Information for Contributors and Subscribers

Correspondence relating to articles and papers for publication should be sent to Managing Editors, 55 Shattuck St., Boston, Mass. English manuscripts submitted for publication should be sent to Dr. Thomas Bedford, Keppel Street, London. Austrian and German manuscripts should be sent to Dr. L. Teleky, 19-Silbergasse, Vienna.

Articles submitted should be typed and double spaced and original copy only submitted. The journal accepts articles with the understanding that they are subject to editorial revision. All articles are subject to copyright and may not be used without authority elsewhere. Articles not used will be returned only if return postage is sent. Acceptance of articles for publication does not imply editorial agreement with the contributor’s point of view.

A table showing the cost of additional reprints, with an order slip, is sent with proof. Correspondence concerning business matters should be sent to The Williams & Wilkins Company, Mt. Royal and Guilford Avenues, Baltimore, Maryland.

The numbers will be issued ten times a year, beginning in January. July and August issues will be omitted. The volumes consist of about 500 pages, and approximately 144 pages of abstracts. A volume will be issued within the year for which it is current.

The Subscription Price: $6.00 per volume in the United States and countries within the postal union: $6.50 in countries outside the postal union. Prices are net, postpaid.

Claims for copies lost in the mail must be received within 30 days (90 days foreign) after the date of issue. Changes of address must be received at least two weeks in advance of issue.

New subscriptions and renewals are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be credited to the next volume and the renewal invoice adjusted accordingly.

Subscriptions should be renewed promptly. To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals. Whenever possible back numbers will be supplied at $.75 each.

Bacto Antigens for Serologic Detection of Syphilis

Bacto Antigens are prepared expressly for the serologic detection of syphilis by means of the more generally employed complement-fixation, precipitation and flocculation tests. Bacto Antigens are tested for sensitivity and specificity in laboratories designated for that purpose by the proponents of the tests for which they are specified. No Bacto Antigen is released for distribution until it has been so approved. Bacto Antigens are stable for long periods of time if kept tightly stoppered at room temperature.

- **Bacto-Kolmer Antigen** .................. for the Kolmer modification of the complement-fixation test for syphilis.
- **Bacto-Kolmer Antigen (New)** ............ a more sensitive antigen for the Kolmer test.
- **Bacto-Eagle Wassermann Antigen** ........ for the Eagle modification of the Wassermann test.
- **Bacto-Kahn Standard Antigen** ............ for routine procedures of the Kahn test with serum and spinal fluid.
- **Bacto-Kahn Sensitized Antigen** .......... for presumptive procedures of the Kahn precipitation system.
- **Bacto-Eagle Flocculation Antigen** ........ for the Eagle flocculation test.
- **Bacto-Hinton Indicator** .................. for the Hinton glycerol-cholesterol reaction.

The use of these approved antigens assures the serologist that the principal reagent employed in the test is of satisfactory sensitivity and specificity.
