# What's better than Speed Reading?

## Speed Learning

SPEED PLUS COMPREHENSION

Speed Learning will make you more successful in your business life . . . happier in your private life. It's easy to learn. 50,000 people in corporations, professions, universities and schools have found "it really works!"

Do you have too much to read and too little time to read it? Do you mentally pronounce each word as you read? Do you frequently have to go back and re-read words or whole paragraphs you just finished reading? Do you have trouble concentrating? Do you quickly forget most of what you read?

If you answer "yes" to any of these questions—then here at last is the practical help you've been waiting for. Whether you read for business or pleasure, school or college, you will build exceptional skills from this major breakthrough in effective reading, created by Dr. Russell Stauffer at the University of Delaware.

### Not just "speed reading"—but speed reading-thinking-understanding-remembering-and-learning

The new *Speed Learning Program* shows you step-by-step how to increase your reading skill and speed, so you understand more, remember more and use more of everything you read. The typical remark made by the 30,000 slow readers who completed the *Speed Learning Program* was: "Why didn't someone teach me this a long time ago?" They were no longer held back by the lack of skills and poor reading habits. They could read almost as fast as they could think.

### Listen-and-learn at your own pace

This is a practical, easy-to-learn program that will work for you—no matter how slow a reader you think you are now. The *Speed Learning Program* is scientifically planned to get you started quickly . . . to help you in spare minutes a day. It brings you a "teacher-on-cassettes" who guides you, instructs, encourages you, explaining material as you read. Interesting items taken from *Time Magazine*, *Business Week*, *Wall Street Journal*, *Family Circle*, *N.Y. Times* and many others, make the program stimulating, easy and fun . . . and so much more effective.

Executives, students, professional people, men and women in all walks of life from 15 to 70 have benefited from this program. Most of them have spent hundreds of dollars for classroom study to get this priceless training. Now

you can examine the same, easy, practical and proven methods at home . . . in spare time . . . without risking a penny.

### Examine Speed Learning FREE for 10 days

You will be thrilled at how quickly this program will begin to develop new thinking and reading skills. After listening to just one cassette and reading the preface you will quickly see how you can achieve increases in both the speed at which you read and in the amount you understand and remember.

You must be delighted with what you see or you pay nothing. Examine this remarkable program for 10 days. If, at the end of that time you are not convinced that you would like to master Speed Learning, simply return the program and owe nothing. See the coupon for low price and convenient credit terms.

### What makes Speed Learning so successful?

The new *Speed Learning Program* does not offer you a re-hash of the usual eye-exercises, timing devices, costly gadgets you've probably heard about in connection with speed reading courses or even tried and found ineffective.

In just a few spare minutes a day of easy reading and exciting listening, you discover an entirely new way to read and think—a radical departure from anything you have ever seen or heard about. Research shows that reading is 95% *thinking* and only 5% eye movement. Yet most of today's speed reading programs spend their time teaching you rapid eye movement (5% of the problem) and ignore the most important part (95%) *thinking*. In brief, *Speed Learning* gives you what speed reading *can't*.

Imagine the new freedom you'll have when you learn how to dash through all types of reading material *at least* twice as fast as you do now, and with greater comprehension. Think of being able to get on top of the avalanche of newspapers, magazines and correspondence you have to read . . . finishing a stimulating book and retaining facts and details more clearly and with greater accuracy than ever before.

Dr. Russell G. Stauffer, originator and research director of this program, has been Editor of the *International Reading Association Journal*, is Professor of Education University of Delaware.

*Optional Extra:* If you don't already own a cassette player, order the Deluxe Cassette Recorder that lets you listen and record anywhere, either on house current or battery. Comes complete ready to use.

Mail coupon today for FREE 10 day examination.\*

# LIFESAVING PARTNERSHIP... AGAINST CANCER QUACKERY

The anguish associated with cancer is compounded by the cancer quack. False hopes—harmful delays—shattering expenses—deceptive diagnoses—loss of life—these are hazards facing the cancer patient desperate enough to seek a cancer quack.

**The problem:** how to divert the patient from this tragic encounter.

As medical guide, family counselor, trusted friend—you, doctor, play a major role in the fight against cancer quackery.

We are here to “partner” you.

Our National Office maintains an up-to-date central clearing house for materials on unproven methods of cancer diagnosis and treatment. This is a unique operation and the principal source of such information in the

country. Its services are widely used. Hundreds of inquiries are received and answered from all segments of the community, from coast to coast.

To trigger grass-roots action, we have formulated a model State Cancer Remedy Act designed to control the promotion and sale of unproven methods of cancer management. This has already inspired nine states to legislate against cancer quackery—with active support from the medical community. Copies of the model act, as well as copies of the laws in effect, are available in our National and Division offices.

In these actions against cancer quackery, as in all our efforts against cancer, ours is a lifesaving partnership.

Cancer  
Society 

# Biochemical Tests for Identification of Medical Bacteria

This unique manual covers in detail all of the necessary information for current medically important biochemical tests for the identification of bacteria. Included for each test are: the principles, purpose, biochemistry involved, media and reagents employed and their preparation, chemistry of reagent action, color illustrations of possible results, interpretation, precautions, and references. Each test is presented as a complete entity. In addition, tables and necessary identification schemata are included at the end of each chapter.

Superbly illustrated with color plates, a ready guide for all laboratory personnel.

By Jean F. Mac Faddin, MS, MT (ASCP), SM (AAM), SFC, U.S. Army retired  
1976, 312 pages, illustrated, 37 color plates, \$12.75

WILLIAMS & WILKINS 428 EAST PRESTON STREET, BALTIMORE, MARYLAND 21202

# The extensive NYEGAARD product line for centrifugation studies is now available in the USA from ACCURATE.

## Featuring:

- Zonal centrifugation
- Isopycnic banding
- Density gradient centrifugation
- Low-speed centrifugation
- Sedimentation/flotation at  $1g$ .

1.5

### Sodium metrizoate

For isolation of leucocytes, thrombocytes, and other whole cells by flotation and gradient centrifugation. Available as 32.8% ( $\rho=1.200$  g/ml) and 75% solution of SODIUM METRIZOATE.

### Meglumine metrizoate

For discontinuous and linear gradients in the isolation of bacteria, bacterial spores, viruses, spermatozoa as well as subcellular organelles. Available as 76% (containing 10% sodium salt) solution of MEGLUMINE METRIZOATE.

### Lymphoprep<sup>®</sup>

For preparation of pure lymphocyte suspensions in tissue typing, anti-lymphocyte sera production and immunological research. A ready-made mixture of SODIUM METRIZOATE and FICOLL<sup>®</sup>\* with density  $1.077 \pm 0.001$  g/ml. \*From Pharmacia Fine Chemicals.

### Metrizamide

A non-ionic, inert and easily water soluble compound forming dense solutions of low viscosity. For gradient isolation of cells, viruses, subcellular particles and for isopycnic banding of biological macro-molecules. Available as dry substance in packages of 50g.

Mail coupon for FREE samples and literature to:

# Bacto - Febrile Antigen Set includes...

**POLYVALENT  
POSITIVE  
CONTROL**

**NEGATIVE  
CONTROL**

These controls insure confidence in the performance of your Febrile Test results. Set consists of six basic antigens with polyvalent positive and negative controls—includes four Salmonella antigens for slide and tube tests plus B. abortus and Proteus OX19.

Widest range of antigens and antisera available.

For more information, write for literature number 0261.
