The new BD FACSVerse™ flow cytometer is the latest in the family of high-performance analyzers that incorporates the best of our thinking and the very latest advances in technology to simplify your workflow today and tomorrow.

The innovations built into the new BD FACSVerse are on everyone’s wish list, from ingenious automation to unparalleled flexibility, so you can start strong today and grow tomorrow. Take a good look, there’s quite a lot to see.

Learn more in the insert bound into this edition or visit bdbiosciences.com/go/verse.

Simply brilliant.

What’s really exciting is what’s behind it.

Class I (1) laser product.

For Research Use Only. Not for use in diagnostic or therapeutic procedures.

OPEN TO ALL IMMUNOLOGY 2011™ ATTENDEES!

Moscone Center South Lobby
Friday, May 13, 2011
6:00 PM – 8:00 PM

Generously Sponsored by
eBioscience, Inc.

Come directly from the President’s Address into the Grand Foyer of the Moscone Center to enjoy drinks and hors d’oeuvres, catch up with colleagues, relax from your travels, and plan your week.

IMMUNOLOGY 2013™
May 3–7
Honolulu, Hawaii

Mark Your Calendar for the Premier Annual Immunology Event!

MARK YOUR CALENDARS FOR FUTURE AAI EVENTS

Pittsburgh, Pennsylvania
Don’t miss the most comprehensive introduction to immunology available!

This intensive two-part course, taught by world-renowned immunologists, provides a comprehensive overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. Part I (July 9 – 11) is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. Part II (July 12 – 14) is a clinically oriented lecture series focusing on specialty areas. Parts I and II may be taken independently at the discretion of the student.

Faculty

- Christopher A. Hunter, University of Pennsylvania School of Veterinary Medicine
  Introduction to the Immune System

- Sara Cherry, University of Pennsylvania School of Medicine
  Introduction to Innate Immunity

- Judith A. Owen, Haverford College
  Introduction to Adaptive Immunity

- Michael P. Cancro, University of Pennsylvania School of Medicine
  Clonal Selection and V(D)J Recombination (B Cell Centric)

- David M. Allman, University of Pennsylvania School of Medicine
  B Cell Activation and Memory Formation

- Terri M. Laufer, University of Pennsylvania School of Medicine
  MHC Restriction and Thymic Selection

- Laurence C. Eisenlohr, Jefferson Medical College
  Antigen Processing and Presentation

- Julie M. Blander, Mount Sinai School of Medicine
  Dendritic Cells: The Bridge Between Innate and Adaptive Immunity

- Gary A. Koretzky, University of Pennsylvania School of Medicine
  Signaling in the Immune System

- Gudrun Philomena Fiona Debes, University of Pennsylvania School of Veterinary Medicine
  Trafficking

- Michael P. Cancro, University of Pennsylvania School of Medicine
  Lymphocyte Homeostasis

- Ronald N. Germain, NIAID, NIH
  Dynamic Intravital Imaging of the Immune System: Replacing Cartoons with Movies of the Real Thing

- Andrew J. Caton, The Wistar Institute
  T and B Cell Tolerance

- Robert H. Vonderheide, University of Pennsylvania School of Medicine
  Tumor Immunology

- Betty A. Diamond, The Feinstein Institute for Medical Research
  Autoimmunity

- Cathryn Nagler, University of Chicago
  Mucosal Immunology

- Achsah D. Keegan, University of Maryland School of Medicine
  Type 2 Immune Responses and Asthma

- Padmini Salgame, University of Medicine and Dentistry of New Jersey
  Immunity to Bacterial Pathogens

- E. John Wherry, University of Pennsylvania School of Medicine
  Immunologic Memory to Intracellular Pathogens

- Christopher A. Hunter, University of Pennsylvania School of Veterinary Medicine
  Cytokines

- Robert A. Seder, VRC, NIAID, NIH
  Immunizations

- Jordan S. Orange, Children’s Hospital of Philadelphia
  Primary Immunodeficiencies

- Jonathan S. Maltzman, University of Pennsylvania School of Medicine
  Transplantation

- Judy H. Cho, Yale School of Medicine
  Genetic Approaches to Immune-Mediated Diseases

- John G. Monroe, Genentech, Inc.
  Bench to Bedside to Bench: Current Issues in Immunology

For complete course details and registration, visit www.aai.org/Courses.htm. For assistance, contact Clayton Moore at (301) 634-7399 or meetings@aai.org. Overseas applicants are advised to apply early for visas; for details, visit www.aai.org/Courses/visainformation.htm. The American Association of Immunologists

2011 Advanced Course in Immunology
July 31 - August 5, 2011
The University of Minnesota, Minneapolis

Course Director: Stephen C. Jameson, Ph.D., Center for Immunology
University of Minnesota Medical School
Course Co-Director: Michael A. Farrar, Ph.D., Center for Immunology
University of Minnesota Medical School

Don’t miss the premier course in immunology for research scientists!

This intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. Leading experts will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the principles of immunology.

Faculty

- Marc K. Jenkins, Center for Immunology
  University of Minnesota Medical School
  Anatomy of the Immune Response

- Jenny P-Y. Ting, University of North Carolina, Chapel Hill
  Molecule Recognition Motifs

- Jeffrey S. Miller, Masonic Cancer Center
  University of Minnesota Medical School
  NK Cells - Their Receptors and Function in Health and Disease

- Erik J. Peterson, Center for Immunology
  University of Minnesota Medical School
  Molecular and Cellular Mediators of Inflammation

- Daniel Kaplan, Center for Immunology
  University of Minnesota Medical School
  Dendritic Cells

- Barry P. Sleckman, Washington University School of Medicine
  The Generation and Modification of Lymphocyte Antigen Receptor Genes

- Michael A. Farrar, Center for Immunology
  University of Minnesota Medical School
  B Cell Development

- Kristin A. Hogquist, Center for Immunology
  University of Minnesota Medical School
  T Cell Development

- Yoji Shimizu, Center for Immunology
  University of Minnesota Medical School
  Lymphocyte Trafficking

- Lisa K. Denzin, Memorial Sloan-Kettering Cancer Center
  MHC-Restricted Antigen Presentation to T Cells

- Stephen C. Jameson, Center for Immunology, University of Minnesota Medical School
  Lymphocyte Memory

- Daniel D. Billadeau, Mayo Clinic Medical School
  Signaling from Antigen Receptors

- David Masopust, Center for Immunology
  University of Minnesota Medical School
  Mucosal Immunity

- Steven M. Varga, University of Iowa
  Immune Response to Pathogens

- Bryce A. Binstadt, Center for Immunology
  University of Minnesota Medical School
  T and B Cell Tolerance and Autoimmunity

- William J. Burlingham, University of Wisconsin, Madison
  Immunobiology of Transplantation

- Hirohito Kita, Mayo Clinic Medical School
  Asthma and Allergy

- TBA
  Immunotherapeutics

- Robert Schreiber, Washington University School of Medicine
  Tumor Immunology

The American Association of Immunologists thanks the following sponsors for their generous support of its 98th Annual Meeting

MAY 13 – 17, 2011  •  SAN FRANCISCO, CALIFORNIA

Thank you to our Sponsors

PLATINUM SPONSORS

- Gala at San Francisco Museum of Modern Art
- President’s Service Appreciation Reception

SILVER SPONSORS

- Cynthia Chambers Memorial-eBioscience Junior Faculty Award
- Opening Night Welcome Reception
- Distinguished Lectures
- Meeting Bags

GOLD SPONSOR

- AAI Minority Scientist Travel Awards
- Support for Minority Affairs Committee Lecture
- Program Support

SUPPORTING SPONSORS

- AAI-BD Biosciences Investigator Award
- AAI Junior Faculty Travel Grants
- AAI Trainee Abstract Awards
- Boot Camp for New Faculty

SUSTAINING SPONSORS

- AAI Trainee Abstract Awards
- Boot Camp for New Faculty

CONTRIBUTING SPONSORS

- The JI Editorial Board Dinner and Meeting

OTHER SPONSORS

- Support for Trainee Abstract Awards

- Pfizer-Showell Travel Award
2011 AAI Distinguished Service Award Winners Announced

For their outstanding service to the AAI community and the immunology field as a whole, AAI is pleased to present Drs. Hurwitz, Laufer, and Street with the 2011 AAI Distinguished Service Award.

Arthur Andrew Hurwitz, Ph.D
National Cancer Institute, NIH

In ten years of continuous service to AAI, Dr. Hurwitz, AAI ’93, has initiated a number of education and awards programs for the benefit of the immunology community, especially young investigators. He spearheaded the 2002 creation of the Grant Review for Immunologists Program (GRIP) as a resource for principal investigators seeking their first NIH (R01) grants and matching them with established scientists for guidance. Dr. Hurwitz was instrumental in founding and securing funding for the Cynthia Chambers Memorial-eBioscience Junior Faculty Award, which is intended to advance the career of a young investigator conducting outstanding research in the immunobiology of cancer. Dr. Hurwitz has also served actively on the AAI Committee on Public Affairs (2001–2007) and the AAI Education Committee (2007–present).

Dr. Hurwitz received his Ph.D. from the Albert Einstein College of Medicine in 1994. He continued his training at University of California, Berkeley as a postdoctoral trainee with Dr. Jim Allison. In 1999, Dr. Hurwitz was appointed assistant professor of microbiology and immunology and urology at SUNY Upstate Medical University in Syracuse, NY. His research program moved to the Center for Cancer Research at the NCI in 2003.

