOOST J. OPPENHEIM ................................................................. 388

The Role of Antibody Feedback Inhibition in the Regulation of the Secondary Antibody Response after High and Low Dose Priming. WILLIAM G. GRANTHAM AND FRANK W. FITCH ................................................................. 394

Rosette Formation by Canine Peripheral Blood Lymphocytes. CHARLES A. BOWLES, GORDON S. WHITE, AND DIANE LUCAS ................................................................. 399

Inhibition of the Primary in Vitro Antibody Response by Interferon Preparations. HOWARD M. JOHNSON, BENNETT G. SMITH, AND SAMUEL BARON ................................................................. 403

An Immunofluorescent Demonstration of Autoantibodies Directed to a Buried Membrane Structure Present in Lymphocytes and Erythrocytes. R. J. WINCHESTER, SHU MAN FJ, J. B. WINFIELD, AND H. G. KINNUL ................................................................. 410

Effects of Bacterial Lipopolysaccharide on the Induction and Expression of Cell-Mediated Immunity. I. Depression of the Afferent Arc. PHILIPPE H. LAGRANGE, GEORGE B. MACKANESS, THOMAS E. MILLER, AND PIERRE PARDO ................................................................. 411

Effects of Bacterial Lipopolysaccharide on the Induction and Expression of Cell-Mediated Immunity. II. Stimulation of the Efferent Arc. PHILIPPE H. LAGRANGE AND GEORGE B. MACKANESS ................................................................. 442

Thymic Regeneration after Lethal Irradiation: Evidence for an Intrathymic Radiosensitive T Cell Precursor. JULIAN L. KADISH AND ROSS S. BASCH ................................................................. 452

Characterization of Human B Lymphocyte Specific Antigens. YOSHIFUMI ISSHI, HIROPUMI KOSIBA, HIROU UENO, IWAKI MARYAMA, TSUYOSHI TAKAMI, FUMITOSI ISHIBASHI, AND KOKIHI KIKUCHI ................................................................. 466

A Lectin Model for Unresponsiveness. I. Reversible Effects of High Doses of Concanavalin A on Spontaneous and Induced DNA Synthesis. ALLEN R. CHAVYNET AND DAVID W. SCOTT ................................................................. 470

Inhibition of Mitogen Stimulation of Human Peripheral Blood Leukocytes by V. cholerae Enterotoxin. DAVID A. HART AND RICHARD A. FINKELSTEIN ................................................................. 476

Immunoglobulin D Bearing Lymphocytes in Primary Immunodeficiencies. JEAN-LOUIS PREVOT-HOME, JEAN-PIERRE CLAVEL, AND MAXIME SELIGMANN ................................................................. 481

Strain Differences in Ease of Tolerance Induction to Bovine γ-Globulin: Dependence on Macrophage Function. MIODRAG L. LUKIC, CAROL COWING, AND SIDNEY LESKOWITZ ................................................................. 503

Specificity on Basophils and Lymphocytes in Cutaneous Basophil Hypersensitivity. HAROLD F. DVOZAK, ROBERT B. COLVIN, AND WINTHROP H. CHURCHILL ................................................................. 507

IMMUNOCHEMISTRY

An Expression for the Calculation of Relative Affinities of Antibody-Ligand Interactions. WILLIAM E. PAUL AND GERALD J. ELLENBEIN ................................................................. 261

Identification and Some Properties of Rat Secretory Component. JEAN-PIERRE VAZERMANN, JOSEPH F. HERE- MANS, AND ANDRE BECKERS ................................................................. 265

Phylogeny of Complement Components in Non-Human Primates. PETER H. SCHUR, ANNE CONNELLY, AND T. C. JONES ................................................................. 270
Increased Resistance of Immunoglobulin A Dimers to Proteolytic Degradation after Binding of Secretory Component. **Erik Lindh** .......................................................... 284
Quantitative Comparison of Techniques Used to Measure Complement-Mediated Cytotoxicity of Nucleated Cells. **Barbara Detrick-Hooks, Tibor Boros, and Herbert J. Rapp** ........................................... 287
Immunoochemical Quantitation of the Third Component of Guinea Pig Complement in Fluid Phase and Bound to Cell Surfaces. **Sarkis H. Ohanian and Tibor Boros** ...................................................... 326
Complement Biosynthesis in Vivo by Rat Hepatoma Cell Strains. **Robert C. Strune, Armen H. Tashjian, Jr., and Harvey R. Colten** .......................................................... 331
The Primary Structure of a Human Lambda II Chain. **Heinz Köhler, Susanna Rudofsky, and Larry Kluskens** ......................................................................................... 415
Regulation of the in Vivo Early Anamnestic Antibody Response by Exogenous Cholera Enterotoxin and Cyclic AMP. **Richard G. Cook, Abram B. Staytsky, and Melvin D. Schoenberg** .................................................. 426
Evidence for the Absence of Noncovalent Bonds in the FC, Region of IgM. **Raymond B. Hester, John E. Mole, and Ralph E. Schrohenloher** ...................................................... 486

