## CONTENTS

**NUMBER 1, JULY, 1950**

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Effect of Adrenocorticotrophic Hormone on Circulating Antibody Levels.</td>
<td>Joan A. de Vries</td>
<td>1</td>
</tr>
<tr>
<td>A Nomographic Probit Solution for the Median Effective Dose (ED₅₀).</td>
<td>Walter Koch and Deborah Kaplan</td>
<td>7</td>
</tr>
<tr>
<td>A Quantitative Complement Fixation Test: Titration of Luetic Sera by the Unit of 50 Per Cent Hemolysis.</td>
<td>George J. Stein and Dang Van Ngu</td>
<td>17</td>
</tr>
<tr>
<td>The Action of Enzymes in Hemagglutinating Systems. II. Agglutinating Properties of Trypsin-Modified Red Cells with Anti-Rh-Sera.</td>
<td>Warren E. Wheeler, A. Leonard Luhby and Mary Louise L. Scholl</td>
<td>39</td>
</tr>
<tr>
<td>Antigen-Antibody Reactions in Agar, I. Complexity of Antigen-Antibody Systems as Demonstrated by a Serum-Agar Technic.</td>
<td>J. Munoz and Elmer L. Becker</td>
<td>47</td>
</tr>
<tr>
<td>Tuberculostatic Activity of Blood and Urine From Animals Given Gliotoxin.</td>
<td>Ralph Tompsett, Walsh McDermott and John G. Kidd</td>
<td>59</td>
</tr>
<tr>
<td>A General Method for the Specific Purification of Antiprotein Antibodies.</td>
<td>L. A. Sternberger and David Pressman</td>
<td>65</td>
</tr>
<tr>
<td>The Hypotensive Action of Influenza Virus on Rats.</td>
<td>Hsioh-Teh Chang and J. Emerson Kemp.</td>
<td>75</td>
</tr>
<tr>
<td>Anti (Streptococcal Desoxyribonuclease. Occurrence in the Sera of Patients Treated with Streptococcal Concentrates Containing Streptodornase.</td>
<td>George N. Hazelhurst.</td>
<td>85</td>
</tr>
<tr>
<td>Quantitative Studies of the Relationship Between Fecal and Serum Antibody.</td>
<td>Marion Elliott Koashland and William Burrows.</td>
<td>93</td>
</tr>
<tr>
<td>Serological Relationships Existing Between Bacterial Parasites and Their Hosts. I. Antibodies in Human Blood Serum for Native Intestinal Bacteria.</td>
<td>Hazel B. Gillespie, Madje Stacy Steber, Elizabeth Netto Scott and Yvonne Serett Christ</td>
<td>105</td>
</tr>
<tr>
<td>Serological Relationships Existing Between Bacterial Parasites and Their Hosts. II. The Agglutination of Intestinal Bacteria by Blood Serum from Human Beings and Animals not Known to Carry the Strains Tested.</td>
<td>Hazel B. Gillespie, Madje Stacy Steber and M. Harriet Waugh.</td>
<td>115</td>
</tr>
<tr>
<td>Cytochemical Studies on the Intranuclear Inclusion of Herpes Simplex.</td>
<td>Helen B. Crouse, L. L. Coriell, H. Blank and T. F. McNair Scott.</td>
<td>119</td>
</tr>
<tr>
<td>The Effect of Terramycin on the PRS Strain of Influenza A Virus in Chick Embryos and Mice.</td>
<td>J. W. Vinson and F. Tracey Walsh.</td>
<td>129</td>
</tr>
<tr>
<td>Studies on the Protective Effect of Gamma Globulin Against Herpes Simplex Infections in Mice.</td>
<td>F. S. Cheever and George Daikos.</td>
<td>135</td>
</tr>
</tbody>
</table>

