THE JOURNAL OF IMMUNOLOGY®

Contents for March

CELLULAR IMMUNOLOGY

Migration Inhibitory Activity in Serum and Cell Supernatants in Patients with Sezary Syndrome. TAKESHI YOSHIDA, RICHARD EDELSON, STANLEY COHEN, AND IRA GREEN ................................................................. 915

Antibody-Dependent Cytotoxicity: Modulation by the Cytochalasins and Microtubule-Disturbative Agents. ERWIN W. GELFAND, SIMON A. MORRIS, AND KLAUS RESCH ....................................................... 919

The Hapten-Carrier Effect in Teleost Fish. DAVID YOCUM, MARVIN CUCHENS, AND L. W. CLEM .......................................................... 925

T Mitogens Trigger LPS Responsiveness in Mouse Thymus Cells. JAMES T. FORDE, YOSHINOBU NAKAO, AND RICHARD T. SMITH ........................................................................................................... 1004

The Adjuvant Activity of Mycobacterial RNA Preparations and Synthetic Polynucleotides for Induction of Delayed Hypersensitivity to Purified Protein Derivative in Guinea Pigs. CONRAD H. CASAVANT AND GUY P. YOUNGS .......................................................... 1014

The plaque Cytogram Assay. II. Correlation between Morphology and Density of Linear Bovine Serum Albumin Buoyant Density Gradient-Separated Immunoabsorptive Cells. JERRY T. THORNTHWAIT AND ROBERT C. LEIF ................................................................. 1023

Rabbit Lymphocyte Populations Responding to Haptenic and Carrier Determinants for DNA Synthesis. GUY DELIESPESSE, KIMISHIGE ISHIKAWA, AND TAMADU TSUSHIMOTO .................................................................................. 1065

Immunosuppressive Effects of Glucocorticosteroids: Differential Effects of Acute vs Chronic Administration on Cell-Mediated Immunity. JAMES E. BALOW, DOUGLAS L. HURLEY, AND ANTHONY S. FAUCI ............................................................... 1072

Induction of Lymphocyte Cytotoxicity by Modification of the Effector or Target Cells with Periodate or with Neuraminidase and Galactose Oxidase. ABRAHAM NOVOGRODSKY ........................................................................................................... 1089

Studies on the Mechanism of Stimulation of the Humoral Response of Murine Spleen Cultures by Culture Fluids by Human Monocytes. DAVID D. WOOD AND PATRICIA M. CAMERON ............................................................................... 1094

Biologic Expressions of Lymphocyte Activation. IV. Concanavalin A-Activated Suppressor Cells in Mouse Mixed Lymphocyte Reactions. ROBERT R. RICH AND SUSAN SOLIDAY RICH ......................................................... 1112

Antigen-Specific and Nonspecific Mediators of T Cell/B Cell Cooperation. I. Evidence for Their Production by Different T Cells. PHILIPPA C. MARRACK (HUNTER) AND JOHN W. KAPLER ........................................................................ 1116

Listerial Cell Wall Fraction: A B Cell Mitogen. J. JOHN COHEN, GILBERTO E. RODRIGUEZ, PHYLLIS D. KIND, AND PRISCILLA A. CAMPBELL ............................................................................................... 1132

IMMUNOCHEMISTRY

Inhibition by e-Aminocaproic Acid of the Activation of the First Component of the Complement System. NICHOLAS A. SOTER, K. FRANK AUSTEN, AND IRA GIGLI ................................................................................. 928

Immune Response to Liposomal Model Membranes: Restricted IgM and IgG Anti-Dinitrophenyl Antibodies Produced in Guinea Pigs. KEI-ICHI UMURA, J. LATHAM CLEAFLIN, JOSEPH M. DAVIE, AND STEPHEN C. KINSKY .................................................................................. 958

Studies on the Cytophilic Properties of Human β2 Microglobulin. CLARK L. ANDERSON, RALPH T. KUBO, AND HOWARD M. GREY ........................................................................................................... 997

Complement-Mediated Alteration of Antibody Specificity in Vivo. WALTER P. DRAKE AND MICHAEL R. MARDINEY, JR ......................................................................................................................... 1052

IgG and IgA Diphtheria Antitoxin Responses from Human Tonsil Lymphocytes. THOMAS A. E. PLATTS-MILLS AND KIMISHIGE ISHIKAWA ............................................................................................... 1058

