A. D. Weinberg, M. English, and
S. L. Swain

R. Yamamoto, L. S. Lin, R.
Lowe, M. K. Warren, and T.
J. White

1744 Alloreactive Murine CD8⁺ T Cell Clones Secrete the T1 Pattern of Cytokines

1753 Effects of Recombinant Murine Tumor Necrosis Factor-α on Immune Function

1759 IL-3-Induced Activation of Protein Kinases in the Mast Cell/Megakaryocyte R6-XE.4 Line

1767 Regulatory Effects of Transforming Growth Factor-β on IL-2- and IL-4-Dependent T Cell-Cycle Progression

1777 Direct Evidence for an Intracellular Role for IFN-γ: Microinjection of Human IFN-γ Induces la Expression on Macrophage Membranes

1783 Tumor Necrosis Factor-α and P40 Induce Day 15 Murine Fetal Thymocyte Proliferation in Combination with IL-2

1788 CD4⁺ T Cell Subsets: Lymphokine Secretion of Memory Cells and of Effector Cells Which Develop from Precursors in Vitro

1800 Distinct Regulation of Lymphokine Production Is Found in Fresh versus in Vitro Primed Murine Helper T Cells

1808 The Human Lung Fibroblast Cell Line, MRC-5, Produces Multiple Factors Involved with Megakaryocyte Proliferation

Continued on page 5
IMMUNOCHEMISTRY

E. J. Gosselin, M. F. Brown, C. L. Anderson, T. F. Zipf, and P. M. Guyre
1817 The Monoclonal Antibody 41H16 Detects the Leu 4 Responder Form of Human FcγRII

R. Harada, N. Okada, T. Fujita, and H. Okada
1823 Purification of 1F5 Antigen That Prevents Complement Attack on Homologous Cell Membranes

J. M. Lee and T. H. Watts
1829 On the Dissociation and Reassociation of MHC Class II-Foreign Peptide Complexes: Evidence that Brief Transit through an Acidic Compartment Is Not Sufficient for Binding Site Regeneration

M. J. Mamula, R. Jemmerson, and J. A. Hardin
1835 The Specificity of Human Anti-Cytochrome c Autoantibodies That Arise in Autoimmune Disease

1841 A Structural Characterization of the Mo3 Activation Antigen Expressed on the Plasma Membrane of Human Mononuclear Phagocytes

P. A. Roche and P. Cresswell
1849 High-Affinity Binding of an Influenza Hemagglutinin-Derived Peptide to Purified HLA-DR

C. C. Striebich, R. M. Miceli, D. H. Schulze, G. Kelsoe, and J. Cerny
1857 Antigen-Binding Repertoire and Ig H Chain Gene Usage among B Cell Hybridomas from Normal and Autoimmune Mice

IMMUNOPHARMACOLOGY

F. Grimminger, B. Kreusler, U. Schneider, G. Becker, and W. Seeger
1866 Influence of Microvascular Adherence on Neutrophil Leukotriene Generation: Evidence for Cooperative Eicosanoid Synthesis

T. J. Gross and R. G. Sitrin
1873 The THP-1 Cell Line Is a Urokinase-Secreting Mononuclear Phagocyte with a Novel Defect in the Production of Plasminogen Activator Inhibitor-2

K. Hirata, K. Maghni, P. Borgat, and P. Sirois
1880 Guinea Pig Alveolar Eosinophils and Macrophages Produce Leukotriene B4 but No Peptido-Leukotriene

J. S. Marshall, R. H. Stead, C. McSharry, L. Nielsen, and J. Bienenstock
1886 The Role of Mast Cell Degranulation Products in Mast Cell Hyperplasia. I. Mechanism of Action of Nerve Growth Factor

E. Morita, J.-M. Schroder, and E. Christophers
1893 Identification of a Novel and Highly Potent Eosinophil Chemotactic Lipid in Human Eosinophils Treated with Arachidonic Acid

T. J. Mullmann, M. I. Siegel, R. Egan, and M. M. Billah
1901 Complement C5a Activation of Phospholipase D in Human Neutrophils: A Major Route to the Production of Phosphatidates and Diglycerides

J. T. O’Flaherty, J. F. Redman, and P. Jacobson
1909 Mechanisms Involved in the Bidirectional Effects of Protein Kinase C Activators on Neutrophil Responses to Leukotriene B4

MICROBIAL IMMUNOLOGY

1914 Complement Activation Limits the Rate of in Vitro Treponemical Activity and Correlates with Antibody-Mediated Aggregation of Treponema pallidum Rare Outer Membrane Protein

F. I. Lamb, N. B. Singh, and M. J. Colston
1922 The Specific 18-Kilodalton Antigen of Mycobacterium leprae Is Present in Mycobacterium habana and Functions as a Heat-Shock Protein

D. Moskophidis, L. Fang, J. Gossmann, R. Drjupin, J. Löhler, M. Bruns, and F. Lehmann-Grube
1926 Virus-Specific Delayed-Type Hypersensitivity (DTH): Cells Mediating Lymphocytic Choriomeningitis Virus-Specific DTH Reaction in Mice

Y. Nakano, K. Onozuka, Y. Terada, H. Shinomiya, and M. Nakano
1935 Protective Effect of Recombinant Tumor Necrosis Factor-α In Murine Salmonellosis

M. Sarmiento and E. S. Kleinerman
1942 Innate Resistance to Herpes Simplex Virus Infection: Human Lymphocyte and Monocyte Inhibition of Viral Replication

Y. Suzuki and J. S. Remington
1954 The Effect of Anti-IFN-γ Antibody on the Protective Effect of LYT-2+ Immune T Cells against Toxoplasmosis in Mice
