THE JOURNAL OF IMMUNOLOGY®

Contents for May

CELLULAR IMMUNOLOGY

IgM Complex Receptors on Subpopulations of Murine Lymphocytes. E. W. LAMON, B. ANDERSSON, H. D. WHITTMAN, M. M. HURST, AND V. GHANTA .......................................................... 1199

Induction of Immunosuppressive Tolerance in Nursing Neonates by Absorption of Tolerogen from Colostrum. JOHN F. HALSEY AND D. C. BENJAMIN ...................................................................... 1204

Effect of Lipopolysaccharide on the Induction of Tolerance to Polymerized Flagellin. DAVID W. SCOTT AND ERWIN DIENER .................................................. 1220

Preparation and Effects of an Anti-B Cell Serum. TERUTAKA KAKUCHI, HIDEO NARIUCHI, AND NOBORU TAMURA ............................................................................. 1224

Effects of C-Reactive Protein on the Lymphoid System. II. Induction of Mixed Lymphocyte Reactivity and Generation of Cytotoxic Lymphocytes. RICHARD F. MORTENSEN AND HENRY GEWURZ .................................................. 1244

Splenic Suppressing Factor: Purification and Characterization of a Factor Suppressing Thymidine Incorporation into Activated Lymphocytes. TADASHI KASAHARA AND KOHEI SHIOHIBI-NAKANO ........................................................................ 1251

Reaginic Antibody Formation in the Mouse. VII. Induction of Suppressor T Cells for IgE and IgG Antibody Responses. KIYOSHI TAKATU AND KIMISHIGE ISHIHARA ........................................................................ 1257

Enumeration and Isolation of Rabbit T and B Lymphocytes by Using Antibody-Coated Erythrocytes. BARRY S. WILSON, MARIUS Tmöglichkeiten, AND SHELDON DRY .......................................................... 1306

The Suppressive Effect of Immunization on the Proliferative Responses of Rat T Cells in Vitro. II. Abrogation of Antigen-Induced Suppression by Selective Cytotoxic Agents. JERRY A. BASH, ANDREW M. SINGER, AND BYRON H. WAKSMAN ............................................................................. 1350

Antigen-Specific and Nonspecific Mediators of T Cell/B Cell Cooperation. II. Two Helper T Cells Distinguished by their Antigen Sensitivities. PHILIPPA MARRACK AND JOHN W. KAPFNER ........................................................................... 1373

Antigen-Specific and Nonspecific Mediators of T Cell/B Cell Cooperation. III. Characterization of the Nonspecific Mediator(s) from Different Sources. LEE HARWELL, JOHN W. KAPFFER, AND PHILIPPA MARRACK ..................................................................................... 1379

Role of T Lymphocytes in the Humoral Immune Response. II. T Cell-Mediated Regulation of Antibody Avidity. ROBERT W. WARREN, SUZANNE MURPHY, AND JOSEPH M. DAVIE ............................................................................. 1385

The Effects of Antigen Dose and Adjuvant on the Antibody Response: Amplification of Restricted B Cell Lines. CURT I. CIVIN, HERBERT B. LEVINE, ALAN R. WILLIAMSON, AND STUART F. SCHLOSSMAN ........................................................................... 1400

Immuno globulin-Positive Mononuclear Cells in Human Peripheral Blood: Detection by Mixed Anti-globulin and Direct Anti-globulin-Rosetting Reactions. DAVID G. HAEGERT AND ROBIN A. COOMBS ........................................................................... 1426

Macrophage Requirements of CR+ and CR− B Lymphocytes for Antibody Production in Vitro. MICHAEL K. HOFFMANN, ULRICH HAMMERLING, MARCUS SIMON, AND HERBERT F. OETTINGEN ........................................................................... 1447

Regulatory Serum Lipoproteins. Regulation of Lymphocyte Stimulation by a Species of Low Density Lipoprotein. LINDA K. CURTIS AND THOMAS S. EDGINGTON ........................................................................... 1452

Enhancement of DNA Synthesis and cAMP Content of Mouse Thymocytes by Mediator(s) Derived from Adherent Cells. JOOST J. OPPENHEIM, AMIR SHINEYOUNG, AND ABRAHAM L. KOOK ........................................................................... 1466

Redistribution of the Fc Receptor on Human Blood Monocytes and Peritoneal Macrophages Induced by Immuno globulin G-Sensitized Erythrocytes. D. G. ROMANS, L. PINTER, R. E. FALK, AND K. J. DORRINGTON ........................................................................... 1473

Studies on T Cell Clonal Expansion. II. The in Vitro Differentiation of Pre-killer and Memory T Cells. RAMESH KAMAT AND CHRISTOPHER S. HENNEY ........................................................................... 1490

