Regulation of Human Lymphocyte Function by a Soluble Extract from Normal Human Liver

Expression of Human T Lymphocyte Antigens by Killer Cells

Immunoregulatory Aberrations in Systemic Lupus Erythematosus

In Vitro Growth of Cytotoxic Human Lymphocytes. I. Growth of Cells Sensitized in Vitro to Alloantigens

Fc-Receptors on Human T Lymphocytes. I. Transition of $\gamma$ to $\mu$ Cells

Radiochemical Characterization of Hemoglobins Lepore and Kenya: Unique Antigenic Determinants Located on Hybrid Hemoglobins

Characterization of an IgE Receptor Isolated from Cultured B-Type Lymphoblastoid Cells

Immunoglobulin M Synthesized by Human Lymphoblastoid Cells: Interaction with Staphylococcus aureus and Protein A

Thy-1 Antigenicity is Associated with Glycolipids of Brain and Thymocytes

Liposomes as Model Membrane Systems for Immune Attack. I. Transfer of Antigenic Determinants to Lymphocyte Membranes after Interactions with Hapten-Bearing Liposomes.

Liposomes as Model Membrane Systems for Immune Attack. II. The Interaction of Complement and K Cell Populations with Immobilized Liposomes

Production of Antisera Specific for Idiotype(s) of Murine Anti(T,G)-A--L Antibodies

Radiochemical Characterization of the First Component of Complement by Human and Guinea Pig Peritoneal Macrophages: Evidence for an Independent Production of the C1 Subunits

Genetic Control of Tolerance Induction to Human $\gamma$-Globulin in Mice

Estimates of the Precursor Frequency of Cytotoxic T Lymphocytes against Antigens Controlled by Defined Regions of the $H-2$ Gene Complex: Comparison of the Effect of $H-2$ Differences due to Intra-$H-2$ Recombination vs Mutation

IgG/Antibodies Produced by Heterozygous $a^1a^3$ Rabbits Responding to Acidic Azohaptens are Predominantly of Allotype $a^1$

H-2 Control of Tolerance Induction to L-Glutamic Acid, L-Lysine Containing Polymers

Impairment of Host vs Graft Reaction in Pregnant Mice. I. Suppression of Cytotoxic T Cell Generation in Lymph Nodes Draining the Uterus

Clonal Nature of the Immune Response to Phosphocholine. VI. Molecular Uniformity of a Single Idiotype among BALB/c Mice

Isolation and Antigenic Characterization of the Product of a Third Polymorphic $H-2$ Locus, $H-2L$

Prolongation of Organ Allograft Survival by Syngeneic Lymphoid Cells

Target Antigens of Cell-Mediated Lympholysis Discrimination of HLA Subtypes by Cytotoxic Lymphocytes

Effect of Ultraviolet Light on Dinitrochlorobenzene-Specific Antigen-Presenting Function

Cellular and Genetic Control of Antibody Responses in Vitro. IV. Expression of la Antigens on Accessory Cells Required for Responses to Soluble Antigens Including a Response under Ir Gene Control
