

# THE JOURNAL OF IMMUNOLOGY

*Manuscripts* should be typewritten and carefully revised before submission and should be sent to Dr. Arthur F. Coca, Pearl River, New York, or Dr. John C. Torrey, 1300 York Ave., New York City. Articles in French or German will be accepted for publication. A summary in English, which will be prepared by the editor on request, must accompany such articles. Preliminary reports of not more than three printed pages may be accepted for immediate publication by the editors, provided the authors pay the cost of printing, which amounts to about \$4.50 per page. This plan will cause no delay in the appearance of the normal papers.

THE JOURNAL OF IMMUNOLOGY is issued monthly. Two volumes a year are issued.

*Twenty-five reprints*, without covers, of articles will be furnished to contributors free of cost when ordered in advance. A table showing cost of reprints, with an order slip, is sent with proof.

*Published monthly*, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly. Two volumes per year were published during 1926-1927.)

*The subscription price* is \$5.00 per volume. For countries outside the Postal Union, add 50 cents a volume. Two volumes ordered at the same time, \$9.00; overseas, \$10.00. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Arthur F. Coca, Pearl River, New York. All other subscriptions should be sent to the publishers.

*Claims for copies lost* in the mails must be received within 30 days, domestic (90 days, foreign) of the date of issue. Changes of address must be received at least two weeks in advance of issue.

*Correspondence concerning business matters* should be addressed to The Williams & Wilkins Company, Publishers of Scientific Journals and Books, Mount Royal and Guilford Avenues, Baltimore, U. S. A.

*New subscriptions and renewals* are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be credited to the next volume, and the renewal invoice therefore adjusted accordingly.

*Subscriptions should be renewed promptly*—To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Subscriptions, new or renewal, should be sent to the Publishers or to Agents listed below.

## AGENTS

- For Argentina and Uruguay:* Beutelspacher y Cia, Sarmiento 815, Buenos Aires.
- For Australia:* Angus & Robertson, Limited, 89-95 Castlereagh Street, Sydney.
- For Belgium:* Henri Lamertin, 58 Rue Coudenberg, Bruxelles.
- For the British Empire, except Australia and Canada:* Baillière, Tindall & Cox, 8 Henrietta St., Covent Garden, W C 2, London, England.
- For Canada:* Wm. Dawson & Sons, Ltd., 91 Queen Street East, Toronto.
- For China:* Commercial Press Ltd., Paoshan Road, Shanghai, China.
- For Denmark:* H. Hagerup's Boghandel, Gothersgade 30, Kjobenhavn.
- For France:* Emile Bougault, 48 Rue des Ecoles, Paris.
- For Germany:* B. Westermann Co., Inc., Zimmerstrasse 35-41, Berlin SW-68.
- For Holland:* Scheltema & Holkema, Rokin 74-76, Amsterdam.
- For Japan and Korea:* Maruzen Company, Ltd. (Maruzen-Kabushiki-Kaisha), 6 Nihonbashi Tori-Nichome, Tokyo; Fukuoka, Osaka, Kyoto, and Sendai, Japan.
- For Spain:* Ruiz Hermanos, Plaza de Santa Ana, 13, Madrid.

*Publishers of Scientific Books and Periodicals*

BALTIMORE, U. S. A.

PUBLISHERS OF: *Medicine, Journal of Urology, Journal of Pharmacology and Experimental Therapeutics, American Journal of Tropical Medicine, Journal of Immunology, Journal of Industrial Hygiene, Quarterly Review of Biology, Journal of Bacteriology, Annals of the Pickett-Thomson Research Laboratory, Chemical Reviews, Soil Science, Social Forces, Personnel Journal, Journal of Comparative Psychology, Mental Measurement Monographs, Studies in Psychology and Psychiatry, Occupational Therapy and Rehabilitation, Child Development, The American Journal of Clinical Pathology, Journal of Physical Chemistry, Journal of the Biological Photographic Association, Philosophy of Science, Medico-Legal and Criminological Review.*

## Peptones for Culture Media

### Bacto-Peptone

Bacto-Peptone is the standard peptone for routine bacteriological culture media. It is rich in the nutriments required for bacterial metabolism. Growth of colonies is rapid and luxuriant. Bacto-Peptone is completely soluble in the usual concentrations and has a reaction of pH 7.0 in a 1.0 per cent. solution.

### Proteose-Peptone, Difco

Proteose-Peptone is especially adapted for the cultivation of the pathogenic bacteria whose propagation is usually difficult. The virulence of these organisms may be maintained and prolonged upon culture media containing this peptone. Proteose-Peptone is widely used in the preparation of stable and potent diphtheria toxin, for which it is particularly well suited.

### Neopeptone, Difco

Neopeptone is a peptone which is prepared expressly for the propagation of the delicate and fastidious pathogens. It is free from the toxic fractions which tend to inhibit the development of these organisms. Media prepared with Neopeptone support luxuriant growth of the pathogenic bacteria from relatively small inocula (0.00001 cc).

### Bacto-Tryptone

Bacto-Tryptone was originally developed for use in the indol test. It is well adapted to the nutritional requirements of many organisms, especially the lactic acid bacteria, and is routinely used in the preparation of culture media for these strains.
