INDEX

Ackermann, W. Wilbur, 71
Adjuvant, aluminum, factors affecting efficiency of, in diphtheria and tetanus toxoids, 301
Agglutination of human red blood cells, effect of ficin on, 192
Allergic encephalomyelitis, after the excision of the injection site of antigen-adjuvant emulsion, 454
Aluminum phosphate, purification of influenza viruses by adsorption on, 155
Anaphylactic shock, factors determining decrease of complement activity in, 85
Anthrax, studies on immunity in, 129
Antibody patterns, poliomyelitis, in natives of Tahiti and Raiatea, 249
— production by thymus and Peyer's patches, 203
Antigenicity of β-propiolactone inactivated virus vaccines, 123
Antiglobulin serum, reaction between normal human red blood cells and, 423
Antitoxin, diphtheria, immunologic properties of a form of, 105
—, —, in vitro production by tissues of immunized animals, 214
Auerbach, Sidney, 129
Azoproteins, metabolic fate of isotopically labelled, 417
Bachtold, J. G., 475
Bacillus anthracis, immunizing activity of protective antigen against, 129
Bacterium tularense, electron microscopically revealed structural elements of, 7
Bachrach, H. L., 186
Bell, E. J., 57
Bennett, Blair M., 239
Berg, Gerald, 410
Bernet, Carl P., 330
Bernstein, Alan, 308, 326
Blood cells, human red, effect of ficin on agglutination of, 192
Bolyn, A. E., 441, 450
Boyden, Stephen V., 15, 22
Bubel, H. C., 475
Bunyamwera virus, hemagglutinins of, 470
Cadilek, Arthur E., 308
Cairns, H. J. F., 326
Callis, J. J., 186
Canine kidney, antigenic composition of structures of, 96
Cheever, F. Sargent, 161
Chin, Paul H., 321
Clarke, D. H., 470
Clostridium welchii type A theta toxin, purification of, 50
Coleman, V. R., 28
Complement activity, factors determining the decrease in, in anaphylactic shock, 85
— fixation, kinetic studies on, 137, 146
—, reaction stages in, 63
—, use of antigen prepared by desoxycholate extraction in, 348
—, human, studies on inactivation by plasmin and antigen antibody aggregates, 63
Crocker, T. Timothy, 239
Cytopathogenic effects of antiserum to human malignant epithelial cells on HeLa cell culture, 478
Davenport, F. M., 401
De Boer, Carl J., 308
Dicumarol, inhibition of local Shwartzman reaction by, 167
Dimethylbenzimidazole, 2,5, prevention of virus interference by, 43
Diphtheria antitoxin, immunologic properties of a form of, 105
—, —, in vitro production of by immunized animal tissue, 214
— toxin and toxoid in the study of delayed hypersensitivity in man, 259
— toxoid, factors affecting efficiency of aluminum adjuvant in, 301
Double diffusion, specific precipitation in egg white by, 367
Downs, Cora M., 35
Egg white, studies on, 367
Eichbaum, F., 167
Electron microscopy of Bacterium tularense, 7
Electrophoretic examinations of thyroid extracts, 291
Encephalomyelitis, allergic, after the excision of the injection site of antigen adjuvant emulsion, 454
INDEX

— growth of in murine nervous tissue tumors, 134
— virus, mouse, growth curves of, 410
Enders, John F., 391
Epilepsy, absence of neutralizing antibodies against WEE in sera of children with, 330
Farber, Miriam B., 112
Favour, Cutting B., 209
Fevurly, James, 35
Ficin, effect on agglutination of human red blood cells, 192
Francis, T., Jr., 401
Freund, Jules, 454
Friedberg, Wallace, 315
Gebhardt, L. P., 475
Gel precipitin patterns of Pasteurella pestis, role of serum proteins in, 265
Ginsberg, Harold S., 430
Goodman, Morris, 96
Greenspon, Seymour A., 96
Hale, William M., 203
Harris, Susanna, 112
Harris, T. N., 112
Hartman, Frank W., 123
Haurowitz, Felix, 315, 417
HeLa cell culture, cytopathogenic effect of antiserum to human malignant epithelial cells on, 478
Hemagglutination inhibition, studies on, 35
— test, Middlebrook-Dubos, 22
— tannic acid, 15
Hemagglutinins of Semliki Forest and bunyamwera viruses, 470
Hennessy, A. V., 401
Herpes simplex, studies on, 28
Hess, W. R., 186
Hill, Betsy M., 137, 146
Histoplasmosis, experimental in mice, 1, 57
Hoggan, M. D., 265
Horstmann, Dorothy M., 249
Hyperimmune antiserum, use in experimental Western equine encephalomyelitis, 308
Hypersensitivity in man, delayed; diphtheria toxin and toxoid in the study of, 259
— mice with experimental histoplasmosis, 1
Immunity, cellular, of monkeys versus antibody titers after oral inoculation with poliomyelitis virus, 475
— in anthrax, studies on, 129
Immunoechemical studies on blood groups, 171
Immunoelectrophoretic analysis, specific precipitation in egg white by, 367
Immunologic comparison of strains of herpes simplex, 28
— properties of a non-precipitating diphtheria antitoxin, 105
— reactions, role of structural elements of Bacterium tularense in, 7
— studies with fractions of Treponema pallidum, 348
Influenza viral pneumonia in mice, suppression of by xerosin, 430
— viruses, differentiation and purification of, 155
— virus, growth curves of, 410
—, multiplicity reactivation of, 326
—, studies of antibodies to strains of in post-epidemic sera, 401
Intraocular transplants, 203
Isotope tagged tuberculin, in vivo uptake of by leukocytes, 209
Isotopically labelled proteins, metabolic fate of, 417

