CELLULAR IMMUNOLOGY

P. L. Simon, J. J. Farrar, and P. D. Kind
D. D. Eardley, F. W. Shen, R. E. Cone, and R. K. Gerashon
R. Barton, F. Martinluk, R. Hirschhorn, and L. Goldschneider
M. B. Goldman, D. L. French, and J. N. Goldman
M. B. Widmer and E. L. Cooper
M. C. Howard, J. M. Fidler, J. Baker, and K. Shortman
P. K. Lala, G. R. Johnson, F. L. Battye, and G. J. V. Nossal
J. L. Maryanski, J.-C. Cerottini, and K. T. Brunner
B. Kindred, R. Boeing-Schneider, and R. B. Corley

Biochemical Relationship between Murine Immune Interferon and a Killer Cell Helper Factor
Antigen-Binding T Cells: Dose Response and Kinetic Studies on the Development of Different Subsets
Augmentation of Mouse Natural Killer Cell Activity by Interferon and Interferon Inducers
Role of Macrophages in the Augmentation of Mouse Natural Killer Cell Activity by Poly I:C and Interferon
The Distribution of Adenosine Deaminase among Lymphocyte Populations in the Rat
Cell-Mediated Suppression of the Fifth Component of Complement in Mice

CLINICAL IMMUNOLOGY

J. J. Lipsky, R. W. Berninger, L. R. Hyman, and R. C. Talamo
A. V. Muchmore, J. M. Decker, and R. M. Blaese
L. G. Lum, A. V. Muchmore, D. Karen, J. Decker, I. Koski, W. Strober, and R. M. Blaese
J. C. Brouet and A. Chevalier
G. C. de Gast and T. A. E. Platts-Mills
G. C. de Gast and T. A. E. Platts-Mills

Presence of Alpha-1-Antitrypsin on Mitogen-Stimulated Human Lymphocytes
Spontaneous Cytotoxicity. III. Inhibition of Human Monocyte-Mediated Cytotoxicity by Pokeweed Mitogen
A Receptor for IgA on Human T Lymphocytes
Stability of DNA/Anti-DNA Complexes
Serologically Defined Subpopulations of Human T Lymphocytes
Functional Studies on Lymphocytes in Adult Human Bone Marrow. I. Immunoglobulin Production in Vitro after Fractionation on a Sucrose Gradient and T/Non-T Cell Separation
Functional Studies on Lymphocytes in Adult Human Bone Marrow. II. Isolated Surface IgM-Positive Cells

IMMUNOCHEMISTRY

S. Weitzman, L. Palmer, and M. Grennon
W. F. Doe and H. L. Spiegelberg
C. Waltenbaugh, A. Dessein, and B. Benacerraf
A. T. Sobel, N. R. Cooper, and R. D. Schreiber

Serum Decay and Placental Transport of a Mutant Mouse Myeloma Immunoglobulin with Defective Polypeptide and Oligosaccharide Structure
Characterization of an Antiserum Specific for the Fab\alpha Fragment: Its Use for Detection of \(\alpha\)-Heavy Chain Disease Protein by Immunoselection
Characterization of the Primary IgM Response to GAT and GT: Conditions Required for the Detection of IgM Antibodies
Activation of the Classical Complement Pathway by Nephritic Factor Bound to the Alternative Pathway C3/C5 Convertase
E. Loh, J. M. Hood, R. Riblet, M. Weigert, and L. Hood
M. D. Kazatchkine, D. T. Fearon, and K. F. Austen
M. A. Berman, H. L. Spiegelberg, and W. O. Weigle
G. M. K. Humphries and H. M. McConnell
P. C. Giclas, R. N. Pinckard, and M. S. Olson
J. Watson, L. A. Aarden, and I. Lefkovits
B. H. Barber and T. L. Delovitch
T. L. Delovitch, A. Fegelman, B. H. Barber, and J. A. Frelinger
K. Yagawa, K. Onoue, and Y. Aida

Comparisons of Myeloma Proteins from NZB and BALB/c Mice: Structural and Functional Differences of Heavy Chains
Human Alternative Complement Pathway: Membrane-Associated Sialic Acid Regulates the Competition between B and βH for Cell-Bound C36
Lymphocyte Stimulation with Fc Fragments. I. Class, Subclass, and Domain of Active Fragments
Potent Immunosuppression by Oxidized Cholesterol

Comparisons of Myeloma Proteins from NZB and BALB/c Mice: Structural and Functional Differences of Heavy Chains
Human Alternative Complement Pathway: Membrane-Associated Sialic Acid Regulates the Competition between B and βH for Cell-Bound C36
Lymphocyte Stimulation with Fc Fragments. I. Class, Subclass, and Domain of Active Fragments
Potent Immunosuppression by Oxidized Cholesterol

R. L. Bratcher
D. L. Kastner and R. R. Rich
J. H. Slack, M. Shapiro, and M. Potter
S. Kontiainen, S. Howie, P. H. Maurer, and M. Feldmann
T. G. Wegmann, B. Singh, and G. Carlson

High Responder Rabbits to SRBC, a Familial Incidence
H-2 Nonrestricted Cytotoxic Responses to an Antigen Encoded Telomeric to H-2D
Serum Expression of a VK Structure, VK-11, Associated with Insulin Antibodies Controlled by Gene(s) Linked to the Mouse IgCα Complex
Suppressor Cell Induction in Vitro. VI. Production of Suppressor Factors to Synthetic Polypeptides (T,G)-A--L from Cells of Responder and Nonresponder Mice
Allogeneic Placenta is a Paternal Strain Antigen Immunoabsorbent

R. L. Bratcher
D. L. Kastner and R. R. Rich
J. H. Slack, M. Shapiro, and M. Potter

Allogeneic Placenta is a Paternal Strain Antigen Immunoabsorbent

A. Novogrodsky, A. L. Rubin, and K. H. Stenzel
C. T. Olsen and A. E. Gabrielsen
D. A. Kennerly, T. J. Sullivan, and C. W. Parker
E. B. Giavedoni, Y. M. Chow, and A. P. Dalmasso
I. A. Ramshaw, M. Woodworth, and D. Eidinger
E. W. Rauterberg, B. Ungemach, and H.-J. Gebeut

Selective Suppression by Adherent Cells, Prostaglandin, and Cyclic AMP Analogues of Blasto genesis Induced by Different Mitogens
Early Complement Components in NZB/NZW Mice. I. The First Component
Activation of Phospholipid Metabolism during Mediator Release from Stimulated Rat Mast Cells
Slow Reacting Substances: Comparison of Some Properties of Human Lung SRS-A and Two Distinct Fractions from Ionophore-Induced Rat Mononuclear Cell SRS
The Functional Size of the Primary Complement Lesion in Resealed Erythrocyte Membrane Ghosts
The In Vitro Suppression of Spontaneous Erythrocyte Autoimmune Responses with Lymphocytes Activated with Concanavalin A
Quantitative Measurement of C9 Sites and Their Association to the Ringlike ‘‘Lesions’’ on Complement-Lysed Membranes: A Morphometric Immunoferritin Study