**NUMBER 2, AUGUST, 1950**

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Combined Active-Passive Re-Immunization against Tetanus in Previously Immunized Individuals: Experimental and Clinical Evidence.</td>
<td>John J. Miller, Jr. and Mary Louise Ryan.</td>
<td>143</td>
</tr>
<tr>
<td>The Antigenic Relationships of Certain Viruses Capable of Producing Encephalitis in Mice. As Shown by Complement Fixation Tests.</td>
<td>T. P. Hughes and Alina Perlowagora.</td>
<td>155</td>
</tr>
<tr>
<td>The Antigenic Relationships of Native Antigens of Species of Brucella.</td>
<td>Sidney J. Silverman and Sanford S. Elberg.</td>
<td>163</td>
</tr>
<tr>
<td>A New Method for the Large-Scale Production of High-Titre Botulinum Formol-Toxoid Types C and D. M. Sterne and L. M. Wenzel.</td>
<td>-</td>
<td>175</td>
</tr>
<tr>
<td>The Action of Aureomycin and Other Chemotherapeutic Agents in Experimental Brucellosis.</td>
<td>Abraham I. Braude and Wesley W. Spink.</td>
<td>185</td>
</tr>
<tr>
<td>The Interchangeability of the Complement Components of Different Animal Species. II. In the Hemolysis of Sheep Erythrocytes Sensitized with Rabbit Amboceptor.</td>
<td>Christine E. Rice and C. N. Crowson.</td>
<td>201</td>
</tr>
</tbody>
</table>
Q Fever in California. II. Recovery of \textit{Coxiella burnetii} from Naturally Infected Air-Borne Dust. Paul D. DeLay, Edwin H. Lennette and Kenneth B. DeOme. 211

Differences in Toxicity of the S- and R-Variants of \textit{Shigella dysenteriae}. Chloe Tal. 221

A Comparison of Influenza Complement Fixation Antigens Derived from Allantoic Fluids and Membranes. Maria Wiener Kirber and Werner Henle. 229

Evaluation of the Agglutination of Erythrocytes Sensitized by Newcastle Disease Virus (NDV) as a Serologic Test in Infectious Mononucleosis. Lawrence Kilham. 245

The Egg-White Inhibitor of Influenza Virus Hemagglutination. III. Stability in Relation to the Preparation of a Standard of Activity. Frank Lanni, Yvonne Théry Lanni and J. W. Beard. 269

Hemagglutinating Substances for Human Cells in Various Egyptian Plants. William C. Boyd. 281

A Comparison of Physicochemical Measurements of Hyaluronidase and of Neutralizing Antibodies Thereto. T. N. Harris and Susanna Harris. 297

The Egg-White Inhibitor of Influenza Virus Hemagglutination. IV. Stability of the Preparation of a Standard of Activity. Frank Lanni. 297

Hemagglutinating Substances for Human Cells in Various Egyptian Plants. William C. Boyd. 297

The Electron Microscopy of Fowl Pox Virus within the Chorioallantoic Membrane. Councilman Morgan and Ralph W. G. Wyckoff. 303

\textbf{NUMBER 3, SEPTEMBER, 1950}

Comparative Immunizing Capacity of BCG and the Proteins and Polysaccharides in Tubercle Bacillus Culture Filtrates. Florence B. Seibert. 297

Immunological Studies of Three Antitoxin Containing Globulin Fractions of the Horse. B. V. Jager, Emil L. Smith, Harry Bernhisel and Louise A. Jager. 311

Studies on Haemagglutination with the GDVII Strain of Murine Eencephalomyelitis. L. B. Fastier. 323

Agglutinin Response to Intradermal Tests for Sensitivity to the \textit{Brucella}. Charles M. Carpenter, Carl J. Deboer, Sidney J. Klein and Clinton E. Tempereau. 331

An Agglutination-Inhibition Test Proposed as a Standard of Reference in Influenza Diagnostic Studies. Committee on Standard Serological Procedures in Influenza Studies. 347

\textbf{NUMBER 4, OCTOBER, 1950}

Complement Fixation and Weil-Felix Reaction in Rabbits Inoculated with \textit{Bartonella bacilliformis}. J. D. Reese, M. E. Morrison and E. M. Fowler. 355

Cellular Changes in Rabbits during Antibody Formation. II. Multiple Antigen Injections. Crichton McNeil. 359

Neutralization and Hemagglutination Inhibition of Swine Influenza Virus by Serum from Suckling Swine and by Milk from their Dams. George A. Young, Jr. and Norman R. Underdahl. 369

The Separation of a Protective Antigen from a Toxin-Producing Strain of \textit{Hemophilus pertussis}. Kenneth C. Robbins and Louis Pillemer. 393

The Antigenicity of \textit{Shigella sonnei}. Sara E. Branham and Sadie A. Carlin. 407

