TRIBUTE

J. Cruse

2861 A Centenary Tribute: Michael Heidelberger and the Metamorphosis of Immunologic Science

CELLULAR IMMUNOLOGY

2864 Antigen-Presenting Cell-T Cell Interaction in the Chicken Is MHC Class II Antigen Restricted

W. R. Hein, S. McClure, M.-F. Beya, L. Dudler, and Z. Trnka

2869 A Novel Glycoprotein Expressed on Sheep T and B Lymphocytes Is Involved in a T Cell Activation Pathway

2876 Anti-CD2 Monoclonal Antibodies and Calcium Ionophore A23187 Modulate Lytic Activity in CD4+ and CD8+ Alloreactive Clones

T. L. Rothstein and D. L. Kolber

2880 Peritoneal B Cells Respond to Phorbol Esters in the Absence of Co-Mitogen

P. D. Boyer and E. V. Rotenberg

2886 IL-2 Receptor Inducibility Is Blocked in Cortical-Type Thymocytes

F. Manca, D. Fenoglio, A. Kunkl, C. Cambiaggi, M. Sasso, and F. Celada

2893 Differential Activation of T Cell Clones Stimulated by Macrophages Exposed to Antigen Complexed with Monoclonal Antibodies: A Possible Influence of Paratope Specificity on the Mode of Antigen Processing

J. Sprent and M. Schaefer

2899 Capacity of Purified Unprimed Lyt-2+ Cells to Reject H-2-Different Tumor Cells in the Winn Assay

M. Sykes, A. Eisenthal, and D. H. Sachs

2903 Mechanism of Protection from Graft-vs-Host Disease in Murine Mixed Allogeneic Chimeras. I. Development of a Null Cell Population Suppressive of Cell-Mediated Lympholysis Responses and Derived from the Syngeneic Bone Marrow Component

A. Rivas, S. Takada, J. Koide, G. Sondersrip-McDevitt, and E. G. Englterman

2912 CD4 Molecules Are Associated with the Antigen Receptor Complex on Activated but Not Resting T Cells

D. K. Goroff and F. D. Finkelman

2919 Activation of B Cells in Vivo by a Fab/Fc Fragment of a Monoclonal Anti-IgD Antibody Requires an Interaction between the Antibody Fragment and a Cellular IgG Fc Receptor

S. N. Goud, N. Muthusamy, and B. Subbarao

2925 Differential Responses of B Cells from the Spleen and Lymph Node to TNP-Ficoll

Clinical Immunology • Immunopathology

M. O. Dailey, J. Schreurs, and H. Schulman

2931 Hormone Receptors on Cloned T Lymphocytes: Increased Responsiveness to Histamine, Prostaglandins, and β-Adrenergic Agents as a Late Stage Event in T Cell Activation

R. M. Bennet, S. H. Hefeneider, A. Bakke, M. Merritt, C. A. Smith, D. Mourich, and M. C. Heinrich

2937 The Production and Characterization of Murine Monoclonal Antibodies to a DNA Receptor on Human Leukocytes

J. D. Mountz, W. C. Gause, F. D. Finkelman, and A. D. Steinberg

2943 Prevention of Lymphadenopathy in MRL-lpr/lpr Mice by Blocking Peripheral Lymph Node Homing with Mel-14 in Vivo

Continued on page 4
**CONTINUED FROM PAGE 3**

M. Rodriguez and S. Sriram

A. A. Gaspari and S. I. Katz

S. A. Stimpson, F. G. Dallendorf, I. G. Otterness, and J. H. Schwab

E. W. Shores, R. A. Eisenberg, and P. L. Cohen

2950 Successful Therapy of Theiler's Virus-Induced Demyelination (DA Strain) with Monoclonal Anti-Lyt-2 Antibody

2956 Induction and Functional Characterization of Class II MHC (Ia) Antigens on Murine Keratinocytes

2964 Exacerbation of Arthritis by IL-1 in Rat Joints Previously Injured by Peptidoglycan-Polysaccharide

2970 Immunodeficiency in Graft-versus-Host Disease. I. Mechanism of Immune Suppression

2977 T-B Collaboration in the in Vitro Anti-Sm Autoantibody Response of MRL/Mp-lpr Mice

**CYTOKINES • MEDIATORS • REGULATORY MOLECULES**

I. Lemaire

T. B. Issekutz, J. M. Stoltz, and P. v.d. Meide

D. Wallach, H. Holtmann, H. Engelmann, and Y. Nophar

S. Schütze, P. Scheurich, C. Schlüter, U. Ucer, K. Pfizenmaier, and M. Kronke

L. E. M. Bermudez and L. S. Young

E. L. Morgan, M. V. Hobbs, D. J. Noonan, and W. O. Weigle

W. W. Hancock, M. E. Pleau, and L. Kobzik

G. R. Harriman, D. Y. Kunimoto, J. F. Elliott, V. Paetkau, and W. Strober

2983 Neurotensin Enhances IL-1 Production by Activated Alveolar Macrophages

2989 Lymphocyte Recruitment in Delayed-Type Hypersensitivity: The Role of IFN-γ

2994 Sensitization and Desensitization to Lethal Effects of Tumor Necrosis Factor and IL-1

3000 Tumor Necrosis Factor-Induced Changes of Gene Expression in U937 Cells: Differentiation-Dependent Plasticity of the Responsive State

