EDITOR-IN-CHIEF
The Journal of Immunology

The American Association of Immunologists seeks applicants for the position of Editor-in-Chief for The Journal of Immunology

The Journal of Immunology (The JI) is a scholarly, peer-reviewed journal owned and published by The American Association of Immunologists (AAI) – a non-profit, professional association representing almost 8,000 scientists worldwide dedicated to the field of immunology. First published in 1916, The JI is published twice monthly in print and online.

The Editor-in-Chief (EIC) is responsible for maintaining The JI as a definitive resource within the research community. To achieve this goal, the EIC must ensure the scientific excellence of the content and the integrity of the peer-review process. To that end, the EIC will recommend an editorial board for appointment by the AAI Publications Committee and approval by the AAI Council; be responsible for the oversight of editorial conduct and the peer-review process; address concerns of authors; and make final decisions on manuscript publication. The EIC will address allegations of author misconduct and act in accordance with The JI Editorial Policies and Practices, and AAI policy.

The EIC is responsible to the AAI Publications Committee and, ultimately, to the AAI Council, and is an ex officio member of both groups.

Applications are invited from active AAI members in good standing who have an accomplished scientific career, appropriate editorial experience, strong leadership qualities, and vision for the future of The JI.

The term of service for this position is from July 1, 2018 to June 30, 2023. The appointed EIC is expected to overlap with the incumbent EIC starting January 1, 2018, to ensure a smooth transition of responsibilities. A stipend and associated expenses are provided.

Interested individuals are invited to submit an application package that includes a curriculum vitae; a succinct letter of interest and qualifications; a statement on the possible conceptual direction of The JI in its pursuit of scientific excellence; and innovations that may be considered.

Applications will be accepted through July 7, 2017. Please mail or e-mail them to:

Chair
AAI Publications Committee, c/o AAI

2017 INTRODUCTORY COURSE IN IMMUNOLOGY

July 11–16, 2017 | UCLA Luskin Conference Center | Los Angeles, California

Director: Juan Carlos Zúñiga-Pflücker, Ph.D.
University of Toronto and Sunnybrook Research Institute

Don’t miss the most comprehensive introduction to immunology available!

This intensive two-part course, taught by world-renowned immunologists, provides a comprehensive overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. Part I (July 11–13) is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. Part II (July 14–16) is a clinically oriented lecture series focusing on specialty areas.

*Parts I and II may be taken independently at the discretion of the student.*

Faculty

Juan Carlos Zúñiga-Pflücker, University of Toronto and Sunnybrook Research Institute

- Introduction to the Immune System
- MHC Restriction and Thymic Selection
- B Cell Development and Maturation

Lewis L. Lanier, University of California, San Francisco

- Innate Immunity: Introduction to the Cells
- Antigen Processing and Presentation

Deborah A. Fraser, California State University Long Beach

- Complement
- Innate Immunity: Introduction to Pattern Recognition and Intracellular Signaling

Helen S. Goodridge, Cedars-Sinai Medical Center

- Innate Immunity: Introduction to Adaptive Immunity

Wendy L. Havran, The Scripps Research Institute

- Introduction to Adaptive Immunity

Nilabh Shastri, University of California, Berkeley

- Antigen Processing and Presentation

Juan Carlos Zúñiga-Pflücker, University of Toronto and Sunnybrook Research Institute

- MHC Restriction and Thymic Selection

David Nemazee, The Scripps Research Institute

- B Cell Development and Maturation

Shannon J. Turley, Genentech, Inc.

- Dendritic Cells: The Bridge Between Innate and Adaptive Immunity

Michael Croft, La Jolla Institute for Allergy and Immunology

- Effector T Cell Differentiation and Response

Shane Crotty, La Jolla Institute for Allergy and Immunology

- B Cell Activation and Humoral Immunity

M. Carrie Miceli, University of California, Los Angeles

- Signaling in the Immune System

Ninan Abraham, University of British Columbia

- Cytokines

Stephen M. Hedrick, University of California, San Diego

- Host-Pathogen Co-evolution in Human Beings: the Red Queen and the Grim Reaper

Megan K. LeVings, University of British Columbia

- T and B Cell Tolerance

Matthias G. von Herrath, La Jolla Institute for Allergy and Immunology

- Autoimmunity

Michelle Hickey, University of California, Los Angeles

- Transplantation

Cathryn Nagler, University of Chicago

- Mucosal Immunology

Marion Pepper, University of Washington

- Type 2 Immunity

Antoni Ribas, University of California, Los Angeles

- Tumor Immunology

Robert L. Modlin, University of California, Los Angeles

- Immunity to Bacterial Pathogens

Elina Zuniga, University of California, San Diego

- Immunity to Viruses

Martin Prlic, Fred Hutchinson Cancer Research Center

- Immunologic Memory

Nicole Frahm, Fred Hutchinson Cancer Research Center

- Vaccination

Robert L. Modlin, University of California, Los Angeles

- Immunologic Memory

Antoni Ribas, University of California, Los Angeles

- Tumor Immunology

Financial support for underrepresented minority scientists is available through the FASEB MARC Program; for details, visit [www.faseb.org/Professional-Development-and-Diversity-Resources/Travel-Awards.aspx](http://www.faseb.org/Professional-Development-and-Diversity-Resources/Travel-Awards.aspx).

