Contents

COMMUNICATIONS

R. C. Giles, C. K. Hurley, and J. D. Capra 1 Primary Structural Variation among Serologically Indistinguishable DS Antigens: The MB3-Bearing Molecule in DR4 Cells Differs from the MB3-Bearing Molecule in DR5 Cells

E. S. Kleinerman and R. B. Herman 4 Tumoricidal Activity of Human Monocytes: Evidence for Cytolytic Function Distinct from that of NK Cells

Z. K. Balsa 7 The Use of 5-Azacytidine to Establish Constitutive Interleukin 2-Producing Clones of the EL4 Thymoma

CELLULAR IMMUNOLOGY

J. A. Harp, B. S. Davis, and S. J. Ewald 10 Inhibition of T Cell Responses to Alloantigens and Polyclonal Mitogens by Ly-5 Antisera

L. L. Perry, I. R. Williams, and S. DiRusso 16 Suppressor T Cell Recognition of Major and Minor Histocompatibility Alloantigens: Selected Suppression of MHC-Directed Responses by Minor Alloantigen T

M. J. Stukart, J. Boes, and C. J. M. Melief 24 Recognition of H2-Kb Mutant Target Cells by Moloney Virus-Specific Cytotoxic T Lymphocytes from bm13 (H-2Db-Mutant) Mice. I. Full Recognition of Kbm11 by Kb-Restricted CTL

M. J. Stukart, J. Boes, and C. J. M. Melief 28 Recognition of H-2Kb Mutant Target Cells by Moloney Virus-Specific Cytotoxic T Lymphocytes from bm13 (H-2Db-Mutant) Mice. II. Relationship of Kbm9 and Kbm11 in Restriction Specificities and Allodeterminants

A. A. Czitrom, N. R. J. Gascoigne, S. Edwards, and D. J. Waterfield 33 Induction of Minor Alloantigen-Specific T Cell Subsets In Vivo: Recognition of Processed Antigen by Helper but not by Cytotoxic T Cell Precursors

D. T. Harris and R. P. Sekaly 40 Target Cell Susceptibility to Immune Lysis and Expression of MHC Antigens Are Independent of Position in the Cell Cycle

C. Caruana, S. T. Ishizaka, and O. Stutman 45 Early Loss of Precursors of CTL and IL 2-Producing Cells in the Development of Neonatal Tolerance to Alloantigens

M. D. Minkowski, M. Castellazzi, and G. Buttin 52 Lack of Adenosine Deaminase Activity in Cultured Murine Cytotoxic T Lymphocytes

H. von Boehmer, P. Kisielow, W. Leiserson, and W. Haas 59 Lyt-2-T Cell-Independent Functions of Lyt-2+ Cells Stimulated with Antigen or Concanavalin A

M. Adachi, J. Yodoi, N. Noro, T. Masuda, and H. Uchino 65 Murine IgA Binding Factors Produced by FcaR (+) T Cells: Role of FCyR (+) Cells for the Induction of FcaR and Formation of IgA-Binding Factor in Con A-Activated Cells

R. L. Deem and S. R. Targan 72 Evidence of a Dynamic Role of the Target Cell Membrane during the Early Stages of the Natural Killer Cell Lethal Hit

A. Finnegan, B. Needleman, and R. J. Hodes 78 Activation of B Cells by Autoreactive T Cells: Cloned Autoreactive T Cells Activate B Cells by Two Distinct Pathways

D. G. Osmond, F. Melchers, and C. J. Paige 86 Pre-B Cells in Mouse Bone Marrow: In Vitro Maturation of Peanut Agglutinin Binding B Lymphocyte Precursors Separated from Bone Marrow by Fluorescence-Activated Cell Sorting

M. Fultz, F. D. Finkelman, and J. J. Mond 91 In Vivo Administration of Anti-I-A Antibody Induces the Internalization of B Cell Surface I-A and I-E without Affecting the Expression of Surface Immunoglobulin