Terri M. Laufer, M.D.
University of Pennsylvania School of Medicine

Dr. Laufer, AAI ’99, has provided vital leadership in AAI initiatives to foster development of the field of immunology. A member since 1999, Dr. Laufer has served as the director of the AAI Introductory Course in Immunology from 2006–2010 and co-director for 2011. She has determined the course content and engaged exceptional scientists to serve as faculty, making the course the most comprehensive and reputable introduction to immunology available. Her leadership in the community has also included service on the AAI Finance and Clinical Immunology Committees. At the AAI annual meeting, she has organized and chaired symposia and workshops and also volunteered her time generously to career development activities.

Dr. Laufer received her M.D. from Columbia University in 1987 and is now an associate professor at the University of Pennsylvania School of Medicine.

Nancy E. Street, Ph.D.
University of Texas Southwestern Medical Center

Dr. Street, AAI ’91, has provided immeasurable service to AAI in her two terms as chair of the AAI Membership Committee. During her tenure as chair, AAI has attained a record number of members. Dr. Street has interacted with hundreds of members personally to encourage both their membership and their participation in AAI activities. She also implemented an accelerated review process for new-membership applicants and introduced a new-member orientation program at the AAI annual meeting. Prior to chairing the Membership Committee, Dr. Street served on the AAI Committee on the Status of Women (1997–2000) and the AAI Education Committee (2000–2003).

Dr. Street obtained her Ph.D. from the University of Texas Southwestern Medical Center in 1987. She served a three-year fellowship at the DNAX Research Institute of Cell and Molecular Biology prior to returning to the University of Texas Southwestern Medical Center, where she currently serves as associate dean of the Graduate School of Biomedical Sciences.
# 2011 AAI Trainee Achievement and Junior Faculty Awards

## Cynthia Chambers Memorial–Ebioscience Junior Faculty Award

To advance the careers of junior scientists who attend the AAI Annual Meeting for the purpose of presenting immunology research specifically in the area of cancer biology

*Support for this award is generously provided through an endowment from Ebioscience, Inc.*

**William L. Redmond, Ph.D.**
Assistant Professor
Robert W. Franz Cancer Research Center
Earle A. Chiles Research Institute
Providence Portland Medical Center

**Vaishali Moulton, M.D., Ph.D.**
Instructor
Department of Medicine
Beth Israel Deaconess Medical Center
Harvard Medical School

## Pfizer–Showell Travel Award

To recognize the professional promise of an early career investigator

*Support for this award is generously provided through an endowment from Henry J. Showell*

**Shabaana A. Khader, Ph.D.**
Assistant Professor
Division of Infectious Diseases
Department of Pediatrics
University of Pittsburgh School of Medicine

## AAI–Life Technologies Trainee Achievement Awards

To recognize promising trainees in the field of immunology

*Support for these awards has been generously provided by Life Technologies Corporation.*

**Jennifer M. Bomberger, Ph.D.**
Postdoctoral Fellow
Department of Microbiology and Immunology
Dartmouth Medical School

**Jeffrey Mold, Ph.D.**
Postdoctoral Fellow
Division of Experimental Medicine
Department of Immunology
University of California, San Francisco

**Patricia C. Fulkerson, M.D., Ph.D.**
Clinical Fellow
Division of Allergy and Immunology
Cincinnati Children’s Hospital Medical Center

**Moutih Rafei, Ph.D.**
Postdoctoral Investigator
Immunobiology Laboratory
The Institute for Research in Immunology and Cancer
Université de Montréal

**Braedon McDonald**
Graduate Student
Immunology Program
University of Calgary

**Vijay A. K. Rathinam, D.V.M., Ph.D.**
Postdoctoral Fellow
Division of Infectious Diseases and Immunology
University of Massachusetts Medical School
Get a GRIP: An AAI program designed to help new investigators prepare their NIH grant proposals

AAI is pleased to offer a program to match new PI’s with established PI’s who have significant, successful grant writing careers. The Grant Review for Immunologists Program (GRIP) invites new PI’s to submit an outline or NIH-style abstract to the GRIP coordinator who, with the assistance of a small volunteer subcommittee, will attempt to match the topic of the proposal with the research experience of an established PI. Matches will be made as quickly as possible to allow new PI’s to meet upcoming NIH grant deadlines. Participation is strictly voluntary and is not intended to supplant internal mentoring programs.

GRIP is now accepting both new PI and established PI participants. Please send your CV and a brief description of either your potential research project (new PI’s) or grant reviewing experience (established PI’s) to infoaai@aai.org (please write “GRIP” in the subject line).

Program details at www.aai.org/GRIP_rd.htm
