**Down Regulation of RNA Labeling as a Selective Marker for Cytotoxic but not Suppressor Macrophages**

**The Proliferating Cells in Autoimmune MLR/Ipr Mice Lack L3T4, an Antigen on “Helper” T Cells that Is Involved in the Response to Class II Major Histocompatibility Antigens**

**Recovery of Myelin Basic Protein Reactive T Cells from Spinal Cords of Lewis Rats with Autoimmune Encephalomyelitis**

**Enhanced Alveolar Macrophage la Antigen Expression after Asbestos Inhalation**

**Antigen-Stimulated Human B Cell Clones Are Committed to the Production of a Single Class of Antibody In Vitro**

**A Membrane Antigen (HCl) Selectively Present on Hairy Cell Leukemia Cells, Endothelial Cells, and Epidermal Basal Cells**

**Demonstration of Activation-Specific Interactions among B Lymphocyte Membrane Proteins by a Photoreactive Cross-Linking Agent**

**Anti-Idiotype Stimulation of Antigen-Specific Antigen-Independent Antibody Responses In Vitro. II. Triggering of B Lymphocytes by Idiotype Plus Anti-Idiotype in the Absence of T Lymphocytes**

**Expression and Regulation of Two Idiotype Families and Subsets within an Idiotype Family among BALB/c Antibodies against p-Azophenylarsonate**

**B Lymphocyte Precursors in Embryonic and Adult W Anemic Mice**

**A Population of Resting IgM-IgD Double-Bearing Lymphocytes in Peyer’s Patches: The Major Precursor Cells for IgA Plasma Cells in the Gut Lamina Propria**

**Generalized Systemic and Mucosal Immunity in Mice after Mucosal Stimulation with Cholera Toxin**

**Cell-Mediated Cytotoxicity against Allogeneic Mutant H-2 Antigens: Restricted and Nonrestricted Responses**

**Capacity of Different Cell Types to Stimulate Cytotoxic T Lymphocyte Precursor Cells in the Presence of Interleukin 2**

**Virus-Induced Enhancement of Lymphocyte-Mediated Antibody-Dependent Cytotoxicity (ADCC) In Vitro**

**Differential Recognition and Lysis of EL4 Target Cells by Cytotoxic T Cells: Differences in H-2K^b Antigenic Density and Cytoskeletal Proteins**

**A Rat Anti-Mouse T4 Monoclonal Antibody (H129.19) Inhibits the Proliferation of la-Reactive T Cell Clones and Delineates Two Phenotypically Distinct (T4^+, Lyt-2.3^- and T4^-, Lyt-2,3^+) Subsets among Anti-la Cytolytic T Cell Clones**

### CYTOKINES • MEDIATORS • REGULATORY MOLECULES

A. Kelso and A. L. Glasebrook
2924 Secretion of Interleukin 2, Macrophage-Activating Factor, Interferon, and Colony-Stimulating Factor by Alloreactive T Lymphocyte Clones

A. Kelso, H. R. MacDonald, K. A. Smith, J.-C. Cerottini, and K. T. Brunner
2932 Interleukin 2 Enhancement of Lymphokine Secretion by T Lymphocytes: Analysis of Established Clones and Primary Limiting Dilution Microcultures

H. Wakasugi, A. Harel, M. C. Dokhelar, D. Fradelizi, and T. Tursz
2939 Accessory Function and Interleukin 1 Production by Human Leukemic Cell Lines

K. Yoshizaki, T. Nakagawa, K. Fukunaga, L. T. Tseng, Y. Yamamura, and T. Kishimoto
2948 Isolation and Characterization of B Cell Differentiation Factor (BCDF) Secreted from a Human B Lymphoblastoid Cell Line

B. D.-M. Chen and H. Lin
2955 Colony-Stimulating Factor (CSF-1): Its Enhancement of Plasminogen Activator Production and Inhibition of Cell Growth in a Mouse Macrophage Cell Line

K. A. Clouse, F. H. Bach, and C. G. Orosz
2961 Detection of HSV-1-Induced Lymphokine Production in Human Cells by a Direct Indicator Cell Addition Assay

### IMMUNOCHEMISTRY

B. W. Elliott, Jr., and L. A. Steiner
2968 Amino- and Carboxy-Terminal Sequence of Mouse J Chain and Analysis of Tryptic Peptides

P. Farham
2975 Changes in Conformation with Loss of Alloantigenic Determinants of a Histocompatibility Antigen (HLA-B7) Induced by Monoclonal Antibodies

M. S. Krangel, D. Pious, and J. L. Strominger
2984 Characterization of a B Lymphoblastoid Cell Line Mutant that Secretes HLA-A2

