Introducing the New BD Influx Cell Sorter

Choice. Flexibility. Control. The BD Influx™ cell sorter offers boundless adaptability to application and environmental requirements without sacrificing speed or accuracy. Available with up to 7 lasers, up to 6-way sorting, and a range of detection configurations, the instrument offers a combination of powerful technology and precision controls for flow cytometry as exacting as your research demands.

Innovative thinking is evident throughout the design of the new BD Influx, with a modular component architecture and hands-on controls that make it ready to adapt to your unique requirements.

In addition, the new BD Influx software puts hundreds of parameters under your control with rich analysis capabilities to let you visualize experimental data in a meaningful way—from histograms to contour plots.

Find out how the innovation built into the BD Influx can keep your lab in a perpetual state of the art at bdbiosciences.com/influx.

Innovation is built in. You can depend on it.
