AAI Courses in Immunology

The American Association of Immunologists

2008 Introductory Course in Immunology

June 20-26, 2008

The University of Pennsylvania, Philadelphia, PA

Don’t miss the most comprehensive introduction to immunology available!

An intensive course taught by world-renowned teachers and researchers in immunology. This two-part course provides a comprehensive overview of the basics of immunology for students new to the discipline or seeking more information to complement general biology or science training. Upon completion, students will have the tools necessary to understand and discuss current topics and methods in immunology.

Part I (June 20-23) is a comprehensive introduction to the basic principles of immunology and is suitable for students with a general biology background. Part II (June 24-26) is a lecture course covering major areas of immunology and will require an understanding of basic immunology. Parts I and II may be taken independently at the discretion of the student. Registration details to be announced.

2008 Advanced Course in Immunology

July 19-24, 2008

The University of Minnesota, Minneapolis, MN

This intensive annual course is designed for serious students of immunology. Leading experts will present recent advances in understanding the biology of the immune system and its role in health and disease. This course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. This is not an introductory course and attendees will need to have a firm understanding of the principles of immunology. Registration details to be announced.

Course Director: Marc K. Jenkins, Ph.D., University of Minnesota
Course Co-Director: Kristin A. Hogquist, Ph.D., University of Minnesota