2992 Immunologic Characterization and Molecular Profile of Carcinoembryonic Antigen Detected by Monoclonal Antibodies

2998 Immunohistochemical Distribution of the Antigenic Determinants Detected by Monoclonal Antibodies to Carcinoembryonic Antigen

Y. Wano, T. Uchiyama, K. Fukui, M. Maeda, H. Uchino, and J. Yodoi
3005 Characterization of Human Interleukin 2 Receptor (Tac Antigen) in Normal and Leukemic T Cells: Co-expression of Normal and Aberrant Receptors on Hut-102 Cells

3011 Glycoproteins of 210,000 and 130,000 M.W. on Activated T Cells: Cell Distribution and Antigenic Relation to Components on Resting Cells and T Cell Lines

D. E. Isenman and J. R. Young
3019 The Molecular Basis for the Difference in Immune Hemolysis Activity of the Chido and Rodgers Isotypes of Human Complement Component C4

R. M. Jack and D. T. Pearn
3028 Altered Surface Distribution of Both C3b Receptors and Fc Receptors on Neutrophils Induced by Anti-C3b Receptor or Aggregated IgG

### IMMUNOPHARMACOLOGY

J. D. Williams, J. K. Czop, and K. F. Austin
3034 Release of Leukotrienes by Human Monocytes on Stimulation of Their Phagocytic Receptor for Particulate Activators

J. Palmblad, H. Gyllenhammar, J. A. Lindgren, and C. L. Malmsten
3041 Effects of Leukotrienes and f-Met-Leu-Phe on Oxidative Metabolism of Neutrophils and Eosinophils

D. E. Van Epps and L. Saldan
3046 β-Endorphin and Met-Enkephalin Stimulate Human Peripheral Blood Mononuclear Cell Chemotaxis

D. E. Griswold, S. Alessi, A. M. Badger, G. Poste, and N. Hanna
3054 Inhibition of T Suppressor Cell Expression by Histamine Type 2 (H2) Receptor Antagonists

Continued on page 6
Inhibition of the Function of Activated Properdin by Squid Chondroitin Sulfate E Glycosaminoglycan and Murine Bone Marrow-Derived Mast Cell Chondroitin Sulfate E Proteoglycan

Uptake and Nature of the Intracellular Binding of Cyclosporin A in a Murine Thymoma Cell Line, BW5147

Effects of Deoxycoformycin in Mice. I. Suppression and Enhancement of In Vivo Antibody Responses to Thymus-Dependent and -Independent Antigens

Effects of Deoxycoformycin in Mice. II. Differences between the Drug Sensitivities and Purine Metabolizing Enzymes of Transplantable Lymphomas of Varying Immunologic Phenotypes

Microbial Immunology

In Situ Identification of Cells in Human Leprosy Granulomas with Monoclonal Antibodies to Interleukin 2 and Its Receptor

Streptococcal Fc Receptors. I. Isolation and Partial Characterization of the Receptor from a Group C Streptococcus

Streptococcal Fc Receptors. II. Comparison of the Reactivity of a Receptor from a Group C Streptococcus with Staphylococcal Protein A

Characteristics of Amplifier T Cells Involved in the Antibody Response to the Capsular Polysaccharide of Type III Streptococcus pneumoniae

The Role of Lipopolysaccharides in the Action of the Bactericidal/Permeability-Increasing Neutrophil Protein on the Bacterial Envelope

Treatment of Experimental Visceral Leishmaniasis with Lymphokine Encapsulated in Liposomes

Intracellular Destruction of Leishmania donovani and Leishmania tropica Amastigotes by Activated Macrophages: Dissociation of these Microbicidal Effector Activities In Vitro

Analysis of mRNA Coding for Blood-Stage Antigens of a Rodent Malarial Parasite, Plasmodium yoelii: mRNA Coding for a Possible Protective Antigen Purify as Poly A

Passive Immunization against Murine Malaria with an IgG3 Monoclonal Antibody

Stage-Specific and Common Antigens of Brugia malayi Identified with Monoclonal Antibodies

Fibroblast Stimulation in Schistosomiasis. V. Egg Granuloma Macrophages Spontaneously Secrete a Fibroblast-Stimulating Factor

Quantitative Differences in the Expression of a 72,000 Molecular Weight Cell Surface Glycoprotein (GP72) in Trypanosoma cruzi Zymodemes

Large Granular Lymphocytes Provide an Accessory Function in the In Vitro Development of Infumia A Virus-Specific Cytotoxic T Cells

Antiviral Activity of a Thymic Factor in Experimental Viral Infections. I. Thymic Hormonal Effect on Survival, Interferon Production and NK Cell Activity in Mengo Virus-Infected Mice

Molecular Genetics

Use of J_{a4} Joining Segment Gene by an Anti-Arsonate Antibody that Bears the Major A-Strain Cross-Reactive Idiotype but Displays Diminished Antigen Binding
