C. E. Grossi, A. Velardi, and M. D. Cooper

2237 Role of the L3T4 Antigen in T Cell Activation. II. Inhibition of T Cell Activation by Monoclonal Anti-L3T4 Antibodies in the Absence of Accessory Cells

2243 Activation Requirements of Cloned Inducer T Cells. I. Differential Inhibition by Anti-L3T4 or Anti-I-A is Determined by the Accessory Cell Population

2249 The Events of Primary T Cell Activation Can Be Staged by Use of Sepharose-Bound Anti-T3 (64.1) Monoclonal Antibody and Purified Interleukin 1

2256 Antigen-Specific T Cell Activation Results in an Increase in Cytoplasmic Free Calcium

2262 Calcium Ionophore Plus Phorbol Ester Can Substitute for Antigen in the Induction of Cytotytic T Lymphocytes from Specifically Primed Precursors

2268 Regulatory Role of a Monomorphic Determinant of HLA Class I Antigens in T Cell Proliferation

2274 Presentation of Class I Antigens on T Cells Can Induce the Generation of Antigen-Specific CTL

2279 The Effects of 1,25-Dihydroxyvitamin D3 on Human T Lymphocyte Activation and Proliferation: A Cell Cycle Analysis

2287 Retrovirus-Induced Changes in Major Histocompatibility Complex Antigen Expression Influence Susceptibility to Lysis by Cytotoxic T Lymphocytes

2293 Physiology of IgD. V. Enhancement of Antibody Responses In Vivo by Anti-IgD Is Due Primarily to an Indirect Effect on B Cells

2299 B Lymphocyte Production in the Bone Marrow of Mice with X-Linked Immunodeficiency (xld)

2303 Postnatal Liver Hemopoiesis in Mice: Generation of pre-B Cells, Granulocytes, and Erythrocytes in Discrete Colonies

Announcement of Changes in Publishing Schedule and Rates for The Journal of Immunology

As of January 1, 1986, the following changes will become effective:

The Journal of Immunology will publish twice each month, with 12 issues per volume and two volumes per year.

Subscriptions for domestic members of the American Association of Immunologists will be $75 per year; for foreign members, $75 per year plus postal charges of $55. Nonmember subscriptions for U.S. institutions will be $170 per year; foreign institutions, $170 plus postal charges of $55. Nonmember personal subscriptions will be $150 per year; nonmember personal foreign subscriptions will be $150 per year plus postal charges of $55.

Subscriptions for domestic students will be $36 per year; for foreign students, $36 per year plus postal charges of $55.

Single copies will be $8 each. Foreign postage will be an additional $3 per single copy.

Page charges to authors will be $66 per page.

W. Ptak, M. Bereta, M. Ptak, G. M. Iverson, and D. R. Green
M.-P. Schutze, C. Leclerc, M. Jolivet, F. Audibert, and L. Chedid
W. J. Wallis, P. G. Beatty, H. D. Ochs, and J. M. Harlan

2312 Suppression and Contrasuppression in the Induction of Contact Sensitivity by the Administration of Cell-Bound Antigen-Antibody Complexes

2319 Carrier-Induced Epitopic Suppression, A Major Issue for Future Synthetic Vaccines

2323 Human Monocyte Adherence to Cultured Vascular Endothelium: Monoclonal Antibody-Defined Mechanisms

J. A. Ledbetter, P. J. Martin, C. E. Spooner, D. Wofsy, T. T. Tsu, P. G. Beatty, and P. Gladstone

W. E. J. Weber, W. A. Buerman, M. M. P. Vandermeeren, and J. C. M. Raus

N. Isakov, R. C. Bleackley, J. Shaw, and A. Altman

H. Seki, Y. Ueno, K. Taga, A. Matsuda, T. Miyawaki, and N. Taniguchi

J. L. Nelson, F. A. Nardella, and M. Mannik

P. Áman, J. Gordon, N. Lewin, M. Nordström, B. Ehlin-Henriksson, G. Klein, and A. Carlstensson

R. M. Lavker and N. M. Scheckter

J. Rauch, H. Massicotte, and H. Tannenbaum

R. Hohlfeld, B. Conti-Tronconi, I. Kalies, J. Bertrams, and K. V. Toyka

J. D. Mountz, J. F. Mushinski, H. R. Smith, D. M. Klinman, and A. D. Steinberg

J. L. Davignon, R. C. Budd, R. Ceredig, P. F. Piguet, H. R. MacDonald, J. C. Cerottini, P. Vassalli, and S. Izui

R. Raghu Nathan, T. M. Mundy, J. Faust, and S. Misra

K. L. McCoy, P. J. Baker, P. W. Stashak, and T. M. Chused

2331 Antibodies to Tp67 and Tp44 Augment and Sustain Proliferation Responses of Activated T Cells

2337 Activation through CD3 Molecule Leads to Clonal Expansion of all Human Peripheral Blood T Lymphocytes: Functional Analysis of Clonally Expanded Cells

2343 The Tumor Promoter Telecoidin Induces IL 2 Receptor Expression and IL 2-Independent Proliferation of Human Peripheral Blood T Cells

2351 Mode of In Vitro Augmentation of Natural Killer Cell Activity by Recombinant Human Interleukin 2: A Comparative Study of Leu-11+ and Leu-11- Cell Populations in Cord Blood and Adult Peripheral Blood

2357 Competition between Antigen and Anti-Idiotypes for Rheumatoid Factors

2362 Surface Marker Characterization of EBV Target Cells in Normal Blood and Tonsil B Lymphocyte Populations

2368 Cutaneous Mast Cell Depletion Results from Topical Corticosteroid Usage

2374 Activation of Tissue Macrophages from AIDS Patients: In Vitro Response of AIDS Alveolar Macrophages to Lymphokines and Interferon-γ

2378 Identification of Ribosomal Protein Autoantigens

2385 Specific and Shared Idiotypes Found on Hybridoma Anti-DNA Autoantibodies Derived from Rheumatoid Arthritis and Systemic Lupus Erythematosus Patients

2393 Genetic Restriction of Autoreactive Acetylcholine Receptor-Specific T Lymphocytes in Myasthenia Gravis

2400 Characterization of Antigens and Antibody Specificities Involved in Heymann Nephritis

2409 Antibody-Induced Redistribution of Heymann Antigen on the Surface of Cultured Glomerular Visceral Epithelial Cells: Possible Role in the Pathogenesis of Heymann Glomerulonephritis

2417 Modulation of c-myb Transcription in Autoimmune Disease by Cyclophosphamide

2423 Functional Analysis of T Cell Subsets from Mice Bearing the Ipr Gene

2429 Allogeneic Leukocyte and Germ Cell-Induced Murine Immunodeficiency

2431 Enlargement of Lyt-2-Positive T Cells Is Associated with Functional Impairment and Autoimmune Hemolytic Anemia in New Zealand Black Mice

2438 Two Defects in Old New Zealand Black Mice Are Involved in the Loss of Low-Dose Paralysis to Type III Pneumococcal Polysaccharide
