Why The JI?
- Rapid Reviews! 30 days* from submission to initial decision
- No Triage! Every submission reviewed by practicing scientists
- Speedy Publication! 4 weeks from acceptance to publication

Subscription Information about subscribing to The Journal of Immunology is online at:

497 Antigen-Specific Human T Cell Factors. I. T Cell Helper Factor: Biologic Properties
503 Antigen-Specific Human T Cell Factors. II. T Cell Suppressor Factor: Biologic Properties
517 Human Helper T Cell Factor(s) (THF). I. Partial Purification and Characterization
529 Human B Cell Activation in Vitro. Augmentation and Suppression by Monocytes of the Immunoglobulin Production Induced by Various B Cell Stimulants
570 Release of Histamine from Human Leukocytes Stimulated with the Tumor-Promoting Phorbol Diesters. I. Characterization of the Response
575 Measurement of IgG Blocking Antibodies by Interference in the Radioallergosorbent Test
580 Suppression of Human T and B Lymphocyte Activation by Agaricus bisporus Lectin. I. Suggestive Evidence for a Surface “Suppressor” Receptor in Human Lymphocytes
666 MLC-Conditioned Media Stimulate an Increase in Fc Receptors on Human Macrophages
703 Capping of DNA on Phytohemagglutinin-Stimulated Human Lymphoblasts
706 Reactions between Polynucleotides and Low Density Lipoproteins in Sera of Patients with Progressive Systemic Sclerosis
729 Further Characterization of the Human Autologous Mixed Leukocyte Reaction (MLR)
781 Macrophage T Cell Interaction in Man: Binding of Antigen-Specific Human Proliferating and Helper T Cells to Antigen-Pulsed Macrophages

IMMUNOCHEMISTRY

G. S. Hahn and R. N. Hamburger
T. Kaidoh, S. Natsuume-Sakai, and M. Takahashi
R. H. Zuberl
E. Linder
F. D. Finkelman, S. W. Kessler, J. F. Mushiniski, and M. Potter
N. J. Dobson, J. D. Lambris, and G. D. Ross
M. K. Gately and E. Martz
R. J. Schneider, J. P. Atkinson, V. Krause, and A. Kulczycki, Jr.

Evolutionary Relationship of Thymopoietin to Immunoglobulins and Cellular Recognition Molecules
Murine C4-Binding Protein: A Rapid Purification Method by Affinity Chromatography
Epitope-Specific Antibody Feedback Regulation of the Humoral Immune Response against Sheep Erythrocytes in Vitro: Specific Effects of Anti-antigen Antibody vs Nonspecific T Cell Activities
Binding of C1q and Complement Activation by Vascular Endothelium
IgD-Secreting Murine Plasmacytomas: Identification and Partial Characterization of Two IgD Myeloma Proteins
Characteristics of Isolated Erythrocyte Complement Receptor Type One (CR1, C4b-C3b Receptor) and CR-1-Specific Antibodies
T11: A New Protein Marker on Activated Murine T Lymphocytes
Characterization of Ligand-Binding Activity of Isolated Murine Fc Receptor

IMMUNOGENETICS AND TRANSPLANTATION

A. J. Norin, E. E. Emeson, and F. J. Veith
J.-C. Cerottini and H. R. MacDonald
G. M. Shearer and R. P. Polisson
V. Quaranta, M. A. Pellegrino, and S. Ferrone
A. Guimezanes and A.-M. Schmitt-Verhulst
R. P. Bucy and J. A. Kapp

Long-Term Survival of Murine Allogeneic Bone Marrow Chimeras: Effect of Antilymphocyte Serum and Bone Marrow Dose
Limiting Dilution Analysis of Alloantigen-Reactive T Lymphocytes. V. Lyt Phenotype of Cytolytic T Lymphocyte Precursors Reactive against Normal and Mutant H-2 Antigens
Mutual Recognition of Parental and F1 Lymphocytes. III. Parental Determinants Recognized by F, Host Mice in Resistance to Graft-vs-Host-Associated Immunosuppression Map to H-2 F
Serologic and Immunochmical Characterization of the Specificity of Four Monoclonal Antibodies to Distinct Antigenic Determinants Expressed on Subpopulations of Human la-Like Antigens
I-Region-Restricted Long-Term Cultured T Cells with Helper Function for Thymic Cytotoxic Precursor Cells
Ir Gene Control of the Immune Response to Insulins. I. Pork Insulin Stimulates T Cell Activity in Nonresponder Mice

