Contents for December

CELLULAR IMMUNOLOGY

Specifically Cytotoxic Human and Mouse Lymphoid Cells Induced with Antibody or Antigen-Antibody Complexes. E. Saxela, T. Ihn, and O. Makkela .................................................. 1488

Antibody-Dependent Cytolytically Active Human Leukocytes: An analysis of Inactivation following in Vitro Interaction with Antibody-Coated Target Cells. H. Kirk Ziegler and Christopher S. Henney .................................................. 1500

Heterogeneity of Human T Lymphocytes to Bind Sheep Erythrocytes and Mitogenic Responses of Their Subpopulations. Mutsuo Sasaki, Tsuyoshi Sekizawa, Hisashi Takahashi, Toru Abo, and Katsuo Kumagai .......................... 1509

Response of Mouse Splenic Lymphocytes to Timothy Pollen Antigens in a Microculture System. Sally S. Fairchild and Arthur Malley .................................................. 1533

Augmentation of MLC Proliferation and in Vitro Production of Cytotoxic Cells by 2-ME in the Rat. Jean-Paul Soullilou, Charles B. Carpenter, Andrew P. Lundin, and Terry B. Strom .......................... 1566

Maintenance of Lymphocyte Surface Ig by Mitogen Stimulation in Vitro. Marius Teodorescu, Donna M. Buchholz, and Sheldon Dray .................................................. 1584

Oxisuran and Immune Reactions. Mediation of Oxisuran Action by the Adrenal Glands. Hans van Dijk, Irma A. Barker, Jan Testervink, Nanne Bloksma, and Jan M. Willems .................................................. 1587

Studies on T Cell Clonal Expansion. I. Suppression of Killer T Cell Production in Vitro. Ramesh Kamat and Christopher S. Henney .................................................. 1592

Antigen Suppression of the in Vitro Development of Plate-Forming Cells to Autologous Erythrocyte Antigens. Edith M. Lord and Richard W. Dutton .................................................. 1631

Suppression of Lymphocyte Activation by a Factor Produced by Mycoplasma arginini. Denis M. Calliwaert, Joseph Kaplan, Ward D. Peterson, Jr., and James J. Lightbody .................................................. 1662

Cyclic GMP and Lectin-Induced Lymphocyte Activation. H. James Wedder, Rand Dankner, and Charles W. Parker .................................................. 1682

Functional Deficiency of Splenic Adherent Cells in New Zealand Black Mice. Candace McCombs, Joanne Hom, Norman Talal, and Robert I. Mishell .................................................. 1695

In Vitro Selection and Extended Culture of Antigen-Specific T Lymphocytes. II. Mechanisms of Selection. S. Z. Ben-Sasson, William E. Paul, Ethan M. Shevach, and Ira Green .................................................. 1723

IMMUNOCHEMISTRY

Cationic Proteins of Human Granulocytes. VI. Effects on the Complement System and Mediation of Chemotactic Activity. Per Venge and Inge Olsson .................................................. 1505

Goat Antibody Directed against a Human Le Blood Group Hapten, Lacto-N-Disaccharide I. David A. Zopp, Ann Ginsburg, and Victor Ginsburg .................................................. 1525

Lack of Inverse Relationship between the Net Charge of T-Independent Immunogens and the Responding Spleen Cells. Frank W. Falkenberg, Yuval Karmily, Anne-Marie Schmitt-Vehulst, Edna Mozes, and Michael Sela .................................................. 1588

Determinants of the Hierarchy of Humoral Immune Responsiveness during Ontogeny. W. K. Sherwin and D. T. Rowlands, Jr. .................................................. 1549

Cyanate as an Inactivator of Complement Proteins. Duane R. Schultz and Patricia I. Arnold .................................................. 1558

Measurement of Absolute Amounts of Antigen-Specific Human IgE by a Radioallergosorbent Test (RAST) Elution Technique. R. Robert Schellenberg and N. Franklin Adkinson, Jr. .................................................. 1577
Rapid Isolation of Antigens from Cells with a Staphylococcal Protein A-Antibody Adsorbent. Parameters of the Interaction of Antibody-Antigen Complexes with Protein A. STEVEN W. KESSLER .................................................. 1617

EAC4 and EAC14 Production without Purified Cl. WILLIAM D. LENSCHOT .................................................. 1625

Interrelationships of Surface Immunoglobulin and Fc Receptors on Mouse B Lymphocytes. ABDUL K. ABBAS AND EMIL R. UHANUE .......................................................... 1655

IMMUNOGENETICS AND TRANSPLANTATION

The Effect of Alloantisera on Antigen-Induced T Cell Proliferation. HARTMUT Ruhl and ETHAN M. SHEVACH ..... 1493