— Jawetz, E., 28
— Jensen, Keith E., 71
— Jocheim, Kurt-Alphonse, 410
— Jones, Alan Richardson, 423
— Kabat, Elvin A., 171
— Kalter, Seymour S., 410
— Kaminski, Marie, 367
— Kamitsuka, Paul, 356
— Kaplan, William, 225
— Kibrick, Sidney, 391
— Kidney, canine, antigenic composition of structures of, 96
— Kinetic studies of complement fixation, 137, 146
— Kraft, Lisbeth M., 249
— Krakower, Cecil A., 96
— Krebs 2 carcinoma, interaction with meningopneumonitis virus, 377, 386
— Kuhns, William J., 105

— Lagerborg, Dorothy L., 134
— Larson, Carl, 7
— La Veck, Gerald D., 330
— Lennette, Edwin H., 227
— Lepow, Irwin H., 63
— Leskowitz, Sidney, 171
— Levine, Leo, 301
— Lipton, Murray, 454
Longshore, W. Allen, Jr., 227
LoGrippo, Gerald A., 123
Lymph node cells, studies on transfer of, 112

Macris, Nicholas T., 192, 197
Magnuson, Harold J., 348
Makinoan, Takashi, 192, 197
McKenna, John M., 410
Meningopneumonitis virus, interaction with Krebs 2 carcinoma, 377, 386
— —, measurement of lethal potency of, 239
Merrill, E. R., 28
Metabolic fate of isotopically labelled proteins, azoproteins and azohaptens, 417
Metaxas-Buehler, M., 333
Metaxas, M. N., 333
Meyer, Miriam M., 35
Miller, Herbert K., 155
Minuse, Elva, 71
Morgan, Isabel Mountain, 478
Moskowitz, M., 441, 450
Multiplicity reactivation of influenza virus, 326
Mumps virus in Maitland type tissue cultures, 161

Mycobacterium tuberculosis, antigens in filtrates of, active in Middlebrook-Dubos hemagglutination test, 22
— —, antigens in filtrates of, active in tannic acid hemagglutination test, 15

Omi, G., 265
Opton, Edward M., 178
Organ specificity, studies on, 269, 282, 291
Osler, Abraham G., 137, 146
Ouchterlony precipitin test, interpretation of, 460

Palmer, Dan F., 225
Pappenheimer, A. M., Jr., 259
Pasteurella pestis, role of serum proteins in gel-precipitin patterns of, 265
Pearson, Harold E., 134
Peyter’s patches, antibody production by, 203
Pigeon susceptibility to Western equine encephalomyelitis infection, 225
Pillemer, Louis, 50, 63
Plasmin, inactivation of human complement by, 63
Pneumonia, viral influenza in mice, suppression of by xerosin, 430
Pneumonitis virus, newborn, serologic evidence with, 71
Poliomyelitis antibodies in gamma globulin, 178
— antibody patterns in natives of Tahiti and Raiatea, 249
— virus, cellular immunity of monkeys versus antibody titers after oral inoculation with, 475
— —, comparative study of type 2 strains of, 356
— —, evaluation of roller-tube tissue culture for isolation of from feces, 391
Pond, William L., 78
Pope, Lila P., 386
Portnoy, Joseph, 348
Precipitin reaction of blood group B substances with human anti-B produced by isoimmunization of pregnancy, 171
— test, Ouchterlony, interpretation of, 460
Presidential address, 259
Prier, James E., 410
Pringle, B. H., 460
Proteins, labelled, fate of in rats, 315
Proteins, metabolic fate of isotopically labelled, 417
Quan, S. F., 265
Ransom, J. P., 265
Red cells, human, reaction between antiglobulin serum and, 423
Roller, Herbert H., 417
Ribi, Edgar, 7
Rickettsia typhi, resistance of mice with experimental Histoplasmosis infection, 57
Rice, Christine E., 85
Ritts, Roy E., Jr., 209
Robbins, Frederick C., 391
Rogers, Nancy G., 78
Roller-tube tissue culture; evaluation for isolation of poliomyelitis virus from feces, 391
Rose, Noel R., 269, 282, 291
Rosenfeld, G., 167
Roth, Florence B., 50
Russ, Sudie B., 78
Salvin, S. B., 1, 57
Schlesinger, R. Walter, 155
Semliki Forest virus, hemagglutinins of, 470
Sensitivity, tuberculin, studies on cellular transfer of, 333
Serological interrelationships among thyroid extracts of various species, 282
— specificity of thyroid extracts, 269
Serum, human, unusual hemagglutinin in, 197
— proteins, role of in gel-precipitin patterns of Pasteurella pestis, 265
INDEX

