 *The Journal of*
Immunology

16 (1)

J Immunol 1929; 16:1-80; ;
<http://www.jimmunol.org/content/16/1.citation>

This information is current as
of November 21, 2018.

Why *The JI*? [Submit online.](#)

- **Rapid Reviews! 30 days*** from submission to initial decision
- **No Triage!** Every submission reviewed by practicing scientists
- **Fast Publication!** 4 weeks from acceptance to publication

**average*

Subscription Information about subscribing to *The Journal of Immunology* is online at:

The Journal of Immunology is published twice each month by
The American Association of Immunologists, Inc.,
1451 Rockville Pike, Suite 650, Rockville, MD 20852
All rights reserved.
Print ISSN: 0022-1767 Online ISSN: 1550-6606.

CONTENTS

NUMBER 1, JANUARY, 1929

The Mode of Action of Formaldehyde on Complement Fixation Systems. C. E. Reyner.....	1
Surface Tension of Blood Serum in Syphilis. Elizabeth M. Yagle.....	17
The Pathogenicity of the Avian Tubercle Bacillus. Elsie S. L'Esperance..	27
Experimental Inoculation of Chickens with Hodgkin's Nodes. Elsie S. L'Esperance.....	37
The Relation of Serum Dilution and of Antigen Density to the Non-Specific Precipitations of Fowl Serum. S. J. Schilling and G. S. Schilling.....	61
Venoms of North American Snakes and Their Relationship. Thomas S. Githens and Lewis W. Butz.....	71

NUMBER 2, FEBRUARY, 1929

Mathematico-statistical Considerations of the Inheritance of the Human Blood Groups. Kenkichi Ichida.....	81
Studies in Isohemagglutination. Leland W. Parr.....	99
Distribution of Antibodies in the Serum and Organs of Rabbits. III. Agglutinin Content of the Lymph and Tissue of the Liver and of the Lymph and Muscle of the Leg. Jules Freund and Caroline E. Whitney.....	109
On the Racial Distribution of Some Agglutinable Structures of Human Blood. K. Landsteiner and Philip Levine.....	123
A Study of Vital Staining with Trypan Blue in Shock in Rabbits and Guinea Pigs. Susan Griffith Ramsdell.....	133
The Reticulo-endothelial System and Antibody Production. I. The Appearance of Antibody in the Circulation. Edward F. Roberts.....	137
Complement Fixation Reaction with Rabies and Herpes Viruses. Fei-Fang Tang and M. Ruiz Castaneda.....	151
Blood Groups in Peru, Santo Domingo, Yucatan and Among the Mexicans at the Blue Ridge Prison Farm in Texas. W. L. Moss and James A. Kennedy.....	159

NUMBER 3, MARCH, 1929

Immunization and the Nitrogenous Constituents of the Blood. M. F. Guyer and S. Lepkovsky.....	175
Quantitative Studies on the Action of Compound Hemolysins. III. New Experimental Material Qualitatively Discussed. Rudolf Gahl, Norman David and Alice Kelleher.....	209
Immunological Studies in Tuberculosis. V. Resistance of Animals Sensitized with Heat Killed Tubercle Bacilli to a Measured Infecting Dose. S. A. Petroff, Arnold Branch and F. B. Jennings, Jr.....	233

Heterophile Antibodies in Serum Sickness. I. Davidsohn.....	259
Distribution of Antibodies in the Serum and Organs of Rabbits. IV. Hemolysins and Precipitins. Jules Freund.....	275
Studies in Specific Hypersensitiveness. XXVIII. The Relationship of the Atopens in the Pollen of Bermuda Grass (<i>Cynodon dactylon</i>) and Timothy Grass (<i>Phleum pratense</i>). Robert Chobot.....	281

NUMBER 4, APRIL, 1929

Immunological Investigations in Tropical Sprue in Porto Rico. V. Skin Tests with Various Food Preparations. Charles Weiss and O. Costa Mandry.....	283
Heterogeneity of Streptococci Isolated from Sputum. With a Critique on Serological Classifications of Streptococci. Sanford Burton Hooker and Lillian M. Anderson.....	291
Ricinoleated Vaccines. Anthony Kozlowski.....	357
Experimental Studies with Pyocyaneus Filtrates. Ernst J. Oesterlin.....	359
On the Presence of Heterophile (Forssman's) Antigen in Bacteria of the Paratyphoid-Dysentery Group. Claus W. Jungeblut and Alexander T. Ross.....	369
The Effect of Formalin on Botulinum Toxins A, B and C. Robert Graham and Frank Thorp, Jr.....	391
Studies on the Antigenic Substances of <i>Cl. botulinum</i> XXXIII. I. Complement Fixing Substances in Alcoholic Extracts. Jeanne Lommel and Janet B. Gunnison.....	403
Antibody Studies, in Serum Sickness. I. With Special Reference to the Prausnitz-Küstner Reaction. Louis Tuft and Susan Griffith Ramsdell....	411

NUMBER 5, MAY, 1929

Diphtheria Toxin. Importance of Old and New Factors in Its Production. Olga R. Povitzky.....	421
Observations on the Proposed Gold Chloride Titration for Determining the Toxicity of Diphtheria Toxin. Everett S. Sanderson and John H. Yoe....	429
The Chemical Nature of the Constituent in Fowl Serum Responsible for Non-Specific Precipitations. Geo. S. Schilling.....	439
The Chances of Establishing Non-paternity by Determination of Blood Groups. Sanford B. Hooker and William C. Boyd.....	451
Qualitative Diversity of Agglutinin Response among Different Rabbits Treated with the Same Complex Antigen (<i>Streptococcus scarlatinæ</i>). Sanford B. Hooker.....	463

NUMBER 6, JUNE, 1929

Studies in Isohemagglutination. I. Theoretical Considerations. Alexander S. Wiener, Max Lederer and S. H. Polayes.....	469
Quantitative Studies on the Action of Compound Hemolysins. IV. Quantitative Interpretation of the Characteristic Curves. Rudolf Gahl.....	483
The Skin Reaction in the Sensitized Guinea Pig. Susan Griffith Ramsdell....	509
Distribution of Antibodies in the Serum and Organs of Rabbits. V. The Antibody Content of the Skin at the Site of Injection of Immune Serums. Jules Freund.....	515
