Contents for December

CELLULAR IMMUNOLOGY

Immunogenic Properties of Modified Antigen E. III. Effect of Repeated Injections of Modified Antigen on Immuno-competent Cells Specific for Native Antigen. Kiyoshi Takatsui, Kimishige Ishizaka, and Ts Piao King .......................................................... 1469

Specifically Cytotoxic Human and Mouse Lymphoid Cells Induced with Antibody or Antigen-Antibody Complexes. E. Saksela, T. Imh, and O. Mäkelä .......................................................... 1488

Antibody-Dependent Cytolytically Active Human Leukocytes: An analysis of Inactivation following in Vitro Interaction with Antibody-Coated Target Cells. H. Kirk Ziegler and Christopher S. Henney ................. 1500

Heterogeneity of Human T Lymphocytes to Bind Sheep Erythrocytes and Mitogenic Responses of Their Subpopulations. Mutsumi Sasaki, Tsuyoshi Sekizawa, Hisashi Takahashi, Toru Abo, and Katsuo Kumagai .......................................................... 1509

Response of Mouse Splenic Lymphocytes to Timothy Pollen Antigens in a Microculture System. Sally S. Fairchild and Arthur Malley .......................................................... 1538

Augmentation of MLC Proliferation and in Vito Production of Cytotoxic Cells by 2-ME in the Rat. Jean-Paul Souillou, Charles B. Carpenter, Andrew P. Lundin, and Terry B. Strom .......................................................... 1566

Maintenance of Lymphocyte Surface Ig by Mitogen Stimulation in Vito. Marius Teodorescu, Donna M. Buchholz, and Sheldon Dray .......................................................... 1584

Oxysuran and Immune Reactions. Mediation of Oxysuran Action by the Adrenal Glands. Hans van Duik, Irma A. Barker, Jan Testerink, Nanne Bloksma, and Jan M. Willers .......................................................... 1587

Studies on T Cell Clonal Expansion. I. Suppression of Killer T Cell Production in Vito. Ramesh Kamat and Christopher S. Henney .......................................................... 1592

Suppression of Lymphocyte Activation by a Factor Produced by Mycoplasma arginini. Denis M. Callewaert, Joseph Kaplan, Ward D. Peterson, Jr., and James J. Lightbody .......................................................... 1662

Cyclic GMP and Lectin-Induced Lymphocyte Activation. H. James Wedder, Rand Dankner, and Charles W. Parker .......................................................... 1682

Functional Deficiency of Splenic Adherent Cells in New Zealand Black Mice. Candace McCombs, Joanne Hom, Norman Talal, and Robert I. Mishell .......................................................... 1695

In Vito Selection and Extended Culture of Antigen-Specific T Lymphocytes. II. Mechanisms of Selection. S. Z. Ben-Sasson, William E. Paul, Ethan M. Shevach, and Ira Green .......................................................... 1723

IMMUNOCHEMISTRY

Cationic Proteins of Human Granulocytes. VI. Effects on the Complement System and Mediation of Chemotactic Activity. Per Venge and Inge Olsson .......................................................... 1505

Goat Antibody Directed against a Human Le Blood Group Hapten, Lecto-N-Difucohexaose I. David A. Zopp, Ann Ginsburg, and Victor Ginsburg .......................................................... 1525

Lack of Inverse Relationship between the Net Charge of T-Independent Immunogens and the Responding Spleen Cells. Frank W. Falkenberg, Yuval Karnidly, Anne-Marie Schmitt-Verhulst, Edna Mozes, and Michael Sela .......................................................... 1558

Cyantate as an Inactivator of Complement Proteins. Duane R. Schultz and Patricia I. Arnold .......................................................... 1558

Measurement of Absolute Amounts of Antigen-Specific Human IgE by a Radioallergosorbent Test (RAST) Elution Technique. R. Robert Schellenberg and N. Franklin Adkinson, Jr. .......................................................... 1577
Rapid Isolation of Antigens from Cells with a Staphylococcal Protein A- Antibody Adsorbent. Parameters of the Interaction of Antibody-Antigen Complexes with Protein A. STEVEN W. RUESCHLER .................................................. 1617
EAC4 and EAC14 Production without Purified C1. WILLIAM D. LINSBOTT ........................................... 1625
Interrelationships of Surface Immunoglobulin and Fc Receptors on Mouse B Lymphocytes. ABUL K. ABBAS AND EMIL R. UNANUE .......................................................... 1665