Shepard, Charles C., 7
Shigella treated rabbit serum, transfer of lymph node cells incubated in vitro with, 112
Shinefield, Henry R., 227
Shulman, Sidney, 269, 291
Schwartzman reaction, inhibition by dicumarol, 167
Sigel, M. Michael, 377, 386
Silverman, Myron S., 321
Shinefield, H., 227
Sorkin, Ernst, 15, 22
Spanoudis, S., 167
Stavitsky, Abram B., 214
Stone, Joseph L., 301
Stoner, Richard D., 203
Stratton, F., 423
Smadel, Joseph E., 78
Sorlin, Ernst, 15, 22
Stavitsky, Abram B., 214
Stone, Joseph L., 301
Stoner, Richard D., 203
Tamm, Igor, 43
Tannic acid hemagglutination test, 15
Tetanus antitoxin, separation of, dissociated from a toxin-antitoxin, 441
— —, recovery from toxin-antitoxin precipitates, 441
— toxoid, effect of whole body x-irradiation of mice on immunity to, 321
— —, factors affecting efficiency of aluminum adjuvant in, 301
Theiler, M., 470
Thyroid extracts, serological specificity of, 269
— —, ultracentrifugal and electrophoretic examinations of, 291
Tissue cultures, mumps in Maitland type, 161
— —, roller-tube, evaluation of for isolation of poliomyelitis virus from feces, 391
— culture, vesicular stomatitis virus in, 186
Toxin-antitoxin precipitates, recovery of antitoxin from, 441
Training Courses, announcement, 166
Treponema pallidum, immunologic studies with fractions of, 348
Tuberculin, isotope tagged, in vivo uptake of by leukocytes, 209
— sensitivity, studies on cellular transfer of in guinea pigs, 333
Tumor inhibition by virus, 377
—, virus inhibition by, 386
Typhus infected animals, hemagglutination inhibiting antigen in, 35
Tyrrell, David A. J., 43
Ultracentrifugal examination of thyroid extracts, 291
Vaccines, virus, antigenicity of β-propiolactone inactivated, 123
Vesicular stomatitis virus, growth and cytopathogenicity of, 186
Virus, bunyamwera, hemagglutinins of, 470
—, encephalomyelitis in murine nervous tissue tumors, 134
—, herpes simplex, 28
—, influenza, differentiation and purification of by adsorption on aluminum phosphate, 155
— —, growth curves of, 410
— —, multiplicity reactivation of, 326
— —, studies of antibodies in postepidemic sera, 401
— inhibition by tumor, 386
— interference, prevention by 2,5-dimethylbenzimidazole, 43
— meningopneumonitis, interaction with Krebs 2 carcinoma, 377, 386
— —, measurement of lethal potency of, 239
— mouse encephalomyelitis, growth curves of, 410
—, mumps, in Maitland type tissue cultures, 161
—, pneumonitis, newborn, 71
—, poliomyelitis, cellular immunity of monkeys versus antibody titers after oral inoculation with, 475
— —, comparative study of type 2 strains of, 356
— —, evaluation of roller tube tissue culture for isolation of from feces, 391
— proliferation in the mouse, 410
—, Semliki Forest, hemagglutinins of, 470
—, tumor inhibition by, 377
— vaccines, antigenicity of β-propiolactone inactivated, 123
—, vesicular stomatitis, growth and cytopathogenicity of, 186
—, Western equine encephalomyelitis, susceptibility of pigeon to, 225
Walter, Harry, 315, 417
Walters, Shirley R., 308
Watson, Barbara K., 161
Wenner, Herbert A., 356

Western equine encephalomyelitis, absence of neutralizing antibodies against, in sera of children with epilepsy, 330
— — —, skin test for, 227
— — —, use of hyperimmune antiserum concentrates in, 306
— — — virus, susceptibility of pigeon to infection with, 225

Wilson, M. W., 460
Wilcox, W. C., 475
Winn, John F., 225, 330
Witebsky, Ernest, 269, 282, 291
Wright, George G., 129
Wyman, Louise, 301

Xerosin, suppression of influenza virus pneumonia in mice, 430
X-irradiation of mice, effect of on immunity to tetanus toxoid, 321
