J. J. Langone, M. D. P. Boyle, and T. Borsos

A Quantitative Fluorometric Assay for Detection and Characterization of Fc Receptors
Trinitrophenylated Red Cells (E-TNP) as a Model for Antibody-Independent Activation of the Complement System Via the Classical Pathway
Inhibition of Human Urinary Kallikrein (Urokinikrein) by Anti-enzyme Fab
Structural Studies of the Protein Portion of the H-2-Linked Ia Glycoprotein Antigens of the Mouse: Tryptic Peptide Comparison of Products from the I-A and I-C Subregions of B10.Htt
Characterization of the Proteolytic Fragments of Bovine Colostal IgG1
Molecular Heterogeneity of Secretory IgA Anti-DNP Antibodies
Antibodies of Restricted Heterogeneity Directed against the Cardiac Glycoside Digoxin
Polymorphism of Tissue and Serum Amyloid A (AA and SAA) Proteins in the Mouse
Light Chain Diversity of Murine Anti-streptococcal Antibodies: IgC-linked Effects on L Chain Expression
A Specific Indicator for Mouse Lymphocyte C3b Receptors
Studies on the Interaction between Protein A and Immunoglobulin G. I. Effect of Protein A on the Functional Activity of IgG
Studies on the Interaction between Protein A and Immunoglobulin G. II. Composition and Activity of Complexes Formed between Protein A and IgG
Kinetic Assessment of Alternative Complement Pathway Activity in a Hemolytic System. I. Experimental and Mathematical Analyses
Kinetic Assessment of Alternative Complement Pathway Activity in a Hemolytic System. II. Influence of Antibody on Alternative Pathway Activation

S. E. Cullen, T. H. Hansen, and J. Klein
G. B. Ahmann, D. H. Sachs, and R. J. Hodes
A. C. Whitmore, G. F. Babcock, and G. Haughton
C. G. Fathman, T. Watanabe, and A. Augustin
U. Yamashita, E. M. Shevach, and D. W. Thomas

Genetic Control of T Lymphocyte Responses by in Vitro Sensitization with Macrophage-Bound Antigens
Isolation and Analysis of H-2 and Ia Alloantigens from Wild Mouse Strains
Genetic Analysis of Ia Determinants Expressed on Con A-Reactive Cells
Genetic Control of Susceptibility of Mice to Rous Sarcoma Virus Tumorigenesis. II. Segregation Analysis of Strain A.SW-Associated Resistance to Primary Tumor Induction
The Expression of Ia Antigens on Immunocompetent Cells in the Guinea Pig. III. Functional Selection of Ia-Negative T Cells by in Vitro Culture

J. C. Roder, D. A. Bell, and S. K. Singhal
J. C. Roder, D. A. Bell, and S. K. Singhal
D. A. Bass, L. R. DeChatelet, and C. E. McCall
M. Osband and R. Parkman
D. Ellat, J. P. Reeves, A. D. Steinberg, and A. M. Schechter

Loss of Self-Tolerance to Single-Stranded Deoxribonucleic Acid (sDNA) in Vitro
Regulation of the Autoimmune Plaque-Forming Cell Response to Single-Strand DNA (sDNA) in Vitro
Independent Stimulation of Motility and the Oxidative Metabolic Burst of Human Polymorphonuclear Leukocytes
The Control of Autoreactivity. I. Lack of Autoreactivity in Murine Spleens is Due to Concomitant Presence ofSuppressor and Autocytotoxic Lymphocytes
Measurement of Antigen-Specific IgG Autoantibody Production in Vitro
