CORRECTIONS

In Figure 8, panels for K-14 (E2 and Dex), IL-7 (E2), SLC (E2), TECK (E2), and GAPDH (Irr) mRNA expression in TEC, and for TECK (E2) and GAPDH (E2) mRNA expression in DCs were incorrect. The corrected figure is shown below.

---

In the Abstract, reference to CD3-positive tumors in the last sentence is incorrect. The corrected sentence is shown below.

GK8 may be useful as a tumor vaccine for GD2-positive tumors.

---

At the bottom of Figure 1, the legends of the two graphs for “CD38 separation” are reversed: “IgD−CD38+/IgD−CD38− GC B cells” should be under the graph at the right and “IgD+CD38− memory B cells” should be under the graph at the left. The corrected figure is shown below.

Figure 4 was published in black and white in error. The corrected figure is shown below. The error has been corrected in the online version, which now differs from the print version as originally published.
