The Journal of Immunology

116 (5)

J Immunol 1976; 116:1199-1506;
http://www.jimmunol.org/content/116/5.citation

This information is current as of November 6, 2017.

Why The JI?

• **Rapid Reviews! 30 days**° from submission to initial decision

• **No Triage!** Every submission reviewed by practicing scientists

• **Speedy Publication!** 4 weeks from acceptance to publication

Subscription

Contents for May

CELLULAR IMMUNOLOGY

IgM Complex Receptors on Subpopulations of Murine Lymphocytes. E. W. LAMON, B. ANDERSSON, H. D. WHITTEN, M. M. HURST, AND V. GHANTA ......................................................... 1199
Induction of Immunologic Tolerance in Nursing Neonates by Absorption of Tolerogen from Colostrum. JOHN F. HALSEY AND D. C. BENJAMIN ........................................................................... 1204
Effect of Lipopolysaccharide on the Induction of Tolerance to Polymerized Flagellin. DAVID W. SCOTT AND ERWIN DIENER ............................................................... 1220
Preparation and Effects of an Anti-B Cell Serum. TERUTAKA KAKIUCHI, HIDEO NARIUCHI, AND NOBORU TAMURA ........................................................................................................... 1224
Effects of C-Reactive Protein on the Lymphoid System. II. Inhibition of Mixed Lymphocyte Reactivity and Generation of Cytotoxic Lymphocytes. RICHARD F. MORTENSEN AND HENRY GEWURZ ........................................................................................................... 1244
SplenicSuppressing Factor: Purification and Characterization of a Factor Suppressing Thymidine Incorporation into Activated Lymphocytes. TADASHI KASAHARA AND KOHEI SHIOHII-NAKANO ........................................................................... 1251
Reaginic Antibody Formation in the Mouse. VII. Induction of Suppressor T Cells for IgE and IgG Antibody Responses. KIYOSHI TAKATSU AND KIMISHIGE ISHIHAKA ........................................................................... 1257
Enumeration and Isolation of Rabbit T and B Lymphocytes by Using Antibody-Coated Erythrocytes. BARRY S. WILSON, MARIUS TEODORESCU, AND SHELDON DRAY .................................................................. 1306
The Suppressive Effect of Immunization on the Proliferative Responses of Rat T Cells in Vitro. II. Abrogation of Antigen-Induced Suppression by Selective Cytotoxic Agents. JERRY A. BASH, ANDREW M. SINGER, AND BYRON H. WAKSMAN .......................................................................................... 1350
Antigen-Specific and Nonspecific Mediators of T Cell/B Cell Cooperation. II. Two Helper T Cells Distinguished by their Antigen Sensitivities. PHILIPPA MARRACK AND JOHN W. KAPPLER .................................................................. 1373
Antigen-Specific and Nonspecific Mediators of T Cell/B Cell Cooperation. III. Characterization of the Nonspecific Mediator(s) from Different Sources. LEE HARWELL, JOHN W. KAPFLER, AND PHILIPPA MARRACK .................................................................................. 1379
Role of T Lymphocytes in the Humoral Immune Response. II. T Cell-Mediated Regulation of Antibody Avidity. ROBERT W. WARREN, SUZANNE MURPHY, AND JOSEPH M. DAVIE ........................................................................................................... 1385
The Effects of Antigen Dose and Adjuvant on the Antibody Response: Amplification of Restricted B Cell Lines. CURT I. CIVIN, HERBERT B. LEVINE, ALAN R. WILLIAMSON, AND STUART F. SCHLOSSMAN ........................................................................................................... 1400
Immunoglobulin-Positive Mononuclear Cells in Human Peripheral Blood: Detection by Mixed Anti-globulin and Direct Anti-globulin-Rosetting Reactions. DAVID G. HAEGERT AND ROBIN R. A. COMBS ........................................................................................................... 1426
Macrophage Requirements of CR+ and CR- B Lymphocytes for Antibody Production in Vitro. MICHAEL K. HOFFMANN, ULRICH HAMMERLING, MARKUS SIMON, AND HERBERT F. OETTGEN ........................................................................................................... 1447
Regulatory Serum Lipoproteins. Regulation of Lymphocyte Stimulation by a Species of Low Density Lipoprotein. LINDA K. CURTISS AND THOMAS S. EDGINGTON ........................................................................................................... 1452
Enhancement of DNA Synthesis and cAMP Content of Mouse Thymocytes by Mediator(s) Derived from Adherent Cells. JOOST J. OPPENHEIM, AMIR SHNEYOUR, AND ABRAHAM I. KOOK ........................................................................................................... 1466
Redistribution of the Fc Receptor on Human Blood Monocytes and Peritoneal Macrophages Induced by Immunoglobin G-Sensitized Erythrocytes. D. G. ROMANS, L. PINTERIC, R. E. FALK, AND K. J. DORRINGTON ........................................................................................................... 1473
Studies on T Cell Clonal Expansion. II. The in Vitro Differentiation of Pre-killer and Memory T Cells. RAMESH KAMAT AND CHRISTOPHER S. HENNEY ........................................................................................................... 1490

