Why The JI?

- Rapid Reviews! 30 days* from submission to initial decision
- No Triage! Every submission reviewed by practicing scientists
- Speedy Publication! 4 weeks from acceptance to publication

Subscription
Information about subscribing to The Journal of Immunology is online at:

The Journal of Immunology is published twice each month by
The American Association of Immunologists, Inc.,
1451 Rockville Pike, Suite 650, Rockville, MD 20852
All rights reserved.
Print ISSN: 0022-1767 Online ISSN: 1550-6606.
Contents

CELLULAR IMMUNOLOGY

P. Wassmer, C. Chan, L. Logdberg, and E. M. Shevach

R. DeKruyff, C. Clayberger, H. Cantor, and M. E. Dorf

J. M. Williams, D. DeLoria, J. A. Hansen, C. A. Dinarello, R. Loertscher, H. M. Shapiro, and T. B. Strom

D. N. Shapiro, B. S. Adams, and J. E. Niederhuber

A. Truneh, F. Albert, P. Golstein, and A.-M. Schmitt-Venhulst

M. C. Turco, M. DeFelice, L. Corbo, G. Morrone, R. Metelmann, S. Ferrone, and S. Venuta

K. S. Zier and A. R. Pickard

W. F. C. Rigby, R. J. Noelle, K. Krause, and M. W. Fanger

D. C. Fryer, S. J. Burakoff, and D. V. Faller

G. K. Reid and D. G. Osmond

C. E. Grossi, A. Velardi, and M. D. Cooper

Role of the L3T4 Antigen in T Cell Activation. II. Inhibition of T Cell Activation by Monocloal Anti-L3T4 Antibodies in the Absence of Accessory Cells

Activation Requirements of Cloned Inducer T Cells. I. Differential Inhibition by Anti-L3T4 or Anti-I-A is Determined by the Accessory Cell Population

The Events of Primary T Cell Activation Can Be Staged by Use of Sepharose-Bound Anti-T3 (64.1) Monoclonal Antibody and Purified Interleukin 1

Antigen-Specific T Cell Activation Results in an Increase in Cytoplasmic Free Calcium

Calcium Ionophore Plus Phorbol Ester Can Substitute for Antigen in the Induction of Cytotytic Lymphocytes from Specifically Primed Precursors

Regulatory Role of a Monomorphic Determinant of HLA Class I Antigens in T Cell Proliferation

Presentation of Class I Antigens on T Cells Can Induce the Generation of Antigen-Specific CTL

The Effects of 1,25-Dihydroxyvitamin D3 on Human T Lymphocyte Activation and Proliferation: A Cell Cycle Analysis

Retrovirus-Induced Changes in Major Histocompatibility Complex Antigen Expression Influence Susceptibility to Lysis by Cytotoxic T Lymphocytes

Physiology of IgD. V. Enhancement of Antibody Responses In Vivo by Allo Anti-IgD Is Due Primarily to an Indirect Effect on B Cells

B Lymphocyte Production in the Bone Marrow of Mice with X-Linked Immunodeficiency (xld)

Postnatal Liver Hemopoiesis in Mice: Generation of pre-B Cells, Granulocytes, and Erythrocytes in Discrete Colonies

Announcement of Changes in Publishing

Schedule and Rates for The Journal of Immunology

As of January 1, 1986, the following changes will become effective:

The Journal of Immunology will publish twice each month, with 12 issues per volume and two volumes per year.

Subscriptions for domestic members of the American Association of Immunologists will be $75 per year; for foreign members, $75 per year plus postal charges of $55. Nonmember subscriptions for U.S. institutions will be $170 per year; foreign institutions, $170 plus postal charges of $55. Nonmember personal subscriptions will be $150 per year; nonmember personal foreign subscriptions will be $150 per year plus postal charges of $55.

Subscriptions for domestic students will be $36 per year; for foreign students, $36 per year plus postal charges of $55.

Single copies will be $8 each. Foreign postage will be an additional $3 per single copy.

Page charges to authors will be $66 per page.

THE JOURNAL OF IMMUNOLOGY (ISSN 0022-1767) is published bimonthly by The American Association of Immunologists, 3770 Tansy Street, San Diego, CA 92121. Second class postage paid at Baltimore, MD and at additional mailing offices. POSTMASTER: Send address changes (Form 3579) to The Journal of Immunology, 428 E. Preston St., Baltimore, MD 21202. Indexed by Current Contents and Index Medicus. Subscription rates: institutions $150 ($205 foreign); students $36 ($91 foreign); single copy $8 ($11 foreign). Copyright © 1985 by The American Association of Immunologists.