**IMMUNOGENETICS AND TRANSPLANTATION**

Alloimmune Cytotoxic T Cells: Evidence That They Recognize Serologically Defined Antigens and Bear Clonally Restricted Receptors. **Michael J. Bevan** .......................................................... 316
Mixed Leukocyte Culture Reactivity in Operationally Tolerant Rats: Relationship of Lymphocyte-Mediated Reactivity and Serum-Blocking Activity. **I. D. Bernstein, B. L. Hamilton, P. W. Wright, R. Burns-stein, and K. E. Hellstrom** .......................................................... 320
Differential Susceptibility of Strain 2 and Strain 13 Guinea Pigs to Induction of Experimental Autoimmune Thyroiditis. **Helen Braley-Mullen, Gordon C. Sharp, and Michael Kyriakos** ...................................................... 371

**IMMUNOPATHOLOGY**

Adoptive Transfer of Experimental Allergic Encephalomyelitis (EAE): Prevention of Successful Transfer by Treatment of Donors with Myelin Basic Protein. **Bernard F. Driscoll, Marian W. Kies, and Ellis-worth C. Alvord, Jr.** .......................................................... 291
Increased Immunologic Reactivity between Human Glomerular Basement Membrane and Group A Type 12 Streptococcal Cell Membrane after Carbohydrate Treatment. **William T. Blue and Charles F. Lange** .......................................................... 306

**TUMOR IMMUNOLOGY**

Macrophages Activated in Vivo with Lymphocyte Mediators Kill Neoplastic but Not Normal Cells. **Willy F. Piessens, W. Hallowell Churchill, Jr., and John R. David** .......................................................... 293

**VIRAL AND MICROBIAL IMMUNOLOGY**

Effective Immunity to Dental Caries: Protection of Gnotobiotic Rats by Local Immunization with *Streptococcus mutans*. **Jerry R. McGhee, Suzanne M. Michalek, Jerry Webb, Juan M. Navia, A. F. R. Rahman, and Donald W. Legler** .......................................................... 300
Immunohemostasis of an Acidic Antigen Isolated from a *Staphylococcus aureus*. **W. W. Karakawa and J. A. Kane** .......................................................... 310
Micro-Radioimmunoassay for Antibodies to Newcastle Disease Virus in the Chicken. **Glenn B. Cleland, Daniel Y. E. Perety, and Peter B. Dent** .......................................................... 422
Immune Specific Production of Interferon by Human T Cells in Combined Macrophage-Lymphocyte Cultures in Response to Herpes Simplex Antigen. **Martti J. Valle, Arthur M. Bobrove, Samuel Stromberg, and Thomas C. Merigan** .......................................................... 435

**COMMUNICATIONS**

β-Adrenergic Inhibition of Human T Lymphocyte Rosettes. **Stanley P. Galant and Robert A. Remo** .......................................................... 512
Prevention of Calcium Ionophore-Induced Release of Histamine in Rat Mast Cells by Disodium Cromoglycate. **Herbert G. Johnson and Michael K. Bach** .......................................................... 514
Enhancement of Nitroblue Tetrazolium Dye Reduction by Leukocytes Exposed to a Component of Complement in the Absence of Phagocytosis. **Ira M. Goldstein, Fred Pett, and Gerald Weissmann** .......................................................... 516
Complement Receptor in Synchronized Cultures of Human Hematopoietic Cell Lines. **Peter Papenhausen, Photini Papageorgiou, and Kurt Hirschhorn** .......................................................... 519
Serum IgE Levels during the Potentiated Reagin Response to Egg Albumin in Rats Infected with *Nippostrongylus brasiliensis*. **Denis Carson, Henry Metzger, and Kurt J. Bloch** .......................................................... 521
Dimeric and Monomeric Forms of HLA Antigens Solubilized by Detergent. **Peter Chesswell and Jeffrey R. Dawson** .......................................................... 523
Suppression of Maternal Responsiveness to Paternal Antigens by Maternal Plasma. **Hobart Pence, William M. Petty, and Ross E. Rocklin** .......................................................... 525
