TUMOR IMMUNOLOGY

P. F. Bartlett, B. A. Fenderson, and M. Edidin

Inactivation of Antigen-Responsive Clones with Antiserum Specific for IgM or IgD
Comparison of the Homogeneous, Primary Anti-Dextran B1355 Antibody Raised in BALB/c Mice with Protein 104E
Measurement of IgE Antibody by an Antigen-Binding Assay: Correlation with PK Activity and IgG and IgA Antibodies to Allergens
Characterization of Murine Colony-Forming B Cells. I. Distribution, Resistance to Anti-IgM Antibodies, and Expression of IgA Antigens
Breast Milk IgA Binds to Jejunal Epithelium in Suckling Rats
Heterogeneity, Polypeptide Chain Composition, and Antigenic Reactivity of C3 Nephritic Factor
The Subclass Specificity for the Binding of Murine Myeloma Proteins to Macrophage and Lymphocyte Cell Lines and to Normal Spleen Cells
The Modulation of the Alternative Pathway of Complement in C2-Deficient Human Serum by Changes in Concentration of the Component and Control Proteins
Isolation and Characterization of a Rabbit T-Lymphocyte-Specific Antigen
Immune Response to Levan. I. Kinetics and Ontogeny of Anti-Levan and Anti-Inulin Antibody Response and of Expression of Cross-Reactive Idiotyp
Role of T Lymphocytes in Adjunct Adjuvant Arthritis. II. Different Subpopulations of T Lymphocytes Functioning in the Development of the Disease
Opsonin-Independent Phagocytosis of Activators of the Alternative Complement Pathway by Human Monocytes
Microtubule Assembly and Function in Normal and Glutathione Synthetase-Deficient Polymorphonuclear Leukocytes
The Effects of Phagocytosis, Dextran Sulfate, and Cell Damage on PGE_1 Sensitivity and PGE_1 Production of Macrophages
Increase of T Lymphocyte Self Reactivity in Aging Inbred Rats: In Vitro Studies with a Model of Experimental Autoimmune Orchitis
Inhibition of in Vivo and in Vitro Neutrophil Responses to Chemotactic Factors by A Competitive Antagonist
Inhibition of Tumor Growth Mediated by Lymphocytes Sensitized in Vitro to a Syngeneic Murine Teratocarcinoma 402AX

Continued on page 4
Characterization of a Soluble Factor That Specifically Suppresses the in Vitro Generation of Cells Cytotoxic for Syngeneic Tumor Cells in Mice

Immunologic Rejection of Mammary Adenocarcinoma (TA3-St) in C57BL/6 Mice: Participation of Neutrophils and Activated Macrophages with Fibrin Formation

Generation of Suppressor Lymphocytes during Sensitization in Culture against A Syngeneic Tumor: Affinity Chromatography on Insolubilized Histamine

Suppression of the Mitogen-Stimulated Blastogenic Response during Reticuloendotheliosis Virus-Induced Tumorigenesis: Investigations into the Mechanism of Action of the Suppressor

Depression of Mitogen Response in Spleen Cells from Reticuloendotheliosis Virus-Infected Chickens and Their Suppressive Effect on Normal Lymphocyte Responses

Suppressor Cell Activity in Tumor-Bearing Mice. I. Dualistic Inhibition by Suppressor T Lymphocytes and Macrophages

Suppressor Cell Activity in Tumor-Bearing Mice. II. Inhibition of DNA Synthesis and DNA Polymerases by TBH Splenic Suppressor Cells

The Analysis of the Monoclonal Immune Response to Influenza Virus. III. The Relationship between Stimulation of Virus-Primed Precursor B Cells by Heterologous Viruses and Reactivity of Secreted Antibodies

Immunologic Responses to Candida albicans. III. Effects of Passive Transfer of Lymphoid Cells or Serum on Murine Candidiasis

Immune Responses during Human Schistosomiasis Mansoni. IV. Induction of Suppressor Cell Activity by Schistosome Antigen Preparations and Concanavalin A

The Central Nervous System-Associated Immune Response to Parainfluenza Type I Virus in Mice

Virus-Induced Immune Complex Disease: Identification of Specific Viral Antigens and Antibodies Deposited in Complexes during Chronic Lymphocytic Chorimeningitis Virus Infection