IMMUNOGENETICS AND TRANSPLANTATION

The Effect of Alloantisera on Antigen-Induced T Cell Proliferation. HARTMUT RUEHL AND ETHAN M. SHEVACH ......................................................... 1493
Cell-Mediated Immune Responses in Vivo. II. Simultaneous Generation of Cytotoxic Lymphocyte Responses to Two Sets of Alloantigens of Limited Cross-Reactivity. DUANE L. PEAVY AND CARL W. PIERCE ......................... 1515
Cell-Mediated Immune Responses in Vivo. III. Elimination of Specific Cytotoxic Lymphocyte Responses by H-Thymidine Suicide. DUANE L. PEAVY AND CARL W. PIERCE ......................... 1521
Genetic Control of the Murine Cell-Mediated Immune Response in Vivo. II. H-2 Linked Responsiveness to the Synthetic Polypeptide Poly(Tyr,Glu)-poly(dL-Ala)—poly(Lys). STEPHEN DAVIS, GENE M. SHEARER, EUNA MOEZES, AND MICHAEL SELA ......................... 1530
Histocompatibility and T-B Cell Cooperation in Mouse Radiation Chimeras. TOSHISHI SADO AND HITOKO KAMISAKU .......................................................... 1607
Cytotoxic T Cell Activity is Strain-Specific in Outbred Mice Infected with Lymphocytic Choriomeningitis Virus. ROLF M. ZINKERNAGEL, MALCOLM B. C. DUNLOP, AND PETER C. DOHERTY ......................................................... 1613
Effects of Anti-Ia Serum on Mitogenic Responses. I. Inhibition of the Proliferative Response to B Cell Mitogen, LPS, by Specific Anti-Ia Sera. JOHN E. NIEDERHUBER, JEFFREY A. FREILINGER, ELIZABETH DUGAN, A. COUTINHO, AND D. C. SHREFFLER ................................................. 1672

IMMUNOPATHOLOGY

Histamine Release from Human Leukocytes: Relationships between Cyclic Nucleotide, Calcium and Antigen Concentrations. ELIZABETH GILLESPIE AND LAWRENCE M. LICHTENSTEIN .......................................................... 1572
Ionophore A-23187 Induced Histamine Release from Rat Mast Cells and Rat Basophil Leukemia (RBL-1) Cells. REUBEN P. SIRAGIANI, ANTHONY KULCYZKI, JR., GUILLERMO MENDEZA, AND HENRY METZGER .......................................................... 1599
Release of Bound Immunoglobulin from SSPE Brain by Acid Elution. MARVIN L. WEIL, WILLIAM A. LEIYA, DOUGLAS C. HEINER, AND WALLACE W. TOURTELLOTTE .......................................................... 1603
Chemotaxis under Agarose: A New and Simple Method for Measuring Chemotaxis and Spontaneous Migration of Human Polymorphonuclear Leukocytes and Monocytes. ROBERT D. NELSON, PAUL G. QUIE, AND RICHARD L. SIMMONS .......................................................... 1650
IgE-Induced Release of a Platelet-Activating Factor from Rabbit Lung. T. C. KRAVIS AND P. M. HENSON .......................................................... 1677
Experimental Allergic Aspermatogenic Orchitis. III. Isolation of Spermatozoal Glycoproteins and their Role in Allergic Aspermatogenic Orchitis. ARPI HAGOPIAN, JESSE J. JACKSON, DENNIS J. CARLO, GUADALUPE A. LIMIECO, AND E. H. EYLER .......................................................... 1731

TUMOR IMMUNOLOGY

Human Leukemia-Associated Antigens: Detection on Cells of Established Lymphoblastoid Lines. T. MOHANAKUMAR, JOHN L. PAULY, JOSEPH E. SOKAL, AND RICHARD S. METZGER .......................................................... 1542
Preparation and Properties of an Anti-Plasma Cell Serum Directed against a Defined Plasmacytoma Cell Population. MARY LUTZ PROCTOR AND HERBERT B. HEBSCOWITZ .......................................................... 1642
Specific Tumor Immunity Induced with Soluble Materials: Restricted Range of Antigen Dose and of Challenge Tumor Load for Immunoprotection. NEAL R. PELLIS AND BARRY D. KAHAN .......................................................... 1717

VIRAL AND MICROBIAL IMMUNOLOGY

Immune and Antibody Responses to an Isolated Capsid Protein of Foot-and-Mouth Disease Virus. HOWARD L. BACHRACH, DOUGLAS M. MOORE, PETER D. MCKEACHER, AND JEROME POLATNICK .......................................................... 1639
Chlamydia Trachomatis Immunotype J. SAN-PIN WANG AND J. THOMAS GRAYSTON .......................................................... 1711

COMMUNICATIONS

Physical Separation of “Suppressor” from “Helper” Thymocytes. N. LYNN GERBER AND ALFRED D. STEINBERG .......................................................... 1744
Mouse Mononuclear Cell Chemotaxis. I. Differential Response of Monocytes and Macrophages. LAURENCE BOTUMSELL AND MONTE S. MEULZER .......................................................... 1746
Announcements .................................................................................... 1751
Author Index ..................................................................................... 1755
Subject Index ..................................................................................... 1759
