Laboratory Reagents

Laboratory technicians, bacteriologists and diagnosticians find it convenient and economical to use the Mulford Biological Laboratory Reagents. We offer

Variety of products to meet individual preference and variations in technique;

Specificity in chemical and biological properties, combined with high titres, assuring

Reliability in your serological tests, to be gained only by using accurately standardized Laboratory Reagents.

Adaptability to your needs is met by supplying various sizes and kinds of market containers.

Partial List

Agglutinating Serums
of absolute specificity and high titre for the differentiation of closely related types of organisms, such as

Bacillus Typhosus, Bacillus Paratyphosus "A" and Bacillus Paratyphosus "B."

Pneumococcus Type I, Pneumococcus Type II and Pneumococcus Type III.

Meningococcus Type I, Meningococcus Type II, Meningococcus Type III, Meningococcus Type IV (Gordon).

Bacillus Dysentery Polyvalent (agglutinates 36 strains) and Bacillus Dysentery Shiga and Bacillus Dysentery Flexner.

Reagents for the Wassermann Reaction

Antigens.—Plain alcoholic extract of heart tissue.

Alcoholic extract of heart tissue fortified with Cholesterin.

Acetone insoluble fraction of alcoholic extract of heart tissue (Noguchi Antigen).

Hemolysins.—Anti-Sheep Amboceptor Serum and Anti-Sheep Amboceptor Serum dried on paper.

Anti-Human Amboceptor Serum and Anti-Human Amboceptor Serum dried on paper.

Colloidal Gold. The Lange Test for Neuro-Syphilis.

Luetin. An extract of killed cultures of Treponema Pallidum, for diagnosis of syphilis by the intradermic test. In intradermic syringe, ready for use.

Inquiries are invited concerning these and any other Biological Laboratory Reagents.

IMPORTERS AND MANUFACTURERS OF
Chemical Apparatus, Chemicals, Laboratory and Assay Supplies Generally

We have the stock and can make prompt delivery

SPECIALTIES:
Best Grade of American Glassware, "Non-Sol," "Perfection," "Pyrex" and "Fry"
Munktell, Whatman and H. H. C. Co's. crimped white Filtering Paper, low in ash and filtering rapidly, especially manufactured for us in America
Coors Best American Porcelain Ware
Troemner & Beeker Balances and Weights, Platinum, Wire, Foil and Ware
Fused Silica Laboratory Utensils "Vitreosil"
Hanovia Pure Transparent Quartz Glass, Alundum Ware
Hoskins' Electric Furnaces, Chatelier's Pyrometers, Bausch and Lomb Microscopes and Accessories
Hydrometers and Thermometers of every description
Chemically Pure Acids and Ammonia, Molybde Acid and Molybdate of Ammonia
Merck's, Baker & Adamson's and J. T. Baker Chemical Co's Chemicals and Reagents
Caustic Potash and Soda, purified in sticks and pure by alcohol, Acetate of Lead, Cyanide Mixture,
Soda Ash and Commercial Caustic Soda

We carry a very large and complete stock of everything used in the laboratory and solicit your orders or inquiries. There is nothing in the chemical line which we cannot furnish. You will find us prompt, courteous and reliable.

In our Glassblowing Establishment we can produce any Apparatus, no matter how complicated
