Enhanced biological safety for flow cytometry.
Protecting people, products, and the environment.

A high standard of safety.

Biological safety in flow cytometry is a growing issue for all labs and another reason you can depend on BD Biosciences to continually innovate to improve your workflow and results.

Biosafety cabinets developed for our instruments provide personal and environmental protection from harmful agents inside the cabinet, as well as prevention of contamination of the cells you’re working with.

BD Biosciences works with a range of cabinet manufacturers for biosafety protection in cell sorting. For more information about these biosafety solutions to ensure the highest level of safety for your lab, visit bdbiosciences.com/go/biosafety.

EDITOR-IN-CHIEF
The Journal of Immunology

The American Association of Immunologists, Inc. (AAI) seeks applicants for the position of Editor-in-Chief (EIC) for its official publication, The Journal of Immunology (The JI).

The primary responsibility of the EIC is to maintain the role of The JI as a definitive resource for immunology research. He or she will do so by ensuring the scientific excellence of the content and integrity of the peer-review process. To that end, the EIC will recommend an editorial board for appointment by the AAI Publications Committee and approval by the AAI Council; be responsible for the oversight of editorial conduct and the peer-review process; address concerns of authors; and make final decisions on manuscript publication. The EIC will address allegations of author misconduct and act in accordance with The JI Editorial Policies and Practices and AAI policy.

The EIC is responsible to the AAI Publications Committee and, ultimately, to the AAI Council, and is an ex officio member of both groups.

Applicants are expected to have an accomplished scientific career with a significant publication record in addition to appropriate editorial experience. Candidates should possess strong leadership qualities, intellectual vision and outstanding interpersonal skills. Applicants must be members of AAI in good standing and are required to reside within the continental U.S.

The term of service for this position is from July 1, 2013, to June 30, 2018. The appointed EIC is expected to overlap with the incumbent EIC starting January 1, 2013, to ensure a smooth transition of responsibilities. This position is considered to be part-time. A stipend and associated expenses are provided.

Interested individuals are invited to submit an application package that includes a curriculum vitae; a succinct letter of interest and qualifications; a statement on the possible conceptual direction of The JI in its pursuit of scientific excellence; and innovations that may be considered.

Applications will be accepted through May 31, 2012. Please mail or e-mail them to:
