CUTTING EDGE

1585 Lactate Dehydrogenase-Elevating Virus (LDV): Lifelong Coexistence of Virus and LDV-Specific Immunity
Maries F. van den Broek, Roman Sporri, Chen Even, Peter G. W. Plagemann, Edgar Hänseler, Hans Hengartner, and Rolf M. Zinkernagel

1589 Identification and Characterization of a Novel β Chemokine Containing Six Conserved Cysteines
Joseph A. Hedrick and Albert Zlotnik

1594 Human Monocytic Cells Contain High Levels of Intracellular Fas Ligand: Rapid Release Following Cellular Activation
Peter A. Kiener, Patricia M. Davis, Bruce M. Rankin, Seymour J. Klebanoff, Jeffrey A. Ledbetter, Gary C. Starling, and W. Conrad Liles

CELLULAR IMMUNOLOGY AND IMMUNE REGULATION

1599 IL-4 Expression by Grafts from Transgenic Mice Fails to Prevent Allograft Rejection
Regula Mueller, Joanna D. Davies, Troy Krahl, and Nora Sarvetnick

1604 IL-12 Production by Central Nervous System Microglia Is Inhibited by Astrocytes
Francesca Aloisi, Giuseppe Penna, Joanna Cerase, Begoña Menéndez Iglesias, and Luciano Adorini

1613 Cot Kinase Regulation of IL-2 Production in Jurkat T Cells
Alicia Ballester, Rafael Tebeña, Carlos Lisbona, Victor Calvo, and Susana Alemany

On the cover: Graphical representations of MHC class I molecules H-2Db and HLA-A2.1. Identical residues are shown in green. A murine CTL clone (AHII112.2) displays peptide-specific recognition of both of these molecules, and cytolytic assays suggest that these are functionally equivalent epitopes. This TCR appears to make a different, but overlapping set, of contacts with each class I peptide complex. In this instance, cross-recognition appears to be the result of both shared and complex-specific contacts. (Figure 8 from Loftus, D. J., Y. Chen, D. G. Covell, V. H. Engelhard, and E. Appella. 1997. Differential contact of disparate class I/peptide complexes as the basis for epitope cross-recognition by a single T cell receptor. J. Immunol. 158:3651.)

The Journal of Immunology (ISSN 0022-1767) is published twice each month by The American Association of Immunologists, 9650 Rockville Pike, Bethesda, MD 20814. Subscription rates: U.S.A. AND POSSESSIONS: personal, $225.00; institutional, $400.00; single copy, $15.00. FOREIGN (incl. Canada): personal, $330.00; institutional, $500.00; single copy, $20.00. Air Printed Matter rates are available on request from Customer Service, The Journal of Immunology, 9650 Rockville Pike, Bethesda, MD 20814-3998. Indexed by Current Contents and Index Medicus. Periodicals postage paid at Bethesda, MD 20814 and at additional mailing offices. Country of origin USA. Printed on acid-free recyclable paper. Postmaster: Send address changes to The Journal of Immunology, 9650 Rockville Pike, Bethesda, MD 20814-3998. Copyright © 1997 by The American Association of Immunologists.
