J-P Kolb, G. Chaouat, and D. Chassoux

2244 Intraepithelial Lymphocytes Modulate la-Expression by Intestinal Epithelial Cells
2253 Role of Antigen-Specific B Cells in the Induction of SRBC-Specific T Cell Proliferation
2259 Interleukin 2 Administered In Vivo Induces the Growth of Cultured T Cells
2266 The Immunocompetence of Murine Stromal Cell-Associated Thymocytes
2273 Conversion of a Tolerogenic to an Immunogenic Signal by P388AD.2 Cells, A Lymphoid Dendritic Cell-Like Tumor Line
2279 IgG-Protein A Complexes Modulate Thymidine Incorporation into DNA of Antibody and Complement-Stimulated Cells
2285 Expression of the Transferrin Receptor in Murine Peritoneal Macrophages Is Modulated in the Different Stages of Activation
2291 Human Suppressor Cell Induction In Vitro: Preferential Activation by Class I MHC Antigen
2300 Natural Killer Cells Generated from Bone Marrow Culture
2305 Immunoactive Products of Placenta. IV. Suppression of Natural Killing Activity

J. M. Williams, R. Loertscher, T. Cotner, M. Reddish, H. M. Shapiro, C. B. Carpenter, J. L. Strominger, and T. B. Strom
A. Bernard, V. Gay-Bellile, M. Amiot, B. Caillou, P. Charbord, and L. Boumsell
C-F Calvo, L. Boumsell, J-P Kolb, B. Laffy, A. Bernard, and A. Senik
K. B. Elkon and L. Culhanen

2311 The Effect of Deoxyguanosine on Human Lymphocyte Function. I. Analysis of the Interference with Lymphocyte Proliferation In Vitro
2318 The Effect of Deoxyguanosine on Human Lymphocyte Function. II. Analysis of the Interference with B Lymphocyte Differentiation In Vitro
2324 Discordant Expression of Human la-Like Antigens on Hematopoietic Progenitor Cells
2330 Dual Parameter Flow Cytometric Analysis of DNA Content, Activation Antigen Expression, and T Cell Subset Proliferation in the Human Mixed Lymphocyte Reaction
2338 A Novel Human Leukocyte Differentiation Antigen: Monoclonal Antibody Anti-D44 Defines a 28 Kd Molecule Present on Immature Hematologic Cells and a Subpopulation of Mature T Cells
2345 Preferential Elimination of NK and CTL Functions by Anti-D44 Monoclonal Antibody
2350 Partial Immunochemical Characterization of the Ro and La Proteins Using Antibodies from Patients with the SICCA Syndrome and Lupus Erythematosus
2357 Suppression of Human Peripheral Bloody Lymphocytes by Fusobacterium nucleatum
2363 Characteristics of Human NK Clones: Target Specificity and Phenotype
2370 Monocyte and NK Cell Cytotoxic Activity in Human Adherent Cell Preparations: Discriminating Effects of Interferon and Lactoferrin
2375 Effect of Pregnancy on Augmentation of Natural Killer Cell Activity by Corynebacterium parvum and Toxoplasma gondii
2381 Anti-Idiotypic Antibodies in a Patient with Monoclonal Rheumatoid Factor after Pneumococcal Bacteremia
2386 Phenotypic and Functional Characterization of T Cell Clones Derived from the Cerebrospinal Fluid of Multiple Sclerosis Patients
Continued from page 4

R. A. Sobel, B. W. Blanchette, A. K. Bhan, and R. B. Colvin
2393 The Immunopathology of Experimental Allergic Encephalomyelitis. I. Quantitative Analysis of Inflammatory Cells In Situ

R. A. Sobel, B. W. Blanchette, A. K. Bhan, and R. B. Colvin
2402 The Immunopathology of Experimental Allergic Encephalomyelitis. II. Endothelial Cell la Increases prior to Inflammatory Cell Infiltration

F. P. Noonan, C. Bucana, D. N. Sauder, and E. C. De Fabo
2408 Mechanism of Systemic Immune Suppression by UV Irradiation In Vivo. II. The UV Effects on Number and Morphology of Epidermal Langerhans Cells and the UV-Induced Suppression of Contact Hypersensitivity Have Different Wavelength Dependencies

K. W. Wegmann and D. J. Hirn-richs
2417 Recipient Contributions to Serial Passive Transfer of Experimental Allergic Encephalomyelitis
