COMMENTARY

I. Sanz and J. D. Capra  3283  The Genetic Origin of Human Autoantibodies

CELLULAR IMMUNOLOGY

R. J. Apple, P. L. Domen, A. Muckerheide, and J. G. Michael  3290  Cationization of Protein Antigens. IV. Increased Antigen Uptake by Antigen-Presenting Cells

J. P. Lake, J. A. Kapp, and C. W. Pierce  3296  Characterization of L-Glutamic Acid6n-L-Alanine3n-L-Tyrasine10-Specific Suppressor T Cells in Responder Mice Restricted by Igh-C-Linked Genes

C. Havele and V. Paetkau  3303  Cyclosporine Blocks the Activation of Antigen-Dependent Cytotoxic T Lymphocytes Directly by an IL-2-Independent Mechanism

C. Penit and F. Vasseur  3315  Sequential Events in Thymocyte Differentiation and Thymus Regeneration Revealed by a Combination of Bromodeoxyuridine DNA Labeling and Antimitotic Drug Treatment

M. K. Jenkins, J. D. Ashwell, and R. H. Schwartz  3324  Allogeneic Non-T Spleen Cells Restore the Responsiveness of Normal T Cell Clones Stimulated with Antigen and Chemically Modified Antigen-Presenting Cells

C. J. P. Boog, J. Boes, and C. J. M. Melief  3331  Role of Dendritic Cells in the Regulation of Class I Restricted Cytotoxic T Lymphocyte Responses

D. T. Francois, I. M. Katona, C. H. June, L. M. Wahl, N. Feuerstein, K.-P. Huang, and J. J. Mond  3338  Anti-Ig-Mediated Proliferation of Human B Cells in the Absence of Protein Kinase C

J. Rhodes and J. Tite  3344  Functional Abolition of Monocyte HLA-DR by Aldehyde Treatment: a Novel Approach to Studies of Class II Restriction Elements in Antigen Presentation

G. D. Powers, A. K. Abbas, and R. A. Miller  3352  Frequencies of IL-2 and IL-4-Secreting T Cells in Naive and Antigen-Stimulated Lymphocyte Populations

B. E. Bierer, J. Barbosa, S. Herrmann, and S. J. Burakoff  3358  Interaction of CD2 with its Ligand, LFA-3, in Human T Cell Proliferation

M. Brunswick, F. D. Finkelman, P. F. Hight, J. K. Inman, H. M. Dintzis, and J. J. Mond  3364  Picogram Quantities of Anti-Ig Antibodies Coupled to Dextran Induce B Cell Proliferation

B. Adkins, D. Gandour, S. Strober, and I. Weissman  3373  Total Lymphoid Irradiation Leads to Transient Depletion of the Mouse Thymic Medulla and Persistent Abnormalities among Medullary Stromal Cells

A. Al Maghazachi and J. M. Phillips-Quagliata  3380  Keyhole Limpet Hemocyanin-Propagated Peyer's Patch T Cell Clones That Help IgA Responses

**Position Open**

**Assistant to the Editor-in-Chief of The Journal of Immunology**

A full or part-time position in the editorial offices of *The Journal of Immunology* in Bethesda, MD, will be available on July 1, 1988. The incumbent serves as Assistant-to-the-Editor. Principal duties include the preliminary review of manuscripts submitted for publication, their assignment to referees, and participation in the decision-making process. Doctorate in Immunology or extensive experience in immunology research required. Salary negotiable. Send C.V. to Dr. Ethan M. Shevach, The American Association of Immunologists, The Journal of Immunology, 9650 Rockville Pike, Bethesda, MD 20814 or call (301) 530-7178.
