THE JOURNAL OF IMMUNOLOGY

Manuscripts should be typewritten and carefully revised before submission and should be sent to Dr. Arthur F. Coca, Pearl River, New York. Authors will be charged for space in excess of 20 printed pages; also for all illustrations and for tabular matter in excess of 10 per cent of the text space.

The JOURNAL OF IMMUNOLOGY is issued monthly. Two volumes a year are issued. Twenty-five reprints, without covers, of articles will be furnished to contributors free of cost when ordered in advance. A table showing cost of reprints, with an order slip, is sent with proof. Orders for purchased reprints must be limited to 1,000 copies.

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly. Two volumes per year were published during 1926-1927.)

The subscription price is $5.00 per volume. For countries outside the Postal Union, add 50 cents a volume. Two volumes ordered at the same time, $9.00; overseas, $10.00. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Arthur F. Coca, Pearl River, New York All other subscriptions should be sent to the publishers.

Claims for copies lost in the mails must be received within 30 days, domestic (90 days, foreign) of the date of issue. Changes of address must be received at least two weeks in advance of issue.

Correspondence concerning business matters should be addressed to The Williams & Wilkins Company, Publishers of Scientific Journals and Books, Mount Royal and Guilford Avenues, Baltimore, U. S. A.

New subscriptions and renewals are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be credited to the next volume, and the renewal invoice therefore adjusted accordingly.

Subscriptions should be renewed promptly—To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Subscriptions, new or renewal, should be sent to the Publishers or to Agents listed below.

Antigens for the Diagnosis of Syphilis

This group of antigens is prepared solely for the laboratory diagnosis of syphilis by means of the more generally employed complement-fixation, precipitation and flocculation tests.

**Bacto-Kolmer Antigen**

Bacto-Kolmer Antigen is prepared expressly for use in the Kolmer modification of the complement-fixation test. It is high in its antigenic properties and low in anticomplementary and hemolytic titer.

**Bacto-Kolmer Antigen (New)**

Bacto-Kolmer Antigen (New) is prepared strictly in accordance with Dr. Kolmer’s recent modification. The antigen is extremely sensitive and highly antigenic without increased anticomplementary or hemolytic properties.

**Bacto-Kahn Standard Antigen**

Bacto-Kahn Standard Antigen is recommended for use in the routine procedures of the Kahn test. The extract is highly sensitive. No lot is released without examination and approval by Dr. Kahn’s laboratory.

**Bacto-Kahn Sensitized Antigen**

Bacto-Kahn Sensitized Antigen is prepared for use in the presumptive procedures of the Kahn system. Each lot is titrated and approved in Dr. Kahn’s laboratory.

**Bacto-Eagle Wassermann Antigen**

Bacto-Eagle Wassermann Antigen is recommended expressly for use in the Eagle modification of the Wassermann reaction. It is a sensitive and stable antigen.

**Bacto-Eagle Flocculation Antigen**

Bacto-Eagle Flocculation Antigen is prepared solely for use in the flocculation test for syphilis devised by Dr. Eagle. Samples of each lot are submitted to Dr. Eagle for approval before release.

**Bacto-Hinton Antigen**

Bacto-Hinton Antigen is recommended for use in the Hinton test for syphilis. It is prepared strictly in accordance with Dr. Hinton’s published procedures.