CLINICAL IMMUNOLOGY

The Significance of Varying SRBC/Lymphocyte Ratio in T Cell Rosette Formation. REX L. CHISHOLM AND DAVID G. TUBERGEN .......................................................................................... 1397
Isolation and Partial Characterization of SAA—an Amyloid-Related Protein from Human Serum. C. JULIAN ROSENTHAL, EDWARD C. FRANKLIN, BLAS FRANGIONE, AND JOEL GREENSPAN ........................................................................................................... 1415
The Relative Paucity of IgE in Human Milk. BRIAN J. UNDERDOWN, ALLAN KNIGHT, AND FRED R. FAPSIN ........................................................................................................... 1435

IMMUNOCHEMISTRY

Purification and Characterization of a Liver-Specific Antigen. ANASTASIOS A. MIHAS, BASIL I. HIRSCHOWITZ, AND GAETANO SACCOMANI ........................................................................................................... 1228
Biologic Activities of Rabbit Immunoglobulin G in Relation to Domains of the Fc Region. ZOLTAN OVARY, PAUL H. SALK, LUIS QUILADA, AND MICHAEL E. LAMM ........................................................................................................... 1285
Local Immunization in the Mammary Glands of the Rabbit. JEAN HURLIMANN AND MIREILLE LICHA ........................................................................................................... 1296
An Enzyme-Linked Procedure for the Detection and Estimation of Surface Receptors on Cells. DEBORAH J. CAMERON AND BERNARD F. ERLANGER ........................................................................................................... 1313
Specific Removal of Bovine Serum Albumin (BSA) Antibodies in Vivo by Extracorporeal Circulation over BSA Immobilized on Nylon Microcapsules. David S. Terman, Tracie Tavel, Donald Petty, Arnold Tavel, Ronald Harbeck, and Ronald Carr

Trypsin Increases in Vitro Antibody Synthesis and Substitutes for Helper T Cells. Roland H. Gisler, Thomas L. Visccher, and Peter Dukor

The Binding of Complement by Complexes Formed between a Rabbit Antibody and Oligosaccharides of Increasing Size. Jean-Charles Jaton, Hans Huser, Walter F. Riesen, Joseph Schlesinger, and David Givol

IMMUNOGENETICS AND TRANSPLANTATION

Differentiation of Thymocytes: Evidence that Induction of the Surface Phenotype Requires Transcription and Translation. Brian Storrie, Gideon Goldstein, Edward A. Boyse, and Ulrich Hammerling

The Function of Macrophages in Antigen Recognition by Guinea Pig T Lymphocytes. III. Genetic Analysis of the C5b-9 Complex: Subunit Composition of the Classical and Alternative Pathway-Generated Complex. Ethan M. Shevach