For complete course details and registration, visit: [www.aai.org/Education/Courses](http://www.aai.org/Education/Courses)

For assistance, contact (301) 634-7178 or meetings@aai.org. Overseas applicants are advised to apply early for visas; for details, visit [www.aai.org/Education/Courses/Visa.html](http://www.aai.org/Education/Courses/Visa.html).
The Journal of Immunology Influence Statement

Comprehensive • Authoritative • Foundational

The largest and oldest journal in the field offers unparalleled reporting of major advances in immunology research. Fully peer-reviewed by working scientists, reports are rapidly published and broadly cited.

Comprehensive
- Your “first stop” for major advances
- No triage! Every manuscript is peer-reviewed
- Fair, in-depth evaluation of each manuscript
- Submission to first decision: 29 days
- Average time to online publication: 4 weeks
- 4th most frequently used journal for NIH-supported publications

Authoritative
- Cited more than any other immunology journal
- 5-year Impact Factor of 5.287, top 18% of immunology journals
- Ranked #1 for Eigenfactor among immunology journals
- Google Scholar h5-index is 107, 6th in the Immunology category
- The Scimago H-index is 311, equal third amongst 200 Immunology and Microbiology journals

Foundational
- At 9.1 years, the cited half-life is one of the longest in the field!
- Committed to rigorously performed research that moves the field forward
- Over 1.8 million page views and 395,000 PDF downloads per month

The Journal of Immunology (The JI) is owned and published by The American Association of Immunologists, Inc., a non-profit association founded in 1913 that is dedicated to advancing the careers of scientists and promoting the field of immunological research.

1. 2015 Journal Citation Reports
2. Eigenfactor is a “metric that uses citing journal data from the entire Journal Citation Report file to reflect the prestige and citation influence of a journal by considering scholarly literature as a network of journal-to-journal relationships.” http://thomsonreuters.com/content/dam/openweb/documents/pdf/scholarly-scientific-research/fact-sheet/esi-jcr-brochure.pdf, accessed 12/23/15
2017 ADVANCED COURSE IN IMMUNOLOGY

July 23–28, 2017 I Seaport World Trade Center I Boston, Massachusetts

Director: Ulrich H. von Andrian, M.D., Ph.D.
Harvard Medical School and Ragon Institute of MGH, MIT and Harvard

Don’t miss the premier course in immunology for research scientists!
This intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. Leading experts will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the principles of immunology.

Faculty

Ulrich H. von Andrian, Harvard Medical School
Ragon Institute of MGH, MIT and Harvard
Anatomy of the Immune Response

Jonathan C. Kagan, Children’s Hospital Boston
Harvard Medical School
Innate Immunity: Pattern Recognition and Anti-microbial Mechanisms

Bruce Horwitz, Brigham & Women’s Hospital
Harvard Medical School
Innate Immunity: Gene Regulation

Paul Kubes, University of Calgary
Innate Immunity: Cellular Mechanisms

Wayne M. Yokoyama, Washington University School of Medicine
NK Cells — Their Receptors and Function in Health and Disease

John P. Atkinson, Washington University School of Medicine
Complement System in Innate and Adaptive Immunity

Edward M. Behrens, Children’s Hospital of Philadelphia
Dendritic Cells

Eugene M. Oltz, Washington University School of Medicine
The Generation and Modification of Lymphocyte Antigen Receptor Genes

Lisa A. Borghesi, University of Pittsburgh School of Medicine
B Cell Development

Avinash Bhandoola, NCI, NIH
T Cell Development

Kai W. Wucherpfennig, Dana-Farber Cancer Institute
Harvard Medical School
MHC-restricted Antigen Presentation to T Cells

Leslie J. Berg, University of Massachusetts Medical School
Signaling from Antigen Receptors

David Masopust, University of Minnesota Center for Immunology
T Cell Memory

Joshy Jacob, Emory University
B Cell Memory

Arup K. Chakraborty, Massachusetts Institute of Technology
Computational Modeling of Immunological Processes

Brian A. Cobb, Case Western Reserve University School of Medicine
Glycoimmunology

Richard S. Blumberg, Brigham & Women’s Hospital
Mucosal Immunity

Bruce D. Walker, Ragon Institute of MGH, MIT and Harvard
Immune Response to Pathogens

Jennifer Anolik, University of Rochester Medical Center
B Cell Tolerance and Autoimmunity

David A. Hafler, Yale School of Medicine
T Cell Tolerance and Autoimmunity

Jonathan Kipnis, University of Virginia School of Medicine
Neuroimmunology

Leslie H. Butterfield, University of Pittsburgh Tumor Immunology

Joanne L. Viney, JLV Biotech Consulting
Immunotherapeutics

Gary J. Nabel, Sanofi
Vaccines

You have the power.

Your membership in the American Association of Immunologists helps advance the field—and your career.

Being a part of AAI enables you to take an active role in helping to shape the future of immunology and attain your professional goals. You’ll stand with members representing immunological research concerns on Capitol Hill. Plus, you gain access to:

• The best and brightest minds today.
• The world’s largest annual all-immunology meeting.
• *The Journal of Immunology,* the pre-eminent peer-reviewed journal in the field.
• Many occasions and opportunities to present your research.
• Awards/fellowships/grants to support talented scientists in every career stage.

To renew your AAI membership and its contributions to your professional life, call 301.634.7195 or visit www.aai.org today.
