2014 Introductory Course in Immunology
July 12–17, 2014
Long Beach Convention Center, Long Beach, California
Director: Juan Carlos Zuñiga-Pflücker, Ph.D.,
University of Toronto and Sunnybrook Research Institute

This intensive two-part course, taught by world-renowned immunologists, provides a comprehensive overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. Part I (July 12–14) is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. Part II (July 15–17) is a clinically oriented lecture series focusing on specialty areas. Parts I and II may be taken independently at the discretion of the student.

2014 Advanced Course in Immunology
July 27–August 1, 2014
Seaport World Trade Center, Boston, Massachusetts
Director: Leslie J. Berg, Ph.D.,
University of Massachusetts Medical School

This intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. Leading experts will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the principles of immunology.