Comparison of Seven Antibiotics against \textit{Hemophilus pertussis} Infection in Chick Embryos. George Gee Jackson, Mildred W. Barnes and Maxwell Finland. 419

Immunology and Preservation of the Norm. Thomas Francis, Jr. 437
CONTENTS

NUMBER 5, NOVEMBER, 1950

The Occurrence of Salmonella Factor I in Different Type of Bacteria as Shown by a Serologically Cosmopolitan Paracolon Bacterium. Rolf Saxholm 443

Studies on Commercial Typhus Vaccines. II. The Antigenic Fractions of Disrupted Epidemic Typhus Rickettsiae. Leslie A. Chambers, Seymour S. Cohen and Jean R. Clawson 459

Studies on Commercial Typhus Vaccines. III. The Concentration and Isolation of the Rickettsia-Specific Soluble Antigen of Commercial Typhus Vaccine. Seymour S. Cohen, Leslie A. Chambers and Jean R. Clawson 465

Studies on Commercial Typhus Vaccines. IV. The Chemical Composition of Commercial Typhus Vaccine. Seymour S. Cohen 475

Purification of the Bovine γ-Globulin Factor Which Suppresses Variation in Brucella abortus. Leonard J. Cole 485

The Effect of Pteroylglutamic Acid on Some Immune Responses of Chicks. P. A. Little, J. J. Oleson and P. K. Roesch 491

The Interchangeability of the Complement Components of Different Species. II. In Conglutination. Christine E. Rice 499

The Suppressive Effect of Antimicrobial Drugs on Brucella melitensis Infection in Mice. Charles A. Werner and Vernon Knight 509

Rho as an Antigen Label in the Circulating Serum of Non-Immune Rabbits. William C. Knox and Frances C. Endicott 523

The Zone of Localization of Antibodies. IX. The Properties of Anti-Rat-Lung Serum. Herman N. Eisen, Beila Sherman and David Pressman 543

The Zone of Localization of Antibodies. X. The Use of Radioactive Sulfur 35 as a Label for Anti-Kidney Serum. David Pressman, Herman N. Eisen, Malcolm Siegel, Patrick J. Fitzgerald, Beila Sherman and Arthur Silverstein 559

Study of Infectivity and Hemagglutination of Influenza Virus in Deembryonated Eggs. Hans Bernkopf 571

The Sedimentable Components of Influenza Virus Propagated in Deembryonated Eggs. Martin Hanig and Hans Bernkopf 585

The Immunochromy of Toxins and Toxoids. VII. Further Studies on the Solubility of Diphtherial Toxoid in Methanol-Water Mixtures of Controlled pH, Ionic Strength and Temperature. Louis Pillemer, Judith Bentoff, Eleanor Brown and Irwin H. Lepow 591

The Immunochromy of Toxins and Toxoids. VIII. Further Studies on the Solubility of Tetanal Toxoid in Methanol-Water Mixtures of Controlled pH, Ionic Strength and Temperature. Louis Pillemer and Judith Bentoff 599

NUMBER 6, DECEMBER, 1950

Quantitative Studies on the Serologic Relationships of Fungi. S. B. Salvin 617
Studies on the Hemagglutinin of Hemophilus pertussis. Elizabeth H. Thiele .......... 627
Antibody Production in the Rabbit’s Cornea. Richard Thompson and Howard Olson . 633
Treatment with Chloramphenicol, Aureomycin, and Terramycin of the Pneumonia of Mice Caused by Feline Pneumonitis Virus. Yale Kneeland, Jr. and Katherine Mills Price.......................... 653
In Vivo Antibiotic Production by Escherichia coli. Seymour P. Halbert and Lois S. Swick .......................................................... 675
The Enhancement of Anaphylaxis in Albino Mice with the Aid of Adjuvants. Albert H. Wheeler, Ella M. Brandon and Helene Petrenco .................. 687
Recovery of Two Distinct Haemagglutinins of Vaceinia Virus. Anne L. Gillen, Muriel M. Burr and F. P. Nagler .............................................................. 701
Agglutinin Nitrogen in Staphylococcus Antisera. M. Jeanne Kahnke ................. 707
Study of an American Negro Family with the Rare Rh Genotype rPr (CdE/cde). Som-sak Phansomboon and Otakar J. Pollak ................................. 711
Index .............................................................................. 715