IMMUNOCHEMISTRY

The Significance of Varying SRBC/Lymphocyte Ratio in T Cell Rosette Formation. REX L. CHISHOLM AND DAVID G. TUBERGER ........................................................................... 1397

Isolation and Partial Characterization of SAA—an Amyloid-Related Protein from Human Serum. C. JULIAN ROSENTHAL, EDWARD C. FRANKLIN, BLAS FRANGIONE, AND JOEL GREENSPAN ........................................................................... 1415

The Relative Paucity of IgE in Human Milk. BRIAN J. UNDERDOWN, ALLAN KNIGHT, AND FRED R. FAPSIN ........................................................................... 1435

Purification and Characterization of a Liver-Specific Antigen. ANASTASIOS A. MIRAS, BASIL I. HIRSCHOWITZ, AND GASTANO SACCOMANI ........................................................................... 1228

Biologic Activities of Rabbit Immunoglobulin G in Relation to Domains of the Fc Region. ZOLTAN OVARAY, PAUL H. SALI, LUIS QUILADA, AND MICHAEL E. LAMM ........................................................................... 1285

Local Immunization in the Mammary Glands of the Rabbit. JEAN HURLIMANN AND MIREILLE LICHAA ........................................................................... 1295

An Enzyme-Linked Procedure for the Detection and Estimation of Surface Receptors on Cells. DEBORAH J. CAMERON AND BERNARD F. ERLANGER ........................................................................... 1313
Specific Removal of Bovine Serum Albumin (BSA) Antibodies in Vivo by Extracorporeal Circulation over BSA Immobilized on Nylon Microcapsules. DAVID S. TERMAN, TRACIE TAVEL, DONALD PETTY, ARNOLD TAVEL, RONALD HARBECK, AND RONALD CARR .......................................................... 1337

Tryptsin Increases in Vitro Antibody Synthesis and Substitutes for Helper T Cells. ROLAND H. GISLER, THOMAS L. VISCHER, AND PETER DUKOR .................................................................................................................. 1347

The Binding of Complement by Complexes Formed between a Rabbit Antibody and Oligosaccharides of Increasing Size. JEAN-CHARLES JATON, HANS HUSER, WALTER F. RIESEN, JOSEPH SCHLESSINGER, AND DAVID GIVOL .......................................................................... 1363

The C8b-9 Complex: Subunit Composition of the Classical and Alternative Pathway-Generated Complex. ECKHARD R. PODACK, WILLIAM P. KOLB, AND HANS J. MÜLLER-EBERHARD ........................................................................ 1411

IMMUNOGENETICS AND TRANSPLANTATION

Infusion of Donor Lymphocytes into Stable Canine Radiation Chimeras: Implications for Mechanism of Transplantation Tolerance. PAUL L. WEIDEN, RAINER STORR, MANG-SO TSOI, THEODORE C. GRAHAM, KENNETH G. LERNER, AND E. DONNALL THOMAS .................................................................................................................. 1212

Differentiation of Thyimocytes: Evidence that Induction of the Surface Phenotype Requires Transcription and Translation. BRIAN STORNE, GIDEON GOLDSTEIN, EDWARD A. BOYSE, AND ULRICH HAMMERLING .................................................................................. 1358

The Function of Macrophages in Antigen Recognition by Guinea Pig T Lymphocytes. III. Genetic Analysis of the Antigens Mediating Macrophage-T Lymphocytes Interaction. ETHAN M. SHEVACH ........................................................................ 1482

IMMUNOPATHOLOGY

Mechanisms of Resistance against Experimental Trypanosoma cruzi Infection: The Importance of Antibodies and Antibody-Forming Capacity in the Biozzi High and Low Responder Mice. FELIPE KIERSZENBAUM AND JAMES G. HOWARD ................................................................. 1208

An in Vitro Assay for T Cell Immunity to Malaria in Mice. FREDERIC I. WEINBAUM, CHARLES B. EVANS, AND ROBERT E. TIGELAAR .................................................................................................................. 1280

Changes in C3 Metabolism during Protozoan Infection (Babesia rodhaini) in Rats. WILLIAM E. CHAPMAN AND PETER A. WARD .................................................................................................................. 1284

Effects of C-Reactive Protein on Platelet Function. I. Inhibition of Platelet Aggregation and Release Reactions. BARRY A. FIEDEL AND HENRY GEWURZ ........................................................................ 1289

Increased Iodine Uptake by Obese Strain Thyroid Glands Transplanted to Normal Chick Embryos. ROY S. SUNDICK AND GREG WICK .................................................................................................................. 1319