Continued on page 5
Anti-Recipient Cytotoxic T Lymphocyte Precursors are Present in the Spleens of Mice with Acute Graft versus Host Disease Due to Minor Histocompatibility Antigens

T Lymphocyte Characteristics in Bone Marrow-Transplanted Patients. I. Changes in Biochemical Properties That Correlate with the Immunologic Reconstitution

Variation in the Synthesis of Membrane Proteins of Human T Lymphocytes during Mitogenic Activation: Recognition of a 70,000 Dalton Protein with Anti-p23,30 Heteroantisem and a Novel 42,000 Dalton Protein with Anti-p44,12 Heteroantisem

Experimental Allergic Encephalomyelitis: Activation of Suppressor T Lymphocytes by a Modified Sequence of the T Effector Determinant

Interaction between Human Neutrophils and Zymosan Particles: The Role of Opsonins and Divalent Cations

Defective Fc-Mediated Phagocytosis in C3H/HeJ Macrophages. II. Correction by cAMP Agonists

Differential Effect of Aging on the Heterogeneity of the Immune Response to a T-Dependent Antigen in Systemic and Mucosal-Associated Lymphoid Tissues

Orientation of PMN in a pH Gradient: Acid-Induced Release of a Chemotactic Factor

Complement-Induced Degranulation of Human Basophils

Isolation of DNA from DNA/Anti-DNA Antibody Immune Complexes in Systemic Lupus Erythematosus

IgA in Human Bile and Liver

The Effects of Macrophage Depletion on the Clinical and Pathologic Expression of Experimental Allergic Encephalomyelitis

Requirement of T Cells for the Development of Spontaneous Autoimmune Thyroiditis in Obese Strain (OS) Chickens

An Abnormality of Immune Complex Kinetics in Murine Lupus

Fibronectin in Delayed-Type Hypersensitivity Skin Reactions: Associations with Vessel Permeability and Endothelial Cell Activation

Enhancement of the Chemotactic Activity of Human C5a Des Arg by an Anionic Polypeptide ("Cochemotaxin") in Normal Serum and Plasma

Macrophage-Mediated Tumor Cell Killing: Regulation of Expression of Cytolytic Activity by Prostaglandin E

Inhibition of Cytolytic T Lymphocyte Clones Reactive with Moloney Leukemia Virus-Associated Antigens by Monoclonal Antibodies: A Direct Approach to the Study of H-2 Restriction

Fate of a Common Acute Lymphoblastic Leukemia Antigen during Modulation by Monoclonal Antibody

Characterization of a Novel Human Pre-B Leukemia Cell Line

Separation and Characterization of Two Component Tumor Lines within the AKR Lymphoma, AKTA-1, by Fluorescence-Activated Cell Sorting and Flow Microfluorometry Analysis. I. The Coexistence of slg* and slg− Sublines

Cell Cycle Related Heterogeneity of la Antigen Expression on a Murine B Lymphoma Cell Line: Analysis by Flow Cytometry
Identification of Macrophage-Mediated Cytolytic Activity as a Tumor Suppressive Mechanism during Maintenance of the L5178Y-Tumor Dormant State in DBA/2 Mice

Mechanisms in T Cell Leukemogenesis. II. T Cell Responses of Preleukemic BALB/c Mice to Moloney Leukemia Virus Antigens

Inactivation of Natural Killer Cell Cytotoxic Activity after Interaction with Target Cells

VIRAL AND MICROBIAL IMMUNOLOGY

Inability of Mice to Generate Cytotoxic T Lymphocytes to Vesicular Stomatitis Virus Restricted to H-2K\(^\alpha\) or H-2D\(^\alpha\)

Peroxidase-Mediated Toxicity to Schistosomula of Schistosoma mansoni

Identification and Characterization of Protein Antigens of Leishmania tropica Isolates

Giardiasis in Mice: Studies on the Characteristics of Chronic Infection in C3H/He Mice

Analysis and Antigenic Activity of a Carbohydrate Fraction Derived from Adult Schistosoma mansoni
