Cadmus Communications

Congratulates

The American Association of Immunologists on 90 years of supporting the scientific community through publication of

*The Journal of Immunology*
One of the most highly cited journals in biomedicine, THE JOURNAL OF IMMUNOLOGY serves immunologists and individuals in related disciplines.

Each issue contains hundreds of pages of up-to-date research. In addition, the “Cutting Edge” section of the journal features the highest impact articles in the field. “In This Issue” provides summaries of the most interesting articles in an issue with a focus on each article’s importance to immunology.

THE JOURNAL OF IMMUNOLOGY is the trusted source for reports on immunology research for scientists from many disciplines. Every scientist working in immunology will want a subscription!

To receive THE JOURNAL OF IMMUNOLOGY, mail your order to:

Subscriptions Department - Room L-2407-A
The Journal of Immunology
9650 Rockville Pike

2006 Non-member rates for 24 issues
- Rates inside U.S.A.
  Personal: $370/year
  Institutional: $730-1,015*/year
- Rates outside U.S.A.
  Personal: $530/year
  Institutional: $890-1,175*/year
  (Canada, add 7% GST)

2006 Member and Trainee rates for 24 issues*
- Member
  U.S.A.: $260/year
  Canada: $358.75/year
  International: $350/year
- Trainee
  U.S.A.: $64/year
  Canada: $156.25/year
  International: $154/year

* Depending on number of faculty and students. See www.jimmunol.org for current rate information.

The American Association of Immunologists

2006 Introductory Course in Immunology

at the

University of Pennsylvania, Philadelphia, PA, June 23-29, 2006

Course Co-Directors: Terri Laufer, MD, University of Pennsylvania; John Monroe, PhD, University of Pennsylvania

A comprehensive introduction to the basic principles of immunology offered by outstanding faculty in a two-part course. Suitable for students with a general biology background. Part I (June 24-26) covers the basic biology of the immune system. Part II (June 27-29) is a lecture series covering specific disciplines of immunology and emphasizing clinical relevance. Part II requires an understanding of basic immunology. Parts I and II may be taken separately at the discretion of the student. Course registration check-in starts June 23rd. The first lecture will start the morning of June 24th. 37 hours of CME will be offered.

APPLICATIONS MUST BE RECEIVED BY MAY 22, 2006
Attendance is limited to 220 registrants.

The American Association of Immunologists

2006 Advanced Course in Immunology

at

Stanford University • Stanford, California • July 15-21, 2006

Course Director: Olivia M. Martinez, PhD, Stanford University

An intensive course designed for serious students of immunology. Leading experts will present recent advances in understanding the biology of the immune system and its role in health and disease. This course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. This is not an introductory course; attendees are required to have a firm understanding of the principles of immunology. Course registration check-in starts on July 15th; the first lecture will be that evening. 44 hours of CME will be offered.

APPLICATIONS MUST BE RECEIVED BY JUNE 1, 2006
Attendance is limited to 220 registrants.
