THE JOURNAL OF IMMUNOLOGY (ISSN 0022-1767) is published twice each month by The American Association of Immunologists, 428 East Preston Street, Baltimore, MD 21202. Subscription rates $870 (225 foreign); institutions $815 (8245 foreign); students $50 (8105 foreign); single copy $9 (812 foreign). Indexed by Current Contents and Index Medicus. Second class postage paid at Baltimore, MD 21202 and at additional mailing offices. POSTMASTER: Send address changes to The Journal of Immunology at 428 East Preston Street, Baltimore, MD 21202. **CYTOKINES • MEDIATORS • REGULATORY MOLECULES**

Direct Identification of the Murine IL-2 Receptor p55-p75 Heterodimer in the Absence of IL-2  
Development and Characterization of Monoclonal Antibodies to Murine Macrophage Colony-Stimulating Factor  
IL-4 Induces Co-Expression of Intrinsic Membrane IgG1 and IgE by Murine B Cells Stimulated with Lipopolysaccharide  
The Involvement of Human Tumor Necrosis Factors-α and -β in the Mixed Lymphocyte Reaction  
IL-4/B Cell Stimulatory Factor 1 Stimulates T Cell Growth by an IL-2-Independent Mechanism  
Tumor Necrosis Factor and IL-1 Associated with Plasma Membranes of Activated Human Monocytes Lyse Monokine-Sensitive but not Monokine-Resistant Tumor Cells whereas Viable Activated Monocytes Lyse Both Amplification of IL-2-Driven T Cell Proliferation by Recombinant Human IL-3 and Granulocyte-Macrophage Colony-Stimulating Factor  
Synergistic and Overlapping Activities of Tumor Necrosis Factor-α and IL-1  
IL-1 Inhibits B Cell Differentiation in Long Term Bone Marrow Cultures  
Characterization of the Soluble Murine IL-2R and Estimation of its Affinity for IL-2  
The Monocyte Differentiation Antigen, CD14, Is Anchored to the Cell Membrane by a Phosphatidylinositol Linkage  
The C Terminus of the Anaphylatoxin C3a Generated upon Complement Activation Represents a Neoantigenic Determinant with Diagnostic Potential  
Synthesis and Regulation of Complement Protein Factor H in Human Skin Fibroblasts  
Heterogeneous Nature of the Acute Phase Response: Differential Regulation of Human Serum Amyloid A, C-Reactive Protein, and Other Acute Phase Proteins by Cytokines in Hep 3B Cells  
Modulation of Stimulus-Dependent Human Platelet Activation by C-Reactive Protein Modified with Active Oxygen Species  
Induction of Monocyte Migration by Recombinant Macrophage Colony-Stimulating Factor  
Stimulation of Human Neutrophil Adhesive Properties of Adenine Nucleotides  
Tumor Necrosis Factor-Induced Activation of Peritoneal Macrophages Is Regulated by Prostaglandin E₂ and cAMP  
Cq Enhances the Phagocytosis of Cryptococcus neoformans Blastospores by Human Monocytes
Characterization of the Pattern of Inflammatory Cell Influx and Cytokine Production during the Murine Host Response to *Listeria monocytogenes*

Exact Definition of Species-Specific and Cross-Reactive Epitopes of the 65-kD Protein of *Mycobacterium leprae* Using Synthetic Peptides

Human IFN-γ Production Is Inhibited by a Synthetic Peptide Homologous to Retroviral Envelope Protein

Independent Regulation of B Cell Responses to Surface and Subsurface Epitopes of African Trypanosome Variable Surface Glycoproteins

Regulation of Activated Macrophage Antimicrobial Activities: Cooperation of Lymphokines for Induction of Resistance to Infection

Antigenic Variation in *Giardia lamblia*

Molecular Cloning of Bovine Class I MHC cDNA

The Igκ Chain Allelic Groups among the Igκ Haplotypes and Igκ Crossover Populations Suggest a Gene Order

Two Regions within the Human IL-2 Gene Promoter Are Important for Inducible IL-2 Expression

Slot-Machine Mutagenesis of a Polymorphic Residue on the Aβ Chain

Biochemical and Structural Properties of a Hodgkin’s Disease-Related Membrane Protein

A Chronic Inflammatory Response: Its Role in Supporting the Development of *c-myc* and *c-myb* Related Promonocytic and Monocytic Tumors in BALB/c Mice

Effects of Transforming Growth Factor-β on Human Lymphokine-Activated Killer Cell Precursors: Autocrine Inhibition of Cellular Proliferation and Differentiation to Immune Killer Cells

Production of Colony-Stimulating Factor by Tumor Cells and the Factor-Mediated Induction of Suppressor Cells
