CELLULAR IMMUNOLOGY

M. H. Dietz, M.-S. Sy, M. I. Greene, A. Nisonoff, B. Benacerraf, and R. N. Germain

J. T. C. Li and D. W. Scott

J. T. C. Li and D. W. Scott

C.-Y. Lawn and S. Leskowitz

H. A. Stafford and M. W. Fanger

E. L. Morgan and W. O. Weigle

R. Dziarski

R. Sasaki, F. J. Bollum, and I. Goldschneider

L. S. Manning and M. J. Permy

P. I. Nadler, R. J. Klingenstein, L. K. Richman, and G. B. Ahmann

A. Kunkl and G. G. B. Klaus

H. Wagner, C. Hardt, R. Bartlett, M. Rollinghoff, and K. Pfizenmaier

S. Gillis, M. Scheid, and J. Watson

D. Mochizuki, J. Watson, and S. Gillis

A. D. Befus, N. Johnston, G. A. Leslie, and J. Bienenstock

K. Takatsu, K. Tanaka, A. Tominaga, Y. Kumahara, and T. Hamacka

M. Sarmiento, A. L. Glasebrook, and F. W. Fitch

R. A. Kendall and S. Targan

L. Varesio, H. T. Holden, and D. Taramelli

2374 Antigen and Receptor-Driven Regulatory Mechanisms. VI. Demonstration of Cross-Reactive Idiotypic Determinants on Azobenzenearsonate-Specific Antigen-Binding Suppressor T Cells Producing Soluble Suppressor Factor(s)

2380 Role of Self Carriers in the Immune Response and Tolerance. VI. Induction and Reversal of TNP-Modified Self Unresponsiveness in Vitro

2385 Role of Self Carriers in the Immune Response and Tolerance. VII. Importance of H-2 Antigens in the in Vitro Induction of Tolerance and Suppression to Hapten-Modified Self

2416 Hapten-Specific T Cell Response to Azobenzenearsonate-N-Acetyl-L-Tyrosine in the Lewis Rat. I. Induction and Suppression of Delayed-Type Hypersensitivity and in Vitro Proliferative Responses

2461 Receptors for IgA on Rabbit Lymphocytes. I. Distribution, Specificity, and Modulation

2467 Polyclonal Activation of Murine B Lymphocytes by Fc Fragments. III. Characterization of the Defect in the Ability of the C3H/HeJ Mouse to Respond to Fc Fragments

2478 Polyclonal Activation of Immunoglobulin Secretion in B Lymphocytes Induced by Staphylococcal Peptidoglycan

2501 Transient Populations of Terminal Transferase Positive (TdT+) Cells in Juvenile Rats and Mice

2508 Cellular Determinants of Mammary Cell-Mediated Immunity in the Rat. I. The Migration of Radioisotopically Labeled T Lymphocytes

2520 The Murine Kupffer Cell. II. Accessory Cell Function in in Vitro Primary Antibody Responses, Mitogen-Induced Proliferation, and Stimulation of Mixed Lymphocyte Responses.

2526 Selective Effects of Cyclosporin A on Functional B Cell Subsets in the Mouse

2532 Intrathymic Differentiation of Cytotoxic T Lymphocyte (CTL) Precursors. I. The CTL Immunocompetence of Peanut Agglutinin-Positive (Cortical) and Negative (Medullary) Lyt 123 Thymocytes

2555 Thymoma Production of T Cell Growth Factor (Interleukin 2)

2570 Biochemical and Biologic Characterization of Lymphocyte Regulatory Molecules. III. The Isolation and Phenotypic Characterization of Interleukin-2 Producing T Cell Lymphomas

2579 Biochemical and Biologic Characterization of Lymphocyte Regulatory Molecules. IV. Purification of Interleukin 2 from a Murine T Cell Lymphoma

2586 Gut-Associated Lymphoid Tissue in the Chicken. I. Morphology, Ontogeny, and Some Functional Characteristics of Peyer’s Patches

2646 Antigen-Induced T Cell-Replacing Factor (TRF). III. Establishment of T Cell Hybrid Clone Continuously Producing TRF and Functional Analysis of Released TRF

2655 IgG or IgM Monoclonal Antibodies Reactive with Different Determinants on the Molecular Complex Bearing Lyt 2 Antigen Block T Cell-Mediated Cytolysis in the Absence of Complement

2665 The Dual Effect of Prostaglandin (PGE2) and Ethanol on the Natural Killer Cytolytic Process: Effector Activation and NK Cell-Target Cell Conjugate Lytic Inhibition

2770 Mechanism of Lymphocyte Activation. II. Requirements for Macromolecular Synthesis in the Production of Lymphokines