3006 Tumor Necrosis Factor, Alone or in Combination with IL-2, but Not IFN-γ, Is Associated with Macrophage Killing of Mycobacterium avium Complex

3014 Induction of IL-1 Secretion from Human Monocytes by Fc Region Subfragments of Human IgG

3021 Recombinant Granulocyte-Macrophage Colony-Stimulating Factor Down-Regulates Expression of IL-2 Receptor on Human Mononuclear Phagocytes by Induction of Prostaglandin E

3026 Transforming Growth Factor-β Is a Potent Immunosuppressive Agent That Inhibits IL-1-Dependent Lymphocyte Proliferation

3033 The Role of IL-5 in IgA B Cell Differentiation

3040 Stimulation of Murine Hemopoietic Colony Formation by Human IL-6

**IMMUNOCHEMISTRY**

F. Pontillon, P. Moullier, P. M. Ronco, and P. J. Verroust

M. Budisavljevic, M. Genêteau-Legendre, B. Baudouin, F. Pontillon, P. J. Verroust, and P. M. Ronco

T. Kinoshita, J. Takeda, K. Hong, H. Kozono, H. Sakai, and K. Inoue

3045 Paroxysmal Nocturnal Hemoglobinuria: Enhanced Stimulation of Platelets by the Terminal Complement Components Is Related to the Lack of C8bp in the Membrane

3052 Angiotensin II (All)-Related Idiotypic Network. I. Common Occurrence of All Internal Image on Rabbit Anti-Idiotypic Antibodies

3059 Angiotensin II (All)-Related Idiotypic Network. II. Heterogeneity and Fine Specificity of All Internal Images Analyzed with Monoclonal Antibodies

3066 Monoclonal Antibodies to Mouse Complement Receptor Type 1 (CR1): Their Use in a Distribution Study Showing That Mouse Erythrocytes and Platelets are CR1 Negative

Continued on page 5
Recombinant Human IFN-γ but Not IFN-α or IFN-β, Enhances MHC- and Non-MHC-Encoded Glycoproteins by a Protein Synthesis-Dependent Mechanism

Effects of Vitamin D₃ and IFN-γ on the Synthesis of the Second Complement Component, C2, by a Human Myeloid Leukemia (HL-60) Cell Line

Tumor Necrosis Factor-α Up-Regulates Expression of Secretory Component, the Epithelial Receptor for Polymeric Ig

Coculture of Mouse IL-3-Dependent Mast Cells with 3T3 Fibroblasts Stimulates Synthesis of Globopentaosylceramide (Forssman Glycolipid) by Fibroblasts and Surface Expression on Both Populations

Antigenic Specificities of Human Monoclonal and Polyclonal IgM Rheumatoid Factors: The Cγ₂-Cγ₃ Interface Region Contains the Major Determinants

Characteristics of a Human Monoclonal Anti-Sm Autoantibody Expressing an Interspecies Idiotype

Absence of Auto-Antidiotypic Activity between the IgM and IgG Fractions of Human Mixed Cryoglobulins

Biochemical Characterization of an Fcγ Receptor Purified from Human Neutrophils

The Biosynthesis and Assembly of T Cell Receptor α- and β-Chains with the CD3 Complex

G Protein Coupling of Antigen Receptor-Stimulated Polyphosphoinositide Hydrolysis in B Cells

Macrophages Isolated from Liver Granulomas of Murine Schistosoma mansoni Synthesize Predominantly TxA₂ during the Acute and Chronic Phases of Infection

Neutrophil Leukocyte Emigration Induced by Endotoxin: Mediator Roles of IL-1 and Tumor Necrosis Factor α

Increased Plasma Membrane Permeability to Ca²⁺ in Anti-Ig-Stimulated B Lymphocytes Is Dependent on Activation of Phosphoinositide Hydrolysis

Dissociation between Increased Surface Expression of Gp165/95 and Homotypic Neutrophil Aggregation

Stimulation of Eosinophil Adherence to Human Vascular Endothelial Cells in Vitro by Platelet-Activating Factor

Idiotype Stimulation of T Lymphocytes from Trypanosoma cruzi-Infected Patients

Cloned Listeria monocytogenes Specific Non-MHC-Restricted Lyt-2⁺ T Cells with Cytolytic and Protective Activity

Host Resistance to Mucosal Gram-Negative Infection: Susceptibility of Lipopolysaccharide Nonresponder Mice

Failure or Success in the Restoration of Virus-Specific Cytotoxic T Lymphocyte Response Defects by Dendritic Cells
