This information is current as of May 23, 2018.

Why *The JI*? [Submit online.](#)

- **Rapid Reviews! 30 days*** from submission to initial decision
- **No Triage!** Every submission reviewed by practicing scientists
- **Fast Publication!** 4 weeks from acceptance to publication

**average*

- Subscription** Information about subscribing to *The Journal of Immunology* is online at:
<http://jimmunol.org/subscription>
- Permissions** Submit copyright permission requests at:
<http://www.aai.org/About/Publications/JI/copyright.html>
- Email Alerts** Receive free email-alerts when new articles cite this article. Sign up at:
<http://jimmunol.org/alerts>

The Journal of Immunology is published twice each month by
The American Association of Immunologists, Inc.,
1451 Rockville Pike, Suite 650, Rockville, MD 20852
All rights reserved.
Print ISSN: 0022-1767 Online ISSN: 1550-6606.

CONTENTS

NUMBER 1, JANUARY, 1921

Microbial Studies on Acute Respiratory Infection with Especial Consideration of Immunological Types. William H. Park, Anna W. Williams and Charles Krumwiede.....	1
Studies on Acute Respiratory Infections. I. Methods of Demonstrating Microorganisms, Including "Filterable Viruses," from Upper Respiratory Tract in "Health" in "Common Colds" and in "Influenza" with the Object of Discovering "Common Strains." Anna W. Williams, Mary Nevin and Caroline R. Gurley.....	5
II. A Study of the Serological Relationships of Pneumococci from the Upper Respiratory Tract with Special Reference to Common Colds and Influenzal Conditions. Georgia M. Cooper, Lucy Mishulow and Ninette E. Blanc.....	25
III. Relationship to Upper Respiratory Infections of Streptococci Producing a Green Zone on Standard Blood Agar Plates (Smith and Brown Alpha Type). Anna W. Williams, Aarlaug Unneberg, Agnes Goldman and Helena Hussey.....	53
IV. Further Studies on Grouping of Influenza Bacilli with Special Reference to Permanence of Type in the Carrier. Olga R. Povitzky and Helen T. Denny.....	65
V. Accidental Inoculation of Influenza Bacilli on the Mucous Membranes of Healthy Persons with Development of Infection in at Least One. Persistence of Type Characteristics of the Bacilli. William H. Park and Georgia Cooper.....	81
VI. A Serological Study of the Bacillus of Pfeiffer. Arthur F. Coca and Margaret F. Kelly.....	87
VII. Report on the Prophylactic Vaccination of 1536 Persons Against Acute Respiratory Diseases, 1919-1920. Anna I. von Sholly and William H. Park.....	103

NUMBER 2, MARCH, 1921

Antibody Studies. I. Reversal of the Antigen-Antibody Reaction. F. M. Huntoon.....	117
Antibody Studies. II. The Recovery of Antibody from Sensitized Antigens: Technic. F. M. Huntoon and S. Etris.....	123
Antibody Studies. III. Chemical Nature of Antibody. F. M. Huntoon, P. Masucci and E. Hannum.....	185

NUMBER 3, MAY, 1921

A Note on the Claim that Agglutinins are Lipoidal in Nature. Charles Krumwiede and W. Carey Noble.....	201
--	-----

The Relation between the Absorption of Antibodies and the Isolated Protein Bodies. Rokuro Umemura.....	205
Specificity of Anti-organ Sera. Moyer S. Fleisher and Natalie Arnstein ...	223
Polyvalent Antibody Response to Multiple Antigens. F. M. Huntoon and S. H. Craig	235

NUMBER 4, JULY, 1921

A Test-Tube Rack for Serological Work. Olin Deibert.....	249
Immunological Experiments with Catalase. Theo. C. Burnett and Carl L. A. Schmidt.....	255
The Value of Tissue Extracts of Virus Pigs in the Production of Anti-Hog Cholera Serum. Thomas P. Haslam.....	263
Observations on the Agglutinative and Hemolytic Action of Calf Serum on Sheep Cells. Frank Maltaner and Elizabeth Johnston.....	271
Immunological Experiments with Denatured and Insoluble Proteins. Carl L. A. Schmidt.....	281

NUMBER 5, SEPTEMBER, 1921

On the Essential Identity of the Antibodies. Hans Zinsser.....	289
Studies on Acute Respiratory Infections. VIII. A Study of the Cultural and Serological Relationship of Hemolytic Streptococci Isolated from Inflammatory Conditions of the Respiratory Tract. Eugenia Valentine and Lucy Mishulow.....	301
Studies on Acute Respiratory Infections. IX. Difference in the Character of the Hemolytic Action of Streptococci and the Relative Value of Various Methods in Demonstrating These Differences. Lucy Mishulow.	329
Studies on Acute Respiratory Infections. X. The Nature and Value of a So-Called Precipitin Reaction as Applied to the Serological Grouping of Streptococci. Charles Krumwiede and Eugenia Valentine.....	343
Observations upon the Conglutination Phenomenon. Frank Maltaner and Elizabeth Johnston.....	349
Complementing Activity of the Blood Serum with Relation to Adrenal Deficiency. Enrique E. Ecker and J. M. Rogoff.....	355
Hereditary Blood Qualities. Medicolegal Application of Human Blood Grouping. Reuben Ottenberg.....	363

NUMBER 6, NOVEMBER, 1921

The Reaction of the Rat to Diphtheria Toxin. With Observations on the Technic of the Roemer Method of Testing Diphtheria Toxin and Antitoxin. Arthur F. Coca, Ernest F. Russell and William H. Baughman.	387
The Action of Bacterial Culture Products on Phagocytosis. Augustus B. Wadsworth and E. N. Hoppe.....	399
The Action of Leucocytes and Brain Tissue on Diphtheria and Tetanus Toxins. Augustus B. Wadsworth and R. Vories.....	413
The Specific Antigenic Properties of the Four Groups of Human Erythrocytes. Sanford B. Hooker and Lillian M. Anderson.....	419
The Influence of Temperature Upon the Agglutination of the Red Blood Corpuscles. Fredrik Jervell.....	445