Studies on Autoimmune Encephalomyelitis in the Guinea Pig. II. An in Vitro Investigation on the Nature, Properties, and Specificity of the Serum-Demyelinating Factor. RENÉ LEBAR, JEANNE-MARIE BOUTRY, CHRISTINE VINCENT, ROGER ROBINEAUX, AND GUY ANDRÉ VOISIN ........................................................................ 1439

TUMOR IMMUNOLOGY

Endodermally-Derived and Neural Crest-Derived Differentiation Antigens Expressed by a Human Lung Tumor. C. ELLIOTT BELL, JR., SHAKUNTA SEETHRAM, AND ROBERT C. McDaniel .................................................................................................................. 1236

Studies on the Terminal Stages of Antibody-Complement-Mediated Killing of a Tumor Cell. II. Inhibition of Transformation of T* to Dead Cells by 3′cAMP. MICHAEL D. P. BOYLE, SARKIS H. OHANIAN, AND TIBOR BORSOS .................................................................................................................. 1276

Release of Tumor-Associated Antigens by Murine Melanoma Cells. JEAN-CHARLES BYSTRYN .................................................................................................................. 1302

Naturally Soluble Tumor Antigens from Guinea Pig Hepatomas: Isolation and Partial Characterization. BARBARA DETRICK-HOOKS, HOWARD G. SMITH, ROBERT C. BAST, JR., VIRGINIA C. DUNKEL, AND TIBOR BORSOS .................................................................................................................. 1324

Suppressor Cells in the Spleens of Tumor-Bearing Mice. Enrichment by Centrifugation on Hypaque-Ficoll and Characterization of the Suppressor Population. BARBARA L. POPE, RICHARD B. WHITNEY, JULIA G. LEVY, AND DOUGLAS G. KILBURN .................................................................................................................. 1342

Immunologic Cross-Reactivity of Antibody(s) Induced by Drug Treatment in Two Leukemic Sublines. ANGELO MXCHAEL D. P. BOYLE, FRAUNO, ALFREDO BONI, FRANCIO D'PAVHO, AND ABRAHAM GOLDIN ................................................................................................. 1347

Generation of Cytotoxic Lymphocytes in Vitro: Response of Immune Rat Spleen Cells to a Syngeneic Gross Virus-Induced Lymphoma in Mixed Lymphocyte-Tumor Culture. IRWIN D. BERNSTEIN, PETER W. WRIGHT, AND EDITH COHEN .................................................................................................................. 1367

Antibody against the Antigen Receptor of a Plasmacytoma Prolongs Survival of Mice Bearing the Tumor. PATRICK G. BEATTY, BYUNG S. KIM, DONALD A. ROWLEY, AND LIONEL W. COPPLESON .................................................................................................................. 1391

Shared Antigens between Human Malignant Melanoma Cells and Mycobacterium bovis (BCG). PERCY MINDEN, THOMAS R. SHARPTON, AND J. KENNETH MCCLOY .................................................................................................................. 1407

Cell-Mediated Immunity to Friend Virus-Induced Leukemia. IV. In Vitro Generation of Primary and Secondary Cell-Mediated Cytotoxic Responses. CHOU-CHIK TING AND GUY D. BONNARD .................................................................................................................. 1419

VIRAL AND MICROBIAL IMMUNOLOGY

Effect of Murine Cytomegalovirus on the in Vitro Responses of T and B Cells to Mitogens. MARYLANE K. SELGRADE, AFTAB AHMED, KENNETH W. SELL, M. ERIC GERSHWIN, AND ALFRED D. STEINBERG .................................................................................................................. 1459
THE JOURNAL OF IMMUNOLOGY
COMMUNICATIONS

Motheaten: An Immunodeficient Mouse with Markedly Less Ability to Survive than the Nude Mouse in a Germfree Environment. MARVIN A. LUTZENER AND CARL T. HANSEN .......................... 1496
Preservation of a T Cell-Mediated Immune Response in Marek's Disease Virus-Infected Chickens by Vaccination with a Related Virus. LOUIS W. SCHIRMER, GAIL A. THEIS, AND RAYMOND A. McBRIDE .......... 1497

ERRATUM ............................................................................................................. 1500
ANNOUNCEMENTS .......................................................................................... 1504

THE AMERICAN ASSOCIATION OF IMMUNOLOGISTS

OFFICERS
Robert A. Good, President
New York, New York

Manfred M. Mayer, Vice President
Baltimore, Maryland

Henry Metzger, Secretary-Treasurer
American Association of Immunologists
9650 Rockville Pike
Bethesda, Maryland 20014

COUNCILLORS
K. Frank Austen
Boston Massachusetts

David W. Talmage
Denver Colorado

Irwin H. Lepow
Farmington, Connecticut

D. Bernard Amos
Durham, North Carolina

Joseph D. Feldman
La Jolla, California
