CELLULAR IMMUNOLOGY

T. L. Rothstein .................................................. 749
Stimulation of Normal but not xid-Defective B Cells by Calcium Ionophore and Cytochalasin

S. H. Gromkowski, T. C. Brown, P. A. Cerutti, and J.-C. Cerottini .................................................. 752
DNA of Human Raji Target Cells Is Damaged upon Lymphocyte-Mediated Lysis

J. D. Ashwell, B. S. Fox, and R. H. Schwartz .................................................. 757
Functional Analysis of the Interaction of the Antigen-Specific T Cell Receptor with Its Ligands

J. T. Hom, J. M. Stuart, and J. M. Chiller .................................................. 769
Murine T Cells Reactive to Type II Collagen. I. Isolation of Lines and Clones and Characterization of Their Antigen-Induced Proliferative Responses

J. T. Hom, J. M. Stuart, J. Tovey, and J. M. Chiller .................................................. 776
Murine T Cells Reactive to Type II Collagen. II. Functional Characterization

M. R. Jadus and R. Parkman .................................................. 783
The Selective Growth of Murine Newborn-Derived Suppressor Cells and Their Probable Mode of Action

A. Finnegan and R. J. Hodes .................................................. 793
Antigen-Induced T Suppressor Cells Regulate the Autoreactive T Helper-B Cell Interaction

M. T. Lopez, C. M. Sorensen, J. A. Kapp, and C. W. Pierce .................................................. 798
Cellular Interactions of l-Glutamic Acid-30-l-Alanine-30-l-Tyrosine (GAT)-Specific Suppressor Factors. I. Inhibition of the Activity of GAT-Specific Helper T Cell Clones by Monoclonal GAT-Specific Suppressor T Cell Factors

J. P. Lake, J. A. Kapp, and C. W. Pierce .................................................. 805
Genetic Restrictions in the Development of Antibody Responses to l-Glutamic Acid-30-l-Alanine-30-l-Tyrosine by Nude Mice Implanted with Semiallogeneic Thymus Glands

T. L. Rothstein .................................................. 813
Stimulation of B Cells by Sequential Addition of Anti-Immunoglobulin Antibody and Cytochalasin

E. A. Goldings .................................................. 817
Regulation of B Cell Tolerance by Macrophage-Derived Mediators: Antagonistic Effects of Prostaglandin E2 and Interleukin 1

T Cell Development in B Cell-Deficient Mice. IV. The Role of B Cells as Antigen-Presenting Cells In Vivo

W. Aberer, A. M. Kruisbeek, S. Shimada, and S. I. Katz .................................................. 830
In Vivo Treatment with Anti-I-A Antibodies: Differential Effects on la Antigens and Antigen-Presenting Cell Function of Spleen Cells and Epidermal Langerhans Cells

M. Baccarini, F. Bistoni, and M.-L. Lohmann-Matthes .................................................. 837
Organ-Associated Macrophage Precursor Activity: Isolation of Candidacidal and Tumoricidal Effectors from the Spleens of Cyclophosphamide-Treated Mice

D. S. Finbloom .................................................. 844
Subcellular Characterization of the Endocytosis of Small Oligomers of Mouse Immunoglobulin G in Murine Macrophages

CLINICAL IMMUNOLOGY • IMMUNOPATHOLOGY

Differences between Basophils and Mast Cells: Failure to Detect Charcot-Leyden Crystal Protein (Lysophospholipase) and Eosinophil Granule Major Basic Protein in Human Mast Cells

B. A. Woda, A. A. Like, C. Padden, and M. L. McFadden .................................................. 856
Deficiency of Phenotypic Cytotoxic-Suppressor T Lymphocytes in the BB/W Rat

D. A. Bass, P. Obbrantz, P. Szejda, M. C. Seeds, and C. E. McCall .................................................. 860
Subpopulations of Neutrophils with Increased Oxidative Product Formation in Blood of Patients with Infection

Continued on page 4
Continued from page 3

L. A. Rheins and J. J. Nordlund

L. R. Ellingsworth, F. DeLustro, J. E. Brennan, S. Sawamura, and J. McPherson

Y. Fujii, J. Hashimoto, Y. Monden, T. Ito, K. Nakahara, and Y. Kawashima

S. Hoch and J. Schwaber

R. D. Granstein, C. Goulston, and G. N. Gaulton

C. J. Kelly, M. D. Clayman, and E. G. Neilson

R. Mann and E. G. Neilson

T. Katagiri, H. Tomiyama, and K. Kano

R. J. Clatch, H. L. Lipton, and S. D. Miller

Moilation of the Population Density of Identifiable Epidermal Langerhans Cells Associated with Enhancement or Suppression of Cutaneous Immune Reactivity

The Human Immune Response to Reconstituted Bovine Collagen

In Situ and In Vitro Characterization of the Cellular Immune Response in Erythema Nodosum Leprosum

Specific Activation of Lymphocytes against Acetylcholine Receptor in the Thymus in Myasthenia Gravis

Specificity Analysis of Human Anti-DNA Antibodies

Prolongation of Murine Skin Allograft Survival by Immunologic Manipulation with Anti-Interleukin 2 Receptor Antibody

Immunoregulation in Experimental Interstitial Nephritis: Immunization with Renal Tubular Antigen in Incomplete Freund's Adjuvant Induces Major Histocompatibility Complex-Restricted OX8+ Suppressor T Cells Which Are Antigen-Specific and Which Inhibit the Expression of Disease-Related Interstitial Nephritis. V. The Auto-Induction of Antigen-Specific Lyt-2+ Suppressor T Cells Diminishes the Expression of Interstitial Nephritis in Mice with Antitubular Basement Membrane Disease

Paul-Bunnell Antigen in Murine T Cell Differentiation: Abnormal Expression in MRL/Mp-1pr/lpr Mice

Characterization of Theller's Murine Encephalomyelitis Virus (TMEV)-Specific Delayed-Type Hypersensitivity Responses in TMEV-Induced Demyelinating Disease: Correlation with Clinical Signs

T Cell Lines Mediating Experimental Autoimmune Uveoretinitis (EAU) in the Rat

β-Endorphin Augments the Cytolytic Activity and Interferon Production of Natural Killer Cells

Differential Expression of Ia and Ia-Associated Invariant Chain in Mouse Tissues after In Vivo Treatment with IFN-γ

A T Cell Activity That Enhances Polyclonal IgE Production and Its Inhibition by Interferon-γ

Regulatory Effects of Human IgE-Binding Factors on the IgE Response of Rat Lymphocytes

Interferon-γ Induction by Lipoysaccharide: Dependence on Interleukin 2 and Macrophages

The Suppressive Effect of Gangliosides upon IL 2-Dependent Proliferation as a Function of Inhibition of IL 2-Receptor Association

Stages of T Cell Activation: Continued Antigen Dependence of IL 2-Producing Cells after IL 2 Receptor Expression

Expression of Interleukin 2 Receptors on Interleukin 3-Dependent Cell Lines

LPS Regulation of Specific Protein Synthesis in Murine Peritoneal Macrophages

Distinction of B Cell Maturation Factors from Lymphokines Affecting B Cell Growth and Viability
