INTRODUCING THE NEW 2012 RESEARCH PRODUCT CATALOG FROM SANTA CRUZ BIOTECHNOLOGY, INC.

FROM THE LEADING SUPPLIER OF RESEARCH PRODUCTS:

- over 17,708 monoclonal and 38,410 polyclonal antibodies
- siRNA, shRNA Plasmid and Lentiviral Particle gene silencers targeted to all (100%) known human and mouse genes
- UltraCruz™, ExactaCruz™, and CrystalCruz™ brand labware
- over 141,000 ChemCruz™ specialty biochemicals
- broad range of support products and secondary antibodies
- website updated daily with new antibodies, biochemicals, labware, product citations and support data

BE A TRAILBLAZER.

The University of Manitoba is a place where you can define your future and your career. Our commitment to discovery and community encompasses everything we do, from the education we offer students to the workplace we create for staff.

The University of Manitoba offers excellent benefits, world-class facilities and an inspirational environment where you can shape your career and make a positive impact every day.

For more information on this opportunity, please visit: umanitoba.ca/employment

Endowed Research Chair in Immunology of Infectious Diseases
Departments of Immunology and Medical Microbiology

The University of Manitoba is conducting a search for the GlaxoSmithKline University Chair Professor of Immunology and Infectious Disease Research.

The successful candidate must be:
- Eligible for appointment at the rank of Associate or Full Professor
- A practicing Clinician Scientist (MD) with appropriate expertise and track record in research, and/or;
- A full time MD/PhD scientist, with a research program related to the Immunology of Infectious Diseases
- Special interest and a proven track record in vaccine and immunization research
- Eligible for certification with the Royal College of Physicians and Surgeons of Canada and licensure with the College of Physicians and Surgeons Manitoba
- Expected to promote and advance multidisciplinary and collaborative studies between basic science and clinical (Adult or Paediatric) research within the disciplines of infectious disease

Transplant Nephrologist

The Section of Solid Organ Transplantation at Dartmouth-Hitchcock Medical Center and Dartmouth Medical School are seeking an accomplished Transplant Nephrologist for the Hampton’s Chair of Transplant Nephrology. Endowed by Dr. Constantine Hampton to support translational science in transplant medicine, this is a unique opportunity for an established, productive physician-scientist to enhance our growing transplantation program. The successful candidate would be an accomplished clinician/researcher in transplant nephrology with an established track record of successful external funding. Research interests could involve immunology, artificial organ development, health policy, or outcomes research related to transplantation. The candidate should be board certified in Nephrology and UNOS qualified in kidney transplantation. Academic appointment and salary would be commensurate with experience and qualifications.

Dartmouth-Hitchcock Medical Center, located in Lebanon, New Hampshire on the Vermont/New Hampshire border is New Hampshire’s only integrated, academic, Level I trauma center. Home to the prestigous Ivy League Dartmouth College, the Lebanon/Hanover area is a vibrant, academic and professional community offering excellent schools, lively arts, and an unmatched quality of life in a beautiful, rural setting. Dartmouth-Hitchcock Medical Center includes a modern 400-bed tertiary care hospital, research and clinical facilities for Dartmouth Medical School, Norris Cotton Cancer Center and the Dartmouth-Hitchcock Clinic. In addition, we were the first hospital in New Hampshire to receive Magnet status and have been consistently rated one of America’s Best Hospitals by U.S. News & World Report.

Please forward letter of interest, CV and references electronically to:
Brian D. Remillard, MD
c/o Corey Cook
Dartmouth-Hitchcock Medical Center
One Medical Center Drive
Lebanon, NH 03756