IMMUNOGENETICS AND TRANSPLANTATION

Acute Destruction of Rat Skin Grafts by Alloantisera. SOMARID V. JOOSTE AND HENRY J. WINN ................................................................................. 933

Immunologic Functions of Isolated Human Lymphocyte Subpopulations. III. Specific Alloimmune Lympholysis Mediated by Human T Cells Alone. PAUL M. SONDEL, LEONARD CHESS, RICHARD P. MACDERMOTT, AND STUART F. SCHLOSSMAN ................................................................................. 982
IMMUNOPATHOLOGY

The Diisopropylfluorophosphate Inhibitable Step in Antigen-Induced Histamine Release from Human Leukocytes. JACOB J. PRUZANSKY AND ROY PATTERSON ................................................... 939

Control of Histamine Release: Effects of Various Conditions on Rate of Release and Rate of Cell Desensitization. JAMES H. BAXTER AND RONALD ADAMIK .......... 1034

TUMOR IMMUNOLOGY

Detection of Cell-Bound Immunoglobulins by a Radioisotopic Micro-Mixed Hemadsorption Reaction with Technetium-99m-Labeled Erythrocytes. GARY W. WOOD AND ROLF F. BARTH.......................... 944

Receptor Sites for Antigen-Antibody Complexes on Cells Derived from Solid Tumors: Detection by Means of Antibody-Sensitized Sheep Erythrocytes Labeled with Technetium-99m. GARY W. WOOD, G. YANCEY GILLESPIE, AND ROLF F. BARTH .......................................................... 950

Impaired Macrophage Function in Friend Virus Leukemia: Restoration by Statolon. MICHAEL H. LEVY AND E. FREDERICK WHEELock ........................................... 962

Identification of a Colon-Specific Antigen (CSA) in Normal and Neoplastic Tissues. DAVID M. GOLDENBERG, CHARLES A. PEGRAM, AND JACINTO J. VAZQUEZ .................. 1008

Polymorphonuclear Leukocytes in Antibody-Dependent Cellular Cytotoxicity. ROBERT PETER GALE AND JACOB ZIGHELBOIM ................................................................. 1047

Specific Stimulatory and Cytotoxic Effects of Lymphocytes Sensitized in Vitro to Either Alloantigens or Tumor Antigens. MARY ANN KALL AND INGEGORD HELLSTROM ................................................. 1083

Studies on the Synthetic Capacity and Antigenic Expression of Glutaraldehyde-Fixed Target Cells. J. ERIC BUBBERS AND CHRISTOPHER S. HENNEY ................................................................. 1125

VIRAL AND MICROBIAL IMMUNOLOGY

Demonstration of in Vitro Lymphocyte-Mediated Cytotoxicity against Measles Virus in SSPE. WOLFGANG H. KRETH, MATTHIE KÄCKK, AND VOLKER TER MEULEN ........ 1042

Characterization of Measles Virus-Specific Cytotoxic Antibodies by Use of a Chronically Infected Cell Line. ANNEKA C. EHRNST ...................................................... 1077

Antigenic Analysis of Three Strains of Mycoplasma arginini By Two-Dimensional Immunoelectrophoresis. CHARLES E. THORKILL AND GEORGE E. KENNY ............................................. 1107

Application of the Paired Label Radioantibody Technique to Detection and Subtyping of Hepatitis B Surface Antigen. YUZO MIYAKAWA, MITSUNOBU IMAI, AND MAKOTO MAYUMI .................................................. 1135

Letter to the Editor ................................................................................. 1138

ERRATA

In “Adjuvanticity of Synthetic Polynucleotides for Induction of Experimental Allergic Encephalomyelitis in Guinea Pigs” by Philip Y. Paterson and Diane G. Drobish in the December, 1974, issue of the Journal of Immunology, Volume 113, Number 6, page 1945, lines 3, 4, and 5 of the final paragraph should read: “...disease of animals and man is under vigorous investigation in many laboratories. Many studies suggest that multiple sclerosis, for which...”

In “Allergens of Mammalian Origins. III. Properties of a Major Feline Allergen” by John L. Ohman, Jr., Francis C. Lowell, and Kurt J. Bloch in the December 1973 issue of the Journal of Immunology, Volume 113, Number 6, page 1673, the precipitin line in the middle portion of Figure 3 was omitted. Figure 3 is correctly reproduced below.