IMMUNOPATHOLOGY

Mechanisms of Resistance against Experimental Trypanosoma cruzi Infection: The Importance of Antibodies and Antibody-Forming Capacity in the Biozzi High and Low Responder Mice. Felipe Kierszenbaum and James G. Howard

Changes in C3 Metabolism during Protozoan Infection (Babesia rodhaini) in Rats. William E. Chapman and Peter A. Ward

Effects of C-Reactive Protein on Platelet Function. I. Inhibition of Platelet Aggregation and Release Reactions. Barry A. Fiedel and Henry Gewurz

Increased Iodine Uptake by Obeese Strain Thyroid Glands Transplanted to Normal Chick Embryos. Roy S. Sundick and Georg Wick

TUMOR IMMUNOLOGY

Endodermally-Derived and Neural Crest-Derived Differentiation Antigens Expressed by a Human Lung Tumor. C. Elliott Bell, Jr., Shakuntla Seetharam, and Robert C. McDaniel

Studies on the Terminal Stages of Antibody-Complement-Mediated Killing of a Tumor Cell. II. Inhibition of Transformation of T* to Dead Cells by 3'5' cAMP. Michael D. P. Boyle, Sarkis H. Ohanian, and Tibor Borsos

Release of Tumor-Associated Antigens by Murine Melanoma Cells. Jean-Charles Bystryn

Immunologic Cross-Reactivity of Antigen(s) Induced by Drug Treatment in Two Leukemic Sublines. Angelo Selgrade, Alfredo Bini, Franco Di Padova, and Abraham Goldin

Generation of Cytotoxic Lymphocytes in Vitro: Response of Immune Rat Spleen Cells to a Syngeneic Gross Virus-Induced Lymphoma in Mixed Lymphocyte-Tumor Culture. Irwin D. Bernstein, Peter W. Wright, and Edith Cohen

Antibody against the Antigen Receptor of a Plasmacytoma Prolongs Survival of Mice Bearing the Tumor. Patrick G. Beatty, Byung S. Kim, Donald A. Rowley, and Lionel W. Coppleston

Shared Antigens between Human Malignant Melanoma Cells and Mycobacterium bovis (BCG). Percy Mindean, Thomas R. Sharpot, and J. Kenneth McClatchy

Cell-Mediated Immunity to Friend Virus-Induced Leukemia. IV. In Vitro Generation of Primary and Secondary Cell-Mediated Cytotoxic Responses. Chou-Chik Tung and Guy D. Bonnard

VIRAL AND MICROBIAL IMMUNOLOGY

THE JOURNAL OF IMMUNOLOGY

COMMUNICATIONS

Mothetaten: An Immunodeficient Mouse with Markedly Less Ability to Survive than the Nude Mouse in a Germfree Environment. Marvin A. Lutzen and Carl T. Hansen .................................................. 1496

Preservation of a T Cell-Mediated Immune Response in Marek’s Disease Virus-Infected Chickens by Vaccination with a Related Virus. Louis W. Schirman, Gail A. Theis, and Raymond A. McBride ................. 1497

ERRATUM ........................................................................................................... 1500

ANNOUNCEMENTS ............................................................................................. 1504

THE AMERICAN ASSOCIATION OF IMMUNOLOGISTS

OFFICERS

Robert A. Good, President
New York, New York

Manfred M. Mayer, Vice President
Baltimore, Maryland

Henry Metzger, Secretary-Treasurer
American Association of Immunologists
9650 Rockville Pike
Bethesda, Maryland 20014

COUNCILLORS

K. Frank Austen
Boston Massachusetts

David W. Talmage
Denver Colorado

Irwin H. Lepow
Farmington, Connecticut

D. Bernard Amos
Durham, North Carolina

Joseph D. Feldman
La Jolla, California
