Contents for February

CELLULAR IMMUNOLOGY

Regulation of Antibody Response in Vitro. IX. Induction of Secondary Anti-Hapten IgG Antibody Response by Anti-Immunoglobulin and Enhancing Soluble Factor.  TAMAMITSU KISHIYAMA AND KIMISHIGE ISHIZAKA.................. 585

Macrophage Requirement for Production of Guinea Pig Migration Inhibitory Factor (MIF) in Vitro.  ROBERT NELSON AND RICHARD W. LEU ................................................................. 606

Reaginic Antibody Formation in the Mouse. V. Adoptive Antihapten IgE Antibody Response of Dinitrophenyl-Keyhole Limpet Hemoctyanin-Primed Spleen Cells Cultured with Dinitrophenyl-heterologous Carrier Conjugates.  HIROKAZU OKUDAIRA AND KIMISHIGE ISHIZAKA................................................................. 613

Lymphoid Cell Adenylate Cyclase Activity after X-Irradiation and Cortisone Treatment.  ROBERT G. KEMP AND RENÉ J. DUQUESNOY ................................................................. 660

The Production of Anti-Guinea Pig Lymphokine Antibody.  TAKESHI YOSHIDA, PIETROFREDI E. BIGAZZI, AND STANLEY COHEN ............ 688

Differential Regulatory Effects of Accessory Cells on the Generation of Cell-Mediated Immune Reactions.  CAROL L. MILLER AND ROBERT I. MISHELL ........................................................................ 692

Characterization of the Lymphocytes Surface Receptors for Con A and PHA.  PIERRE A. HENKART AND RICHARD I. FISHER ........................................................................ 704

IMMUNOCHEMISTRY

Studies on the Inhibition of C56-Induced Lysis (Reactive Lysis). VI. Modulation of C56-Induced Lysis by Polyanions and Polycations.  PATRICIA J. BAKER, THOMAS F. LINT, BRUCE C. MCELON, CAROLE L. BEHERNDS, AND HENRY GEWURZ ................................................................. 554

Immune Precipitation of Immunoglobulin Producing Polysomes from Mouse Myeloma Cells.  REUVEN LASKOV AND SARA MITTELHMAN ................................................................. 566

Competition for Antigen by Cell Populations Having Receptors with the Same Specificity but of Different Idiotype.  SUSAN A. BANGASSER, ANDREAS A. KAPSALIS, PAMELA J. FRAKER, AND ALFRED NISONOFF ................................................................. 610

Synthesis of Antibody and of Immunoglobulins without Detectable Antibody Function in Cells Responding to Horseradish Peroxidase.  HUGH R. P. MILLER, THÉRÈSE TERNYNCK, AND STRAWS AYRAMAS ................................................................. 626

Affinity Chromatography of Human Leukocyte and Diploid Cell Interferons on Sepharose-Bound Antibodies.  KURT BERG, CLIFTON A. OSBORN, KURT FAUCKER, K. ERIC MOGENSEN, AND KARI CANTELL ................................................................. 640

Heavy Chain-Producing Variants of a Mouse Myeloma Cell Line.  SHERIE L. MORRISON AND MATTHEW D. SCHARF ................................................................. 655

Cleavage of the Third Complement Component (C3) and Generation of the Spasmogenic Peptide C3a, in Human Serum Via the Properdin Pathway: Demonstration of Inhibitory as Well as Enhancing Effects of Epsilone-Amino-Caproic Acid.  WALther VOGT, GISA SCHMIDT, RAINE RLYNEN, LOTHAR DIEMINGER .... 671

Distribution and Association of Heavy and Light Chain Variable Region Subgroups among Human IgA Immunoglobulins.  J. DONALD CAPRA AND J. MICHAEL KEHOE ................................................................. 678

In Vitro Response of Mouse Spleen Cells to the Solid Phase Immunogen DNP-O-Bio-Gel.  GARY N. TRUMP ................................................................. 682