Continued on page 4
Continued from page 3

A. G. Farr and C. L. Sidman
H. W. Virgin IV and E. R. Unanue
B. A. Braaten, G. J. Spangrude, and R. A. Daynes

98 Reduced Expression of Ia Antigens by Thymic Epithelial Cells of Aged Mice

H. W. Virgin IV and E. R. Unanue

104 Suppression of the immune Response to Listeria monocytogenes. I. Immune Complexes Inhibit Resistance

110 Estrogen Immunosuppression Is Regulated through Estrogenic Responses in the Thymus

B. A. Braaten, G. J. Spangrude, and R. A. Daynes

117 Molecular Mechanisms of Lymphocyte Extravasation. II. Studies of In Vitro Lymphocyte Adherence to High Endothelial Venules

CLINICAL IMMUNOLOGY • IMMUNOPATHOLOGY

A. Weiss, R. L. Wiskocil, and J. D. Stobo

123 The Role of Tc Surface Molecules in the Activation of Human T Cells: A Two-Stimulus Requirement for IL 2 Production Reflects Events Occurring at a Pre-translational Level

J. P. Van Wauwe, J. G. Goossens, and P. C. L. Beverley

129 Human T Lymphocyte Activation by Monoclonal Antibodies: OKT3, but not UCHT1, Triggers Mitogenesis Via an Interleukin 2-Dependent Mechanism

133 A Human Alloreactive Inducer T Cell Clone that Selectively Activates Antigen-Specific Suppressor T Cells

J. A. Brieva and R. H. Stevens

137 Specific Inhibition of In Vitro Lymphocyte Transformation by an Anti-Pan T Cell (gp67) Ricin A Chain Immunotoxin

R. L. Looney and G. N. Abraham

147 Human In Vivo Antigen-Induced Lymphoblastoid B Cells Are Capable of Cyclical Antibody Production In Vitro

154 The Fc Portion of Intact IgG Blocks Stimulation of Human PBMC by Anti-T3

G. P. G. Miller and J. Puck

157 Antigenic Analysis of Hematopoiesis. III. A Hematopoietic Progenitor Cell Surface Antigen Defined by a Monoclonal Antibody Raised against KG-1a Cells

E. M. Schneider, G. P. Pawelec, S. LiangRu, and P. Wernet

166 In Vitro Human Lymphocyte Responses to Cryptococcus neoformans: Evidence for Primary and Secondary Responses in Normals and Infected Subjects

173 A Novel Type of Human T Cell Clone with Highly Potent Natural Killer-Like Cytotoxicity Divorced from Large Granular Lymphocyte Morphology

M. Zouali, J.-M. Fine, and A. Eyquem

180 The Fc Receptor for IgG on Human Natural Killer Cells: Phenotypic, Functional, and Comparative Studies with Monoclonal Antibodies

185 A Human Monoclonal IgG1 with Anti-Idiotypic Activity against Anti-Human Thyroglobulin Autoantibody

190 T Cell Responses to the Major Allergen from the House Dust Mite Derma- tophagoides pteronyssinus. Antigen P1: Comparison of Patients with Asthma, Atopic Dermatitis, and Perennial Rhinitis

F. M. Orson, V. De Seau, S. Pike, and R. M. Blaese

202 Mononuclear Cell-Mediated Enhancement of Granulocyte Function in Man

L. J. Compton, A. D. Steinberg, and H. Sano

208 Glucocorticosteroids Stimulate Polyclonal Immunoglobulin Production by Cord Blood Mononuclear Cells

213 Nuclear DNA Degradation in Lymphocytes of Patients with Systemic Lupus Erythematosus

M. E. Gershwin, D. R. Lentz, R. S. Beach, and L. S. Hurley

217 Characterization of Sequential Immune Complexes in Infective Endocarditis by Western Blot Analysis