**IMMUNOCHEMISTRY**

A. Rinfret, C. Horne, K. J. Dorrington, and M. Klein  
2574 Noncovalent Association of Heavy and Light Chains of Human Immunoglobulins. IV. The Roles of the C\textsubscript{H}1 and C\textsubscript{H}2 Domains in Idiotypic Expression

T. V. Tittle, A. Mawle, and M. Cohn  
2582 Immunogenicity of a Synthetic Glucosyl-a(1,3)-Glucosyl Protein Conjugate

B. Åkerström, T. Brodin, K. Reis, and L. Björck  
2589 Protein G: A Powerful Tool for Binding and Detection of Monoclonal and Polyclonal Antibodies

G. Burdick and W. Emlen  
2593 Effect of Antibody Excess on the Size, Stoichiometry, and DNAse Resistance of DNA anti-DNA Immune Complexes

R. H. Schwartz, B. S. Fox, E. Fraga, C. Chen, and B. Singh  
2598 The T Lymphocyte Response to Cytochrome c. V. Determination of the Minimal Peptide Size Required for Stimulation of T Cell Clones and Assessment of the Contribution of Each Residue Beyond This Size to Antigenic Potency

F. R. Carbone and Y. Paterson  
2609 Monoclonal Antibodies to Horse Cytochrome c Expressing Four Distinct Idiotypes Distribute among Two Sites on the Native Protein

J. M. Boggs, G. A. Hashim, E. D. Day, and M. A. Moscarello  
2617 Lipid-Induced Recognition of a Conformational Determinant (Residues 65-83) in Myelin Basic Protein

K. Ogata, Y. Ogata, R. M. Nakamura, and E. M. Tan  
2623 Purification and N-Terminal Amino Acid Sequence of Proliferating Cell Nuclear Antigen (PCNA)/Cyclin and Development of ELISA for Anti-PCNA Antibodies

I. Berkower, H. Kawamura, L. A. Matis, and J. A. Berzofsky  
2628 T Cell Clones to Two Major T Cell Epitopes of Myoglobin: Effect of I-A/I-E Restriction on Epitope Dominance

W. H. Mark, S. Kimura, and U. Hamerling  
2635 Biochemical Characterization of Murine Lymphoid Alloantigen Ly-m20.2, a Cell Surface Marker Controlled by a Gene Linked to the Mls Locus

R. W. Karr, L. K. Lipman, C. Alber, F. Koning, and N. E. Goeken  
2642 Ia Molecular Localization of the DRw52 Allodeterminant and the DRw52-like Determinants Defined by Monoclonal Antibodies

B. Seligmann, H. L. Malech, D. A. Melnick, and J. I. Gallin  
2647 An Antibody Binding to Human Neutrophils Demonstrates Antigenic Heterogeneity Detected Early in Myeloid Maturation which Correlates with Functional Heterogeneity of Mature Neutrophils

L. H. Peterson and D. H. Conrad  
2654 Fine Specificity, Structure, and Proteolytic Susceptibility of the Human Lymphocyte Receptor For IgE

T. Seya, V. M. Holers, and J. P. Atkinson  
2661 Purification and Functional Analysis of the Polymorphic Variants of the C3b/C4b Receptor (CR1) and Comparison with H, C4b-Binding Protein (C4bp), and Decay Accelerating Factor (DAF)

R. Rothlein and T. A. Springer  
2668 Complement Receptor Type Three-Dependent Degradation of Opsonized Erythrocytes by Mouse Macrophages

L. F. Fries, G. M. Prince, T. A. Gaither, and M. M. Frank  
2673 Factor I Co-factor Activity of CR, Overcomes the Protective Effect of IgG on Covalently Bound C3b Residues

2680 Fibronectin-Enhanced Phagocytosis of an Alternative Pathway Activator by Human Culture-Derived Macrophages Is Mediated by the C4b/C3b Complement Receptor (CR1)

M. Reyes, J. P. Aubert, J. H. M. Cohen, J. Audouin, V. Tricotet, J. Diebold, and M. D. Kazatchkine  
2687 Human Follicular Dendritic Cells Express CR1, CR2, and CR3 Complement Receptor Antigens

T. Kovacsovics, J. Tschopp, A. Kress, and H. Isliger  
2695 Antibody- Independent Activation of C1, the First Component of Complement, By Cardiolipin

M. B. Goldman, D. S. Becker, K. S. O'Rourke, and J. N. Goldman  
2701 Enhancement by Cyclic AMP of Antibody-Induced Suppression of the Fourth Component of Complement

**IMMUNOPHARMACOLOGY**

E. J. Goetzl, T. Chernov-Rogan, M. P. Cooke, F. Renold, and D. G. Payan  
2707 Endogenous Somatostatin-Like Peptides of Rat Basophilic Leukemia Cells

D. G. Sawutz, D. Sylvestre, and C. J. Homcy  
2713 Characterization of Monoclonal Antibodies to the β-Adrenergic Antagonist Alprenolol as Models of the Receptor Binding Site

J. L. Robin, D. C. Seldin, K. F. Austen, and R. A. Lewis  
2719 Regulation of Mediator Release from Mouse Bone Marrow-Derived Mast Cells by Glucocorticoids
