CELLULAR IMMUNOLOGY

D. R. DeSilva, K. B. Urdahl, and M. K. Jenkins
3261 Clonal Anergy Is Induced In Vitro by T Cell Receptor Occupancy in the Absence of Proliferation
X.-M. Gao, B. Zheng, F. Y. Liew, S. Brett, and J. Tite
3268 Priming of Influenza Virus-Specific Cytotoxic T Lymphocytes in vivo by Short Synthetic Peptides
3274 Mutation of the Disulfide Loop in Staphylococcal Enterotoxin A: Consequences for T Cell Recognition
D. T. Hagerty, B. D. Evavold, and P. M. Allen
3282 The Processing and Presentation of the Self-Antigen Hemoglobin: Self-Reactivity Can Be Limited by Antigen Availability and Costimulator Expression
T. Kakiuchi, A. Takatsuki, M. Watanabe, and H. Nariuchi
3289 Inhibition by Brefeldin A of the Specific B Cell Antigen Presentation to MHC Class II-Restricted T Cells
T. Kamradt, P. D. Soloway, D. L. Perkins, and M. L. Ghetto
3296 Pertussis Toxin Prevents the Induction of Peripheral T Cell Anergy and Enhances the T Cell Response to an Encephalitogenic Peptide of Myelin Basic Protein
C. J. Krco, C. S. David, and V. A. Lennon
3303 Mouse T Lymphocyte Response to Acetylcholine Receptor Determined by T Cell Receptor for Antigen Vβ Gene Products Recognizing Mls-
J. Moreno, D. A. A. Vignali, F. Nadimi, S. Fuchs, L. Adorini, and G. J. Hammerling
3314 Clonal Deletion and Autoreactivity in Extrathymic CD4+CD8-T Cell Determinants Distinct from Those Derived from Exogenous Antigen
3319 Human CD4+CD8+αβ- T Cells Express a functional T Cell Receptor and Can Be Activated by Superantigens
S. Quarantino, G. Murison, R. E. Knyba, A. Verhoef, and M. Londe
3324 Development of a Bone Marrow Culture for Maintenance and Growth of Normal Human B Cell Precursors

CLINICAL IMMUNOLOGY • IMMUNOPATHOLOGY

T. Berney, T. Shibata, and S. Izui
3331 Murine Cryoglobulinemia: Pathogenic and Protective IgG3 Self-Associating Antibodies
F. Griesinger, B. Jansen, and J. H. Kersey
3336 Differentiation in Mature T Lymphoid Leukemia Cells Is Unstable and Reversible to Myeloid Cells, without the Involvement of a Common Stem Cell
3342 Effects of Recombinant Transforming Growth Factor-β1 on Hematologic Recovery after Treatment of Mice With 5-Fluorouracil
3348 Blood Transfusion-Induced Changes in Cell-Mediated Lympholysis: to Immunize or Not to Immunize
J. D. Ohmen, P. F. Barnes, K. Uyemura, S. Lu, C. L. Grisso, and R. L. Modlin
3353 The T Cell Receptors of Human γδ T Cells Reactive to Mycobacterium tuberculosis Are Encoded by Specific V Genes but Diverse V-J Junctions

Continued on page 5
Continued from page 3

P. R. Walker, R. Fellowes, E.-M. Recht, and T. Lehner

R. M. Wyatt and J. R. Dawson

M. J. Yellin, J. J. Lee, L. Chess, and S. Lederman

3360 A Predominance of the T Cell Receptor Vγ2/Vδ2 Subset in Human Mycobacteria-Responsive T Cells Suggests Germline Gene Encoded Recognition

3370 Characterization of Streptococcal Antigen-Specific CD8+ MHC Class I-Restricted, T Cell Clones that Down-Regulate in Vitro Antibody Synthesis

3381 Characterization of a Subset of Human B Lymphocytes Interacting with Natural Killer Cells

3389 A Human CD4+ T Cell Leukemia Subclone with Contact-Dependent Helper Function

**CYTOKINES • MEDIATORS • REGULATORY MOLECULES**

N. Arima, M. Kamio, M. Okuma, G. Ju, and T. Uchiyama

F. Guesdon and J. Saklatvala

D. F. Mangan and S. M. Wahl

J. Van der Heyden, R. Devos, G. Plaetinck, I. Pache, W. Fiers, and J. Tavernier

3396 The IL-2 Receptor α-Chain Alters the Binding of IL-2 to the β-Chain

3402 Identification of a Cytoplasmic Protein Kinase Regulated by IL-1 that Phosphorylates the Small Heat Shock Protein, hsp27

3408 Differential Regulation of Human Monocyte Programmed Cell Death (Apoptosis) by Chemotactic Factors and Pro-Inflammatory Cytokines

3413 Characterization of the Murine IL-5 Receptor Complex with the Use Of a Panel of Monoclonal Antibodies: Relationship to the Murine IL-3 Receptor

**IMMUNOCHEMISTRY**

M.-A. Bakos, A. Kurosky, and R. M. Goldblum

P. M. Day and J. A. Frelinger

R. S. Mittler, B. M. Rankin, and P. A. Kiener

Y. Prashar, Y. Li, J. S. Kubinec, N. Jones, and D. N. Posnett

3419 Characterization of a Critical Binding Site for Human Polymeric Ig on Secretory Component

3427 Differential Expression of Q4 Proteins (Qb-1) in Fibroblasts and Lymphocytes

3434 Physical Associations between CD45 and CD4 or CD8 Occur as Late Activation Events in Antigen Receptor-Stimulated Human T Cells

3441 A Monoclonal Antibody (OT145) Specific for the T Cell Antigen Receptor VP6.7a Allele Detects an Epitope Related to a Proposed Superantigen-Binding Site

**IMMUNOPHARMACOLOGY**

R. E. Crowell, T. W. Du Clos, G. Montoya, E. Heaphy, and C. Mold

E. W. Gelfand and R. Or

D. Harrison, J. H. Phillips, and L. L. Lanier

H. Kita, R. I. Abu-Ghazaleh, G. J. Gleich, and R. T. Abraham

B. L. Levine, W. S. May, P. G. Tyler, and A. D. Hess

J. P. McGillis, S. Humphreys, and S. Reid

N. Wallen, H. Kita, D. Weller, and G. J. Gleich

3445 C-Reactive Protein Receptors on the Human Monocytic Cell Line U-937: Evidence for Additional Binding to FcγRI

3452 Charybdotoxin-Sensitive, Ca2+-Dependent Membrane Potential Changes Are Not Involved in Human T or B Cell Activation and Proliferation

3459 Involvement of a Metalloprotease in Spontaneous and Phorbol Ester-Induced Release of Natural Killer Cell-Associated FCγRIII (CD16-II)

3466 Role of Pertussis Toxin-Sensitive G Proteins in Stimulus-Dependent Human Eosinophil Degranulation

3474 Response of Jurkat T Cells to Phorbol Ester and Bryostatin: Development of Sublines with Distinct Functional Responses And Changes in Protein Kinase C Activity

3482 Characterization of Functional Calcitonin Gene-Related Peptide Receptors on Rat Lymphocytes

3490 Glucocorticoids Inhibit Cytokine-Mediated Eosinophil Survival