Cell-Mediated Immune Responses in Vivo. II. Simultaneous Generation of Cytotoxic Lymphocyte Responses to Two Sets of Alloantigens of Limited Cross-Reactivity. DUANE L. PEAVY and CARL W. PIERCE ..................... 1515

Cell-Mediated Immune Responses in Vivo. III. Elimination of Specific Cytotoxic Lymphocyte Responses by H2-Thymidine Suicide. DUANE L. PEAVY and CARL W. PIERCE .................................................. 1521

Genetic Control of the Murine Cell-Mediated Immune Response in Vivo. II. H-2 Linked Responsiveness to the Synthetic Polypeptide Poly(Tyr,Glu)-poly(DL-Ala)—poly(Lys). STEPHEN DAVIS, GENE M. SHEARER, EUNA MOYES, and MICHAEL Sella .......................................................... 1530

Histocompatibility and T-B Cell Cooperation in Mouse Radiation Chimeras. TOSHIHIKO SADO and HITOKO KAMISAKU .......................................................... 1607

Cytoxic T Cell Activity is Strain-Specific in Outbred Mice Infected with Lymphocytic Choriomeningitis Virus. ROLF M. ZINKERNAGEL, MALCOLM B. C. DUNLOP, and PETTER C. DOHERTY .......................................................... 1613

Effects of Anti-Ia Serum on Mitogenic Responses. I. Inhibition of the Proliferative Response to B Cell Mitogen, LPS, by Specific Anti-Ia Sera. JOHN E. NIEDERHUBER, JEFFREY A. FREILINGER, ELIZABETH DUGAN, A. COUTINHO, and D. C. SHREFFLER .......................................................... 1672

IMMUNOPATHOLOGY

Histamine Release from Human Leukocytes: Relationships between Cyclic Nucleotide, Calcium and Antigen Concentrations. ELIZABETH GILLISIE and LAWRENCE M. LICHTENSTEIN .......................................................... 1572

Ionophore A-23187 Induced Histamine Release from Rat Mast Cells and Rat Basophil Leukemia (RBL-1) Cells. REUBEN P. SARAGAN, ANTONY KULZYKI, JR., GUILLERMO MENDOZA, AND HENRY METZGER .......................................................... 1599

Release of Bound Immunoglobulin from SSPE Brain by Acid Elution. MARVIN L. WEIL, WILLIAM A. LEIYA, DOUGLAS C. HEINER, AND WALLACE W. TOUTETELLOTE .......................................................... 1603

Chemotaxis under Agarose: A New and Simple Method for Measuring Chemotaxis and Spontaneous Migration of Human Polymorphonuclear Leukocytes and Monocytes. ROBERT D. NELSON, PAUL G. QUIE, AND RICHARD L. SIMMONS .......................................................... 1650

IgE-Induced Release of a Platelet-Activating Factor from Rabbit Lung. T. C. KRAVlS AND P. M. HENSON .......................................................... 1677

Experimental Allergic Aspermatogenic Orchitis. III. Isolation of Spermatozoal Glycoproteins and their Role in Allergic Aspermatogenic Orchitis. ARPI HAGOPIAN, JESSE J. JACKSON, DENNIS J. CARLO, GUADALUPE A. LIMUSCO, AND E. H. EYLAR .......................................................... 1731

TUMOR IMMUNOLOGY

Human Leukemia-Associated Antigens: Detection on Cells of Established Lymphoblastoid Lines. T. MOHANAKUMAR, JOHN L. PAULY, JOSEPH E. SOKAL, AND RICHARD S. METZGER .......................................................... 1542

Preparation and Properties of an Anti-Plasma Cell Serum Directed against a Defined Plasmacytoma Cell Population. MARY LUZET PROCTOR and HERBERT B. HERSCOWITZ .......................................................... 1642

Specific Tumor Immunity Induced with Soluble Materials: Restricted Range of Antigen Dose and of Challenge Tumor Load for Immunoprotection. NEAL R. PELLIS and BARRY D. KAHAN .......................................................... 1717

VIRAL AND MICROBIAL IMMUNOLOGY

Immune and Antibody Responses to an Isolated Capsid Protein of Foot-and-Mouth Disease Virus. HOWARD L. BACHRA, DOUGLAS M. MOORE, PETER D. MCKERCHER, AND JEROME POLATNICK .......................................................... 1636

Chlamydia Trachomatis Immunotype J. SAN-PIN WANG and J. THOMAS GRAYSTON .......................................................... 1711

COMMUNICATIONS

Physical Separation of “Suppressor” from “Helper” Thymocytes. N. LYNN GERBER and ALFRED D. STEINBERG .......................................................... 1744

Mouse Mononuclear Cell Chemotaxis. I. Differential Response of Monocytes and Macrophages. LAURENCE BOTTMELL AND MONTE S. MEULZER .......................................................... 1746

Announcements .......................................................... 1751

Author Index .......................................................... 1755

Subject Index .......................................................... 1759