Alternate Complement Pathway Induction of Aggregation and Release of 5-Hydroxytryptamine and Adenosine Diphosphate by Rabbit Platelets.  SAMUEL R. MARNEY, JR., DANIEL G. COLLEY, AND ROGER M. DES PEZ ................................................................. 696

Thymus-Independent Antigens: The Preparation of Covalent, Hapten-Ficoll Conjugates.  JOHN K. INMAN ................................................................. 704

IMMUNOGENETICS AND TRANSPLANTATION

Canine Marrow Transplantation: Are Serum Blocking Factors Necessary to Maintain the Stable Chimeric State?  MANG-SO TSAI, RAINER STORB, PAUL L. WEIDEN, THEODORE C. GRAHAM, MARIA-LouISE SCHROEDER, AND E. DONNHALL THOMAS ........................................................................ 531

Canine Radiation Chimeras: An Attempt to Demonstrate Serum Blocking Factors by an in Vitro Approach.  MARIA-LouISE SCHROEDER, RAINER STORB, THEODORE C. GRAHAM, AND PAUL L. WEIDEN ................................................................. 540

Allotypic Suppression in Rabbits: Competition for Target Cell Receptors between Isologous and Heterologous Antibody and between Native Antibody and Antibody Fragments.  PANG-NIN SHEK AND STANISLAW DUBISKI ........................................................................ 621

IMMUNOPATHOLOGY

Experimental Allergic Encephalomyelitis in Resistant and Susceptible Guinea Pigs: In Vivo and in Vitro Correlates.  ROBERT P. LISAK, BURTON ZWEIMAN, MARIAN W. KIES, AND BERNARD DUBIKOLL ................................................................. 546

The Location of Regions in Guinea Pig and Bovine Myelin Basic Proteins Which Induce Experimental Allergic Encephalomyelitis in Lewis Rats.  RUSSELL E. MARTENSON, SEYMOUR LEVINE, AND RICHARD SOWINSKI ........................................................................ 592
Allergic Encephalomyelitis in the Reputedly Resistant Brown-Norway Strain of Rats. Seymour Levine and Richard Sowinski

Neural Antigens and Induction of Myelination Inhibition Factor. Frederick J. Seil, Mariam W. Kies, and Martha Bacon

Inactivation of Slow Reacting Substance of Anaphylaxis by Human Eosinophil Arylsulfatase. Stephen I. Wasserman, Edward J. Goetzl, and K. Frank Austen

TUMOR IMMUNOLOGY

Cytotoxic Effects of Antigen- and Mitogen-Induced T Cells on Various Targets. Michael I. Bevan and Melvin Cohn

Specific Susceptibility of Sensitized (Memory) B Cells to Suppression and Antigenic Alteration by Murine Leukemia Virus. Jan Cerny and Elizabeth B. Waner

Inhibition of Lymphocyte Trapping by Cell-Free Ascitic Fluids Cultivated in Syngeneic Mice. Patricia K. A. Mongini and Leon T. Rosenberg

VIRAL AND MICROBIAL IMMUNOLOGY

Induction of Acquired Cellular Resistance following Transfer of Thymus-Dependent Lymphocytes from Syphilitic Rabbits. R. Schell D. Musher, K. Jacobson, and P. Schwethelm

Broad Antigenic Relationships among Rhinovirus Serotypes Revealed by Cross-Immunization of Rabbits with Different Serotypes. Marion K. Cooney, John A. Wise, George E. Kenny, and John P. Fox

Lymphocyte Depletion Induced by Cholera Toxin; Relationship to Adrenal Cortical Function. Stephen I. Morse, Carol D. Stearns, and Susan R. Goldsmith

COMMUNICATION

The Stimulation of Immunoglobulin Production in Murine Spleen Cells by the Pokeweed Mitogens. T. Y. Basham and M. J. Waxdal
